

Internet of Things Fundamentals :

- Introduction
 - Overview
 - Basic Building Blocks of IoT
 - Customer Use Cases
- Architecture
 - End-to-End Architecture
 - Edge vs. Core
 - Lambda Architecture
 - Dynamic Edge Processing
- Platform and Integration
 - HANA Cloud Platform
 - HANA Cloud Integration
 - Data Replication Tools
 - SLT Tools
- Connectivity
 - Gateways
 - OSI Soft
 - Telit
- Data Management
 - Data Management - Dynamic Tiering
 - Data Science Overview
- Security & Privacy
 - IoT Security
- Available Solutions
 - Predictive Maintenance & Service
 - Asset Intelligence Network

- SAP Connected Goods
 - Vehicle Insights
- HCP IoT Services
 - IoT Services Details
