Oracle Database 19c: Data Warehousing Techniques

Course Outline:

1: Course Overview

2: Data Extraction Techniques

❖ Data Extraction Techniques

❖ Data Extraction Process

3: Introduction to Data Transformation

4: Data Transformation Techniques

5: Data Loading Techniques

❖ Data Loading Techniques

❖ Loading Techniques Supported by Oracle

6: Database Sizing, Storage, and Security Considerations

❖ Database Sizing, Storage, and Security Considerations

❖ Data Partitioning

7: Data Refresh Techniques

❖ Data Refresh Techniques

❖ Applying the Changes to the Data Warehouse

8: Summary Management

❖ Summary Management

❖ Refresh Modes

9: Metadata Management

❖ Metadata Management

❖ Metadata Strategy and Considerations

10: Data Warehouse Implementation Considerations
