

# Certificate of Cloud Security Knowledge (CCSK)

## Contents

### Day1

1. Cloud computing concepts and Architectures
  - Defining Cloud Computing
  - Definitional Model
  - Reference and Architecture Models
  - Logical Model
  - Cloud Security Scope, Responsibilities, and Models
2. Governance and Enterprise Risk Management
  - Tools of Cloud Governance
  - Enterprise Risk Management
  - The Effects of Service Model and Deployment Model
  - Cloud Risk Management Tools
3. Legal issues, Contracts and Electronic Discovery
  - Legal Frameworks Governing Data Protection and Privacy
  - Restrictions to Cross-border Data Transfers
  - Regional Examples
  - EUROPEAN UNION
  - AND EUROPEAN
  - ECONOMIC AREA
  - General Data Protection Regulation (GDPR)
  - Contracts and Provider Selection
  - Internal Due Diligence
  - Monitoring, Testing, and Updating
  - External Due Diligence
  - Reliance on Third-Party Audits and Attestations
  - Electronic Discovery
  - Searchability and E-Discovery Tools
  - Data Retention Laws and Record Keeping Obligations
4. Compliance and Audit Management
  - How Cloud Changes Compliance
  - Audit Management
  - How Cloud Changes Audit Management
5. Information Governance
  - Cloud Information Governance Domains
  - The Data Security Lifecycle
  - Locations and Entitlements
  - Functions, Actors, and Controls
6. Management Plane and Business Continuity
  - Business Continuity and Disaster Recovery in the Cloud
  - Architect for Failure
  - Management Plane Security
  - Securing the Management Plane
  - Business Continuity Within the Cloud Provider

## **Day2**

### 7. Infrastructure Security

- Cloud Network Virtualization
- Challenges of Virtual Appliances
- SDN Security Benefits
- Microsegmentation and the Software Defined Perimeter
- Immutable Workloads

### 8. Virtualization and Containers

- Cloud Provider Responsibilities
- Cloud User Responsibilities
- Management Infrastructure

### 9. Incident Response

- Incident Response Lifecycle
- How the Cloud Impacts IR

### 10. Application Security

- Introduction to the Secure Software Development Lifecycle and Cloud Computing
- Impact on Vulnerability Assessment
- Impact on Penetration Testing

### 11. Data Security and Encryption

- Cloud Data Storage Types
- Managing Data Migrations to the Cloud
- Securing Data in the Cloud

### 12. Identity, Entitlement and Access Management

- IAM Standards for Cloud Computing

### 13. Security as a service

### 14. Related Technologies
