

# CheckPoint Certified Automation Specialist (CCAS)

**Duration:** 2 days

## **Overview**

Enrol for the Three days CheckPoint Certified Automation Specialist (CCAS) certification training from Koenig Solutions accredited by Koenig Solutions. This course covers everything you need to start-up, configure and manage daily operations of Check Point Security Gateway and Management Software Blades systems on the GAIa operating system.

## **Target audience**

The course is designed for security engineers, developers, and Check Point resellers who need to create and execute automated scripts to perform routine tasks within their security environment and are working towards their Check Point Certified Automation.

## **Objectives**

You will learn-

- Install R80 management and a security gateway in a distributed environment
- Configure objects, rules, and settings to define a security policy
- Work with multiple concurrent administrators and define permission profiles

## **Prerequisites**

- Basic knowledge of networking
- 6 months to 1 year of experience with Check Point products recommended
