1. **Introducing Unreal Engine 4**
   - Installing Unreal
   - Creating Your First Project
   - Learning the Interface.
   - View Modes and Visualizers
   - Playing a Level
   - Summary
   - Q&A
   - Workshop
   - Exercise

2. **Understanding the Gameplay Framework**
   - Available Resources
   - Asset References and the Reference Viewer
   - Gameplay Framework
   - Summary
   - Q&A
   - Workshop
   - Exercise

3. **Coordinates, Transforms, Units, and Organization**
   - Understanding Cartesian Coordinates
     Working with Transforms
   - Assessing Units and Measurements
   - Organizing a Scene
   - Summary
   - Q&A
   - Workshop
   - Exercise

4. **Working with Static Mesh Actors**
   - Static Mesh Assets
   - Static Mesh Editor
   - Viewing UV Layouts
   - Collision Hulls
   - Static Mesh Actors
   - Summary

- Q&A
- Exercise

5. Applying Lighting and Rendering
- Learning Light Terminology
- Understanding Light Types
- Using Light Properties
- Building Lighting
- Summary
- Q&A
- Workshop
- Exercise

6. Using Materials
- Understanding Materials
- Physically Based Rendering (PBR)
- Material Input Types
- Creating Textures
- Making a Material
- Summary
- Q&A
- Workshop
- Exercise

7. Using Audio System Elements
- Introducing Audio Basics
- Using Sound Actors
- Controlling Sounds with Audio Volumes
- Table of Contents
- Summary
- Q&A
- Workshop
- Exercise

8. Creating Landscapes and Foliage
- Working with Landscapes
- Sculpting Shapes and Volumes
- Using Foliage
- Summary

- Q&A
- Workshop
- Exercise

9. World Building
- Building Worlds
- World Building Process
- Summary
- Q&A
- Workshop
- Exercise

10. Crafting Effects with Particle Systems
- Understanding Particles and Data Types
- Working with Cascade
- Using Common Modules
- Setting Up Materials for Particles
- Triggering Particle Systems
- Summary
- Q&A
- Workshop
- Exercise

11. Using Skeletal Mesh Actors
- Defining Skeletal Meshes
- Importing Skeletal Meshes
- Learning Persona
- Using Skeletal Mesh Actors
- Summary
- Q&A
- Workshop
- Exercise

12. Matinee and Cinematics
- Matinee Actors
- Matinee Editor
- Curve Editor
- Working with Other Tracks
- Working with Cameras in Matinee

- Summary
- Q&A
- Workshop
- Exercise

13. Learning to Work with Physics
- Using Physics in UE4
- Simulating Physics
- Using Physical Materials
- Working with Constraints
- Using Force Actors
- Summary
- Q&A
- Workshop
- Exercise

14. Introducing Blueprint Visual Scripting System
- Visual Scripting Basics
- Understanding the Blueprint Editor
- Fundamental Concepts in Scripting
- Summary
- Q&A
- Workshop
- Exercise

15. Working with Level Blueprints
- Actor Collision Settings
- Assigning Actors to Events
- Assigning Actors to Reference Variables
- Summary
- Q&A
- Workshop
- Exercise

16. Working with Blueprint Classes
- Using Blueprint Classes
- The Blueprint Editor Interface
- Working with the Components
- Working with the Timeline

- Scripting a Pulsating Light
- Summary
- Q&A
- Workshop
- Exercise

17. Using Editable Variables and the Construction Script
- Setting Up
- Making Editable Variables
- Using the Construction Script
- Summary
- Q&A
- Workshop
- Exercise

18. Making Key Input Events and Spawning Actors
- Why Spawning Is Important
- Creating a Blueprint Class to Spawn
- Setting Up the Spawner Blueprint
- Spawning an Actor from a Class
- Summary
- Q&A
- Workshop
- Exercise

19. Making an Action Encounter
- Project Game Modes
- Knowing Characters' Abilities
- Using Blueprint Classes
- Actor and Component Tags
- Summary
- Q&A
- Workshop
- Exercise

20. Creating an Arcade Shooter: Input Systems and Pawns

- Identifying Requirements with a Design Summary
- Creating a Game Project
- Creating a Custom Game Mode
- Creating a Custom Pawn and Player Controller
- Controlling a Pawn's Movement
- Setting Up a Fixed Camera
- Summary
- Q&A
- Workshop
- Exercise

21. Creating an Arcade Shooter: Obstacles and Pickups

- Creating an Obstacle Base Class
- Making Your Obstacle Move
- Damaging the Pawn
- Restarting the Game on Death
- Creating a Health Pickup
- Creating an Actor Spawner
- Cleaning Up Old Obstacles
- Summary
- Q&A
- Workshop
- Exercise

22. Working with UMG

- Creating a Widget Blueprint
- Navigating the UMG Interface
- Creating a Start Menu
- Sample Menu System
- Summary
- Q&A
- Workshop
- Exercise

23. Making an Executable

- Cooking Content
- Packaging a Project for Windows
- Resources for Android and iOS Packaging
- Accessing Advanced Packaging Settings
- Summary
- Q&A
- Workshop
- Exercise

24. Working with Mobile

- Developing for Mobile Devices
- Using Touch
- Using a Device's Motion Data
- Summary
- Q&A
- Workshop
- Exercise
