

Citrix ADC 12.x Essentials

Certification: None | **Course Length:** 3 Days | **Instructional Method:** Classroom or Virtual w/ hands-on labs

Course overview

Learn the skills required to implement Citrix ADC Essential components including secure Load Balancing, High Availability, and Citrix ADC Management. At the end of the course, students will be able to configure their Citrix ADC environments to address traffic delivery and management requirements including Load Balancing, Availability, and ADC Operation Management.

Versions covered

This course is currently on Citrix ADC version 12.x

What you'll learn

- Understand the functionality and capabilities of the Citrix ADC
- Complete the initial setup and configuration of the Citrix ADC appliance
- Understand Citrix ADC Load Balancing and High Availability configuration options and management
- Employ recommended tools and techniques to troubleshoot common ADC network and connectivity issues

Prereq. knowledge

This course requires little to no previous experience with Citrix ADC; however, Citrix recommends completing the free Citrix ADC Introduction bundle at elearning.citrix.com.

Is this course for me?

Built for IT Professionals working with Citrix ADC, with little or no previous ADC experience. Potential students include administrators, engineers, and architects interested in learning how to deploy or manage Citrix ADC.

Citrix ADC Essentials

Module 1: Getting Started

Module 2: Basic Networking

Module 3: Citrix ADC Platforms

Module 4: High Availability

Module 5: Load Balancing

Module 6: SSL Offload

Module 7: Securing Citrix ADC

Module 8: Troubleshooting
