

Managing Apple Devices: macOS High Sierra 10.13 and iOS 11.

Course Content

Lesson 1 Introduction

- ❖ Prerequisites
- ❖ Learning Methodology
- ❖ Lesson Structure
- ❖ Exercise Setup

Lesson 2 Apple Management Concepts

- ❖ Understanding Apple's Goals
- ❖ Device Management and Supervision
- ❖ Apple ID Considerations
- ❖ iCloud in Managed Environments
- ❖ Apple Deployment Programs
- ❖ Deployment Scenarios

Lesson 3 Infrastructure Considerations

- ❖ Network Considerations
- ❖ Security Considerations
- ❖ Physical Logistics
- ❖ Support Options

Lesson 4 OS X Server 5 on macOS High Sierra

- ❖ OS X Server Benefits
- ❖ OS X Server Setup
- ❖ SSL Certificates

Lesson 5 Caching Service

- ❖ Caching Service Architecture
- ❖ Caching Service Setup
- ❖ Caching Service Troubleshooting

[Lesson 6 Configuration and Profiles](#)

- ❖ Understanding Profiles
- ❖ Profile Manager Setup

[Lesson 7 Mobile Device Management](#)

- ❖ Mobile Device Management Architecture
- ❖ Profile Manager Device Management
- ❖ User-Initiated Enrollment
- ❖ Profile Manager Inventory and Organization
- ❖ Profile Manager Administrative Tasks
- ❖ Automatically Pushing Profiles

[Lesson 8 Out-of-the-Box Management via Apple Programs for Device Enrollment](#)

- ❖ Introduction to Apple Programs for Device Enrollment
- ❖ Integrate the DEP with Profile Manager
- ❖ Configure DEP and Apple School Manager Assignments in Profile Manager
- ❖ Troubleshooting the Enrollment Process
- ❖ Configure Profile Manager for the Device Enrollment Program
- ❖ Assign Devices to an MDM Service
- ❖ Create and Manage Device Enrollments

[Lesson 9 Activation Lock Management](#)

- ❖ Activation Lock Introduction
- ❖ Manage Activation Lock
- ❖ Observe Activation Lock on an Unsupervised Device
- ❖ Control Activation Lock on a Supervised Device

[Lesson 10 VPP-Managed Apps and Books](#)

- ❖ Volume Purchase Program Essentials
- ❖ VPP Service Enrollment and Administration
- ❖ Integrate VPP with Profile Manager

[Lesson 11 Preparing, Configuring, and Managing iOS Devices](#)

- ❖ About Apple Configurator 2
- ❖ Apple Configurator 2 Planning
- ❖ Apple Configurator 2 Installation and Setup
- ❖ Get Apple Configurator 2

- ❖ Use Configuration Profiles
- ❖ Prepare iOS Devices
- ❖ Create and Use Blueprints
- ❖ Organize Devices
- ❖ Back Up and Restore iOS Devices
- ❖ Automate Device Management

[Lesson 12 Apple Configurator 2: Preparing, Configuring, and Managing iOS Devices](#)

- ❖ Considerations for Managing Apps with Apple Configurator 2
- ❖ Manage Apps and Documents via Apple Configurator 2
- ❖ Update Apps Deployed via Apple Configurator 2
- ❖ Single App Mode

[Lesson 13 User Data and Services](#)

- ❖ User Content Considerations

[Lesson 14 Managing Access](#)

- ❖ Managed Open In
- ❖ Limit Access to Content and Services

[Lesson 15 Develop a Management Plan](#)

- ❖ Define Requirements
- ❖ Consider Third-Party Solutions
- ❖ Develop a Management Plan
