This course introduces the TIBCO Data Virtualization architecture and the key development component, Studio. It explains LDAP configuration and configuration features of the Manager interface, provides a practical demonstration, and covers logging. Details about Active cluster creation are demonstrated as well as backup, admin tools, and troubleshooting.

Learning Objectives

• Introduce the TIBCO Data Virtualization platform, Studio, and Manager tool
• Explain configuration of LDAP
• Explore event logging and configuration
• Understand active cluster configuration
• Analyze backup and deployment options
• Explore admin tools and troubleshooting

Course Prerequisites

• None

TIBCO Software Inc. unlocks the potential of real-time data for making faster, smarter decisions.
