

# Oracle Campus Solutions 9.2 Delta/New Features

**Duration:** 2 day

## **Overview**

Enroll for the Two-day Oracle Campus Solutions 9.2 Delta/New Features training from Koenig Solutions accredited by Oracle. This course will focus on the differences between the 9.0 and 9.2 functionality. In this course, participants learn the functional differences that appear in the 9.2 product for Campus Solutions. These concepts include practical skills such as navigation using CS Fluid, changes to the architecture and globalization. It covers the Campus community and changes to the Recruiting and Admissions areas. Then goes into the changes to the following areas: Student Records, Academic Advisement, Student Financials and Financial Aid. The course content and structure are similar to the Introduction for PeopleSoft course, but with an emphasis on how the common concepts have changed within the 9.2 Campus Solutions system.

## **Target audience**

- Administrator
- Analyst
- Developer
- Implementer

## **Objectives**

- Overview of the changes between Campus Solutions 9.0 and 9.2
- Discussion of 9.2 technical changes
- Discussion of new 9.2 features including fluid, mobile, etc.
- Discussion of regulatory and legislative changes within Financial Aid

## **Learn To:**

- Navigate using CS Fluid
- Understand the Architecture changes
