

Primavera Unifier: uDesigner Fundamentals

Course Outline

1 : Navigation

- Navigation: Summary
- Activity 1-1: Signing In to Unifier
- Activity 1-2: Tab and Mode Navigation

2 : Concepts

- Concepts: Summary
- Activity 2-1: Assigning Design Permissions

3 : Structures

- Structures: Summary
- Activity 3-1: Creating Basic Data Definitions
- Activity 3-2: Creating Data Elements
- Activity 3-3: Editing Existing Data Elements

4 : Statures

- Statures: Summary
- Activity 4-1: Creating Record Statures
- Activity 4-2: Sorting Record Status Order

5 : Shells

- Shells: Summary
- Activity 5-1: Creating Single-Instance Generic Shell
- Activity 5-2: Adding Blocks to a Detail Form
- Activity 5-3: Adding Data Elements to Detail Form Blocks
- Activity 5-4: Defining the Standard Log
- Activity 5-5: Running the Error Check

6 : Form

- Form: Summary
- Activity 6-1: Defining User Attributes Forms
- Activity 6-2: Defining User Logs
- Activity 6-3: Defining Company Users Integration
- Activity 6-4: Defining the User Picker

7 : Creation

- Creation: Summary

- Activity 7-1: Creating a Simple Business Process
- Activity 7-2: Creating the Upper Form
- Activity 7-3: Adding Blocks to the Upper Form
- Activity 7-4: Adding Data Elements to the Upper Form
- Activity 7-5: Completing a Business Process

8 : Forms

- Forms: Summary
- Activity 8-1: Creating an Upper Form Template
- Activity 8-2: Linking Upper Form Templates to a Form
- Activity 8-3: Updating Forms
- Activity 8-4: Unlinking and Deleting Templates

9 : Process

- Process: Summary
- Activity 9-1: Creating a Line Item Business Process
- Activity 9-2: Creating the Upper Form
- Activity 9-3: Adding Data Elements in Upper Form Blocks
- Activity 9-4: Using the Detail Form
- Activity 9-5: Using Item Logs
- Activity 9-6: Using the Standard Log

10 : Process

- Process: Summary
- Activity 10-1: Creating Line Item Statuses
- Activity 10-2: Creating Line Item Business Process with Workflow
- Activity 10-3: Using Upper Forms
- Activity 10-4: Building the Detail Form
- Activity 10-5: Using Item Logs
- Activity 10-6: Workflow Diagrams
- Activity 10-7: Designing the Standard Log

11 : Case Study - Part 1

- Case Study - Part 1

12 : Routing

- Routing: Summary
- Activity 12-1: Adding Conditional Routing to a Workflow

13 : Formulas

- Formulas: Summary
- Activity 13-1: Adding a Numeric Calculation to a Form

- Activity 13-2: Adding a Text Calculation to a Form
- Activity 13-3: Adding Date Calculations to a Form

14 : Validation

- Validation: Summary
- Activity 14-1: Adding Validation to a Business Process

15 : Manager

- Manager: Summary
- Activity 15-1: Creating Auto-Publish Data Definitions and Data Elements
- Activity 15-2: Defining Auto-Publish for Attachments
- Activity 15-3: Defining Auto-Publish for Records

16 : Email

- Email: Summary
- Activity 16-1: Defining Email Notification Elements

17 : Sequencing

- Sequencing: Summary
- Activity 17-1: Creating and Configuring an Auto-sequence Element

18 : Consolidation

- Consolidation: Summary
- Activity 18-1: Defining Consolidation

19 : Population

- Population: Summary
- Activity 19-1: Auto-Populate from Single-Record BPs
- Activity 19-2: Auto-Populate from DM Attribute Form to a Document-Type BP
- Activity 19-3: Auto-Populate Using Constant Values

20 : Elements

- Elements: Summary
- Activity 20-1: Creating Linked Elements in Shells
- Activity 20-2: Creating Linked Elements in BPs

21 : Integration

- Integration: Summary
- Activity 21-1: Adding Integration to a Business Process

22 : Versioning

- Versioning: Summary

- Activity 22-1: Saving a Snapshot
- Activity 22-2: Using Restoration

23 : Designs

- Designs: Summary
- Activity 23-1: Deploying Business Processes
- Activity 23-2: Deploying Attribute Forms
- Activity 23-3: Deploying Shells

24 : Case Study - Part 2

- Case Study - Part 2

25 : Types

- Types: Summary
- Activity 25-1: Importing Business Processes as XML
- Activity 25-2: Reviewing Document Type
- Activity 25-3: Reviewing Text Type
- Activity 25-4: Reviewing Cost Type
- Activity 25-5: Reviewing RFB Type Step
- Activity 25-6: Reviewing Project/Shell Creation Type
