Solution Development using OCI Go and Typescript SDK

Course Contents

- Introduction to OCI Go SDK

- Introduction to OCI Go SDK

- Install OCI Go SDK

- Programming with OCI Services using Go

- Programming with OCI Services Using Typescript SDK

- Steps to launch an instance on OCI using Typescript SDK

- Steps to get OCI instance details using Typescript

- Object Storage on OCI

- Exploring OCI Database using Go

- Exploring OCI Database using Go

- Prerequisites for creating Autonomous Database

- Upgrading an Autonomous Database

- Introduction to OCI Typescript SDK

- Introduction to OCI Typescript SDK

- Steps to Authenticate OCI connection using Typescript SDK

- Programming with OCI Services Using Typescript SDK

- Programming with OCI Services Using Typescript SDK

- Steps to launch an instance on OCI using Typescript SDK

- Steps to get OCI instance details using Typescript

- Object Storage on OCI

- Exploring Container Engine Cluster using Typescript

- Exploring Container Engine Cluster using Typescript SDK

- Steps to create container engine cluster on OCI using Typescript SDK

- Steps to update node pool in container engine on OCI using Typescript SDK
