

R12.2 Oracle Implement Configurator

Introduction

- About this Course
- Implementation Overview
- Configuration Models Overview
- Configurations Overview
- Getting Started with Configurator Developer, Part 1
- Getting Started with Configurator Developer, Part 2

Data

- About Configurator Data, Part 1
- About Configurator Data, Part 2
- Preparing Inventory Data
- Preparing BOM Model and Rule Data
- Importing Data
- Verifying Data

Model Structure

- About Configuration Models
- About Properties
- Creating Model Structure, Part 1
- Creating Model Structure, Part 2
- Working with Model Structure, Part 1
- Working with Model Structure, Part 2
- Testing Model Structure

Configuration Rules

- About Configuration Rules
- Rule Creation
- Logic Rules
- Testing Configuration Rules
- Numeric Rules
- Compatibility Rules
- Comparison Rules
- Statement Rules

Connectivity

- Connectivity and Network Models

User Interfaces

- About Configurator User Interfaces
- User Interface Templates
- Creating User Interfaces
- Testing User Interfaces
- Editing User Interfaces

Publishing

- Publishing Configuration Models

Configurator Extensions

- About Configurator Extensions
- Configurator Extension Programming
- Configurator Extension Archives
- Configurator Extension Rules
- Configurator Extension Event Bindings
- Configurator Extension Command Events

Course Summary

- Course Summary
