

Deploying Cisco Connected Mobile Experiences (WCMX)

Course Content:

Module 1: Cisco CMX Overview

- Lesson 1: Identifying Required Cisco CMX Components
- Lesson 2: Describing Cisco CMX Capabilities
- Lesson 3: Examining Basic Location Concepts

Module 2: Onsite Visibility and Control

- Lesson 1: Describing the Effects of AP Placement on Achievable Accuracy
- Lesson 2: Examining the Impact of Client Behavior on Location Capabilities
- Lesson 3: Differentiating Cisco Client Location Methods
- Lesson 4: Using the Cisco CMX Dimensioning Calculator

Module 3: Onsite Analytics

- Lesson 1: Describing the Analysis Process
- Lesson 2: Introducing the Analytics GUI
- Lesson 3: Performing Zone Analysis
- Lesson 4: Performing Site Analysis (Presence)
- Lesson 5: Producing Reports

Module 4: Interactive Onboarding

- Lesson 1: Implementing Cisco CMX Visitor Connect
- Lesson 2: Implementing Cisco CMX Facebook Wi-Fi

Labs

- Lab 1: Network Connectivity Verification
- Lab 2: Using the Cisco CMX Dimensioning Calculator
- Lab 3: Using Cisco CMX Analytics
- Lab 4: Implementing Cisco CMX Visitor Connect
- Lab 5: Implementing Cisco Facebook Wi-Fi
