

40561-G: Microsoft Cloud Workshop: Machine Learning

Module 1: Whiteboard Design Session - Machine Learning

Lessons

- Review the customer case study
- Design a proof of concept solution
- Present the solution

Module 2: Hands-on lab - Machine Learning

Lessons

- Creating a forecast model using automated machine learning
- Understanding the automated ML generated forecast model using model explainability
- Creating a deep learning model (RNN) for time series data and registering the model
- Using a forecast model for scoring of streaming telemetry
- Creating a deep learning text classification model
