

# Managing Day-to-Day Operations on OCI Ed 1

## Course Contents

### **Getting Started with Cloud Operations**

- What Is Cloud Operations?
- Operations on OCI

### **Introduction to Cloud Automation**

- Cloud Scale Challenges
- Automation Basics
- Automation Tools

### **Getting Started with CLI**

- CLI Command Construct
- Configure the CLI
- Launch Compute Instance Command
- Working with JSON Input Templates
- Launch a Compute Instance with the JSON Template
- Using a Script to Orchestrate Several Tasks

### **Using Terraform and Resource Manager**

- Why Infrastructure as Code
- IaC Best Practices
- Terraform Configuration and Actions
- Managing the State of the Environment
- Terraform Local State
- Useful Features for Managing IaC with Terraform
- Oracle Resource Manager

### **Creating and Managing Custom Images**

- Best Practice for Instances
- Managing Custom Images

- Custom Image with userdata
- DR considerations
- Import Images/Export Images

### **Using Ansible to Manage Configuration and Infrastructure on OCI**

- Configuration Management
- How Ansible Works
- Installing Ansible
- Ad-hoc Commands
- Ansible Playbooks
- OCI Ansible Modules
- Ansible on OCI - Run a Simple Test

### **Oracle Cloud Infrastructure- Security Best Practices**

- Shared Security Responsibility Model
- Oracle Cloud Infrastructure Security Capabilities at a Glance
- IAM Best Practices
- Securing OCI
- Network Security Architecture
- Security Testing Policy

### **Data Backup Operations**

- What Is RTO and RPO?
- Backup Options
- Object Storage Lifecycle Management
- Backup Strategy Using Storage Gateway
- Hybrid Cloud - Tiering, Using Cloud Sync Feature

### **Scaling Operations**

- Vertical Scaling
- Instance Configuration and Pool
- Autoscaling Configurations
- Autonomous DB Scaling options

## **Billing and Cost Management**

- OCI Cost Analysis
- OCI Budgets
- Service Limits and Usage
- Compartment Quotas and Quota Policies
- Cost Management: Best Practices

## **Troubleshooting and Performance**

- Subnet or VCN Deletion
- Block Volume Performance
- Unable to SSH to Instance
