ix Course Overview

1 Unit 1: Functional Locations

1	Lesson: Structuring Functional Locations
1	Lesson: Creating Functional Locations
1	Lesson: Transferring Data
1	Lesson: Describing Additional Functions and Enhancements for Functional Locations
1	Lesson: Defining Alternative Labeling
2	Lesson: Summarizing Customizing Settings for Functional Locations

3 Unit 2: Linear Asset Management

3	Lesson: Structuring Linear Assets
3	Lesson: Structuring Object Networks
3	Lesson: Summarizing Customizing Settings for Linear Assets

5 Unit 3: Equipment

5	Lesson: Structuring Equipment
5	Lesson: Defining Equipment Categories
5	Lesson: Applying Status Management
5	Lesson: Assigning Partners and Addresses
5	Lesson: Defining and Configuring Warranties
6	Lesson: Integrating Asset Accounting into SAP Enterprise Asset Management
6	Lesson: Performing a Configuration Check
6	Lesson: Modifying SAP Standard by Using BAPIs, Customer Exits, and Business Add-Ins (BADIs)
6	Lesson: Classifying Equipment
6	Lesson: Summarizing Customizing Settings for Equipment

7 Unit 4: Bills of Material (BOM)

7	Lesson: Structuring Bills of Material (BOM)
7	Lesson: Summarizing Customizing Settings for BOM

9 Unit 5: Serial Numbers

9	Lesson: Structuring Serial Numbers
9	Lesson: Performing a Stock Check for Serial Numbers
9	Lesson: Summarizing Customizing Settings for Serial Numbers

11 Unit 6: Measuring Points and Counters

- 11 Lesson: Structuring Measuring Points and Counters
- 11 Lesson: Executing Measurement Reading Transfers and Counter Replacements
- 11 Lesson: Summarizing Customizing Settings for Measuring Points and Counters

13 Unit 7: Vehicles and Pool Asset Management

- 13 Lesson: Managing Vehicles and Pool Assets
- 13 Lesson: Summarizing Customizing Settings for Pool Asset Management

Course Overview

TARGET AUDIENCE

This course is intended for the following audiences:

- Application Consultant
- Super / Key / Power User
- Project Manager

Lesson 1: Structuring Functional Locations

Lesson Objectives

After completing this lesson, you will be able to:

- Structure functional locations

Lesson 2: Creating Functional Locations

Lesson Objectives

After completing this lesson, you will be able to:

- Create functional locations

Lesson 3: Transferring Data

Lesson Objectives

After completing this lesson, you will be able to:

- Transfer data within technical object structures

Lesson 4: Describing Additional Functions and Enhancements for Functional Locations

Lesson Objectives

After completing this lesson, you will be able to:

- Describe additional functions for functional locations
- Describe enhancements for functional locations

Lesson 5: Defining Alternative Labeling

Lesson Objectives

After completing this lesson, you will be able to:

- Define alternative labeling

Lesson 6: Summarizing Customizing Settings for Functional Locations

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for functional locations

Lesson 1: Structuring Linear Assets

Lesson Objectives

After completing this lesson, you will be able to:

- Structure linear assets

Lesson 2: Structuring Object Networks

Lesson Objectives

After completing this lesson, you will be able to:

- Structure object networks

Lesson 3: Summarizing Customizing Settings for Linear Assets

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for linear assets

Lesson 1: Structuring Equipment

Lesson Objectives

After completing this lesson, you will be able to:

- Structure equipment

Lesson 2: Defining Equipment Categories

Lesson Objectives

After completing this lesson, you will be able to:

- Define equipment categories

Lesson 3: Applying Status Management

Lesson Objectives

After completing this lesson, you will be able to:

- Apply status management

Lesson 4: Assigning Partners and Addresses

Lesson Objectives

After completing this lesson, you will be able to:

- Assign partners and addresses

Lesson 5: Defining and Configuring Warranties

Lesson Objectives

After completing this lesson, you will be able to:

- Define warranties
- Configure warranties

Lesson 6: Integrating Asset Accounting into SAP Enterprise Asset Management

Lesson Objectives

After completing this lesson, you will be able to:

- Integrate asset accounting into SAP Enterprise Asset Management

Lesson 7: Performing a Configuration Check

Lesson Objectives

After completing this lesson, you will be able to:

- Perform a configuration check

Lesson 8: Modifying SAP Standard by Using BAPIs, Customer Exits, and Business Add-Ins (BAIs)

Lesson Objectives

After completing this lesson, you will be able to:

- Explain the concepts of BAPIs, customer exits, and BAIs

Lesson 9: Classifying Equipment

Lesson Objectives

After completing this lesson, you will be able to:

- Classify equipment

Lesson 10: Summarizing Customizing Settings for Equipment

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for equipment

Lesson 1: Structuring Bills of Material (BOM)

Lesson Objectives

After completing this lesson, you will be able to:

- Structure BOM

Lesson 2: Summarizing Customizing Settings for BOM

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for BOM

Lesson 1: Structuring Serial Numbers

Lesson Objectives

After completing this lesson, you will be able to:

- Structure serial numbers

Lesson 2: Performing a Stock Check for Serial Numbers

Lesson Objectives

After completing this lesson, you will be able to:

- Perform a stock check for serial numbers

Lesson 3: Summarizing Customizing Settings for Serial Numbers

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for serial numbers

Lesson 1: Structuring Measuring Points and Counters

Lesson Objectives

After completing this lesson, you will be able to:

- Structure measuring points and counters

Lesson 2: Executing Measurement Reading Transfers and Counter Replacements

Lesson Objectives

After completing this lesson, you will be able to:

- Activate and perform a measurement reading transfer
- Replace a counter

Lesson 3: Summarizing Customizing Settings for Measuring Points and Counters

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for measuring points and counters

Lesson 1: Managing Vehicles and Pool Assets

Lesson Objectives

After completing this lesson, you will be able to:

- Manage vehicles
- Perform the steps of Pool Asset Management

Lesson 2: Summarizing Customizing Settings for Pool Asset Management

Lesson Objectives

After completing this lesson, you will be able to:

- Summarize Customizing settings for pool asset management
