Zimbra Collaboration System Administration

Course Content:

Day 1

1. Basic Administration Training Overview

• Overview

• Prerequisites

• Schedule

2. Zimbra Architectural Overview

• Zimbra's Architectural Components

• Zimbra New Features

3. Zimbra Licensing

• Zimbra License Requirements

• Obtaining a License

• License Usage & Activation

• Examining License Status

4. Zimbra Installation

• Installation Considerations

• Installation Process Overview

• Install Exercise

5. Zimbra Administration Console Overview

• Definitions

• Adding & Modifying Domains

• Creating a New Account

• Administrator Accounts: Global and Delegated

• Configuration Elements

• Defining & Modifying a Class of Service

• Mobile Device Management

• Dumpster, Trash, and Landfill

• Auto-Discovery for ActiveSync

• Global Settings Configuration

• Administration Console Exercise

6. Zimbra CLI Utility

• CLI Utility Overview

• Zimbra CLI Commands

• CLI Exercise

7. Zimbra Security Topics

• Single Sign On

• Add a Certificate

• Enable Z/MIME Zimlet

8. Zimbra System Care

• Server Statistics

• Logger Service

- Enabling Server Statistics

- Mail Queues

- Disk Capacity

- Log Files

- Port & Process Monitoring

- Volumes & HSM

- Statistics & Capacity Planning

- Zimbra Collaboration Crontab Jobs

- Troubleshooting Mailstore Performance-zmdiaglog

- Troubleshooting Exercise

Day 2

9. Zimbra NG Backup/Restore

- Backup Overview

- Scheduling Backups

- Performing Backups

- Identifying Backup Failures

- Restore

- Backup and Restore Exercise

10. Zimbra Performance Tuning & Monitoring

- Performance Tuning Guide

- Performance Tuning Background

- Monitoring for Performance

- Chart Analysis

11. Migration Options & Planning

• Migration Planning Overview

• Deployment Planning Worksheet

• Migration Strategy

• Provision and Configure Zimbra as Primary or Secondary

• The Migration

12. Upgrading Zimbra

• Before You Upgrade

• Single-Server Upgrade

• Single-Server Upgrade Exercise

13. Upgrade General System Troubleshooting

• Overview

• 4 Most Common Problems

14. Zimbra on vSphere

• Overview

• About Virtualization

15. Personalizing Your Deployment: Themes & Logos

• What is a Theme?

• What is a Zimlet?

• Customizing Themes Exercise

16. Zimbra Archiving & Discovery

• How Archiving and Discovery Work

• Installing Archiving Package as an Update to Zimbra

• Creating Dedicated Archive COS in Multi-Server Environments

• Performing Discovery Searches

• Administering the Archive Server

• Creating Archive Mailboxes

• Searching Across Mailboxes

• Archiving and Discovery Exercise

Day 3

17. Advanced Zimbra Architecture

• Zimbra Architectural Components

• Possible Deployments

• IMAP Improvements: NIO

• LDAP Multi-Master Replication

• Policyd

• OpenDKIM

18. Architecture & Storage Considerations

• Customer Profile

• Storage and File System Layout

• Backup Overview

• Server Sizing

• Server Performance Tuning

• Direct NFS

19. Multi-Server Installation & Upgrading

• Multi-Server Installation Prerequisites

• Load Balancing on Zimbra Collaboration

• Multi-Server Upgrades

• Perform the Upgrade

• Multi-Node ZC Setup Exercise

20. Delegated Administration

• Delegated Administration Terminology

• How Delegated Administration Rightsare Granted

• Implementing DelegatedAdministration

• Revoking Rights

• Viewing Rights Granted to Administrators

• Predefined Delegated AdministratorRole

• Specific Access Rights

• Delegated Administration Exercises

21. Directory & GAL Integration

• Zimbra Directory Service (LDAP)

• Integration with an External Directory/AD

• Free/Busy Interoperability withExchange

• IPv6

• Voice Integration

• GAL Integration Exercise
