COURSE RATING

✓ ✓ ✓ ✓ ✓

Courses are rated from one to five, with five checks indicating most technically challenging.

COURSE OVERVIEW

This comprehensive course enables system administrators to administer and maintain the TIBCO JasperReports Server repository; define users, roles, and security; and configure, install and upgrade TIBCO JasperReports Server.

Through a combination of lecture, hands-on exercises, and use case scenarios, participants will become proficient at administering TIBCO JasperReports Server. Students are provided access to all course materials and the TIBCO Jaspersoft training environment.

LEARNING OBJECTIVES
- Identify installation options
- Create reports
- Configure Server security
- Manage repository and repository resources
- Branding and customization options
- Discuss localization and troubleshooting
- Explain Tuning for performance
- Configure advanced options
- Explore deployment and upgrade
