

R12.2.9 Implement Oracle Workflow

Table of Contents

1 : Introduction to Oracle Workflow

- Traditional Workflow
- Event-Based Workflow
- Designing Applications

2 : Oracle Workflow Components

- Oracle Workflow Architecture
- Business Event System Architecture
- Oracle Workflow Home Pages
- Workflow Definitions Loader

3 : Planning a Workflow Process

- Planning a Workflow Process
- Practice: Planning a Workflow Process

4 : Diagramming a Workflow Process

- Creating a New Workflow Process
- Editing a Transition, Display modes, Validation
- Practice: Creating a Workflow Process

5 : Defining Item Type Attributes and Lookup Types

- Defining Item Type Attributes and Lookup Types
- Practice: Defining item attributes

6 : Defining Messages and Notification Activities

- Defining a Message
- E-mail Notifications
- Defining a Notification Activity
- Practice: Defining messages
- Practice: Defining notification activities

7 : Testing and Monitoring Workflow Processes

- Testing and Monitoring Workflow Processes
- Practice: Running a Workflow Process

8 : Viewing and Responding to Notifications

- Viewing Notifications from a Web Browser
- Viewing Notifications Through E-mail
- Practice: Responding to Notifications

- Practice: Modifying a Workflow Process
- Practice: Modifying a Workflow Process contd

9 : Worklist Flexfields

- Worklist Flexfields
- Practice: Defining a Specialized Worklist

10 : Oracle Workflow Directory Service

- Oracle Workflow Directory Service

11 : Defining Function Activities

- Function Activities
- Exception Handling
- Error Handling
- Practice: Defining a Function Activity
- Practice: Branching on a Function Activity Result
- Practice: Using the standard Assign activity

12 : Post-Notification Functions

- Post-Notification Functions
- Practice: Defining a post notification function activity

13 : Workflow Engine

- Overview of the Workflow Engine
- Background Engines, Time Out Activities
- Deferred Processing
- Oracle Workflow API's
- Practice: Implementing timeout processing
- Practice: Implementing Deferred Processing

14 : Business Events

- Event Properties, Defining an Event
- Event Groups
- Raising Events, Predefined Events
- Practice: Define an Event
- Practice: Raise an event

15 : Event Subscriptions

- Event Subscriptions, Subscription Actions
- Defining and Maintaining a Subscription
- Practice: Create an event subscription

16 : Systems and Agents

- Systems and Agents

17 : Defining Event Activities

- Defining Event Activities
- Practice: Define Event Activities

18 : Business Event System APIs

- Business Event System APIs

19 : Error Handling

- Error Handling

20 : PL/SQL Documents

- PL/SQL Documents
- Practice: PL/SQL documents

21 : Forced Synchronous Processing

- Forced Synchronous Processing

22 : Selector/Callback Functions

- Selector/Callback Functions
- Practice: Create and Use a Selector function

23 : Master/Detail Coordination Activities

- Master/Detail Coordination Activities

24 : Customizing Workflow Processes

- Customizing Workflow Processes

25 : Workflow Loaders

- Workflow Loaders

26 : Specialized Workflow Monitoring

- Specialized Workflow Monitoring

27 : Setting Up Oracle Workflow

- Setting Up Oracle Workflow

28 : Managing Service Components

- Managing Service Components
