

Introduction to Oracle Financials Cloud

Duration: 1 Day

What you will learn

The Introduction to Oracle Financials Cloud seminar is designed to provide those new to Financials Cloud with an overview of this solution's business benefits and capabilities. You'll gain an understanding of the navigation, key product features, and robust reporting capabilities of the Financials Cloud solution. Expert Oracle Instructors will take you through the modules.

You'll learn about the key features and functionality offered by specific modules within Financials Cloud, including General Ledger, Accounts Payables, Accounts Receivables, Revenue Management, Assets, Cash Management, and Financial Reporting. However, as this is a seminar Oracle University does not include hands-on activities for students.
