R12.2 Oracle Manufacturing Functional Foundation

Topics

- Understanding Application Basics

  - Describing the Applications Security Mode

  - Discussing Concurrent Processing

  - Describing Flexfields

  - Describing Alerts

  - Describing Workflows

- Understanding Entity Relationship Diagrams and Tables

  - Reading ERDs

  - Understanding Custom Programs in Oracle

  - Setting Up Responsibilities and Users

  - Using Folders and Attachments

  - Defining Flexfields

- Understanding Open Interfaces and APIs

  - Describing the Open Interface Model

  - Managing Open Interface Processing

  - Discussing Standards for Using Open Interfaces

- Understanding Oracle Inventory

  - Discussing Inventory Structure

  - Describing Inventory Major Features and Functions

  - Identifying Major Tables Used in Oracle Inventory

  - Reading Oracle Inventory ERDs

  - Discussing Open Interfaces and APIs for Oracle Inventory

- Understanding Oracle Bills of Material and Engineering

  - Discussing Bill of Material Structures, Resources, Departments, and Routings

  - Understanding Engineering Change Control

  - Identifying the Major Tables Used in Oracle Bills of Material and Engineering

  - Reading Oracle Bills of Material and Engineering ERDs

  - Discussing Open Interfaces and APIs for Oracle Bills of Material and Engineering

- Understanding Oracle Cost Management

  - Discussing Costing Methods Supported in Oracle Cost Management

  - Identifying the Major Tables Used in Oracle Cost Management

  - Reading Oracle Cost Management ERDs

  - Discussing Open Interfaces and APIs for Oracle Cost Management

- Understanding Oracle Work in Process

  - Discussing the Flow of Inventory through a Factory

  - Identifying the Major Tables Used in Oracle Work in Process

  - Reading Oracle Work in Process ERDs

  - Discussing Open Interfaces and APIs for Oracle Work in Process

- Understanding Oracle Order Management

  - Describing the Order Management Process Flow

  - Identifying the Major Tables Used in Oracle Order Management

  - Reading Oracle Order Management ERDs

  - Discussing Open Interfaces and APIs for Oracle Order Management

- Understanding Oracle Advanced Supply Chain Planning

  - Discussing the Planning Process

  - Identifying the Major Tables Used in Oracle Advanced Supply Chain Planning

  - Reading Oracle Advanced Supply Chain Planning ERDs

  - Discussing Open Interfaces and APIs for Oracle Advanced Supply Chain Planning

- Understanding Oracle Purchasing

  - Discussing Purchasing Activities from Requisitions to Receipt of Goods

  - Identifying the Major Tables Used in Oracle Purchasing

  - Reading Oracle Purchasing ERDs

  - Discussing Open Interfaces and APIs for Oracle Purchasing

- Understanding Oracle Quality

  - Understanding the Major Features and Process Flows in Oracle Quality

  - Identifying the Major Tables Used in Oracle Quality

  - Reading Oracle Quality ERDs

  - Discussing Open Interfaces and APIs for Oracle Purchasing
