# Table of Contents

## Day 1 Introduction to the information security management system (ISMS) and ISO/IEC 27001

- Overview — Clauses 4 to 10
- Overview — Annex A
- Statement of Applicability

## Day 2  Audit principles, preparation, and initiation of an audit

**Section 6: Fundamental audit concepts and principles**............................................................

- Audit standards
- What is an audit?
- Types of audits
- Involved parties
- Audit objectives and criteria
- Combined audit
- Principles of auditing
- Competence and evaluation of auditors

**Section 7: The impact of trends and technology in auditing**..................................................

- Big data
- The three V's of big data
- The use of big data in audits
- Artificial intelligence
- Machine learning
- Cloud computing
- Auditing outsourced operations

**Section 8: Evidence-based auditing**........................................................................................

- Audit evidence
- Types of audit evidence
- Quality and reliability of audit evidence

**Section 9: Risk-based auditing**...............................................................................................

- Audit approach based on risk
- Materiality and audit planning
- Reasonable assurance

**Section 10: Initiation of the audit process**..............................................................................

- The audit offer
- The audit team leader
- The audit team
- Audit feasibility
- Audit acceptance
- Establishing contact with the auditee
- The audit schedule

**Section 11: Stage 1 audit**..................................................................................................

- Objectives of the stage 1 audit
- Pre on-site activities
- Preparing for on-site activities
- Conducting on-site activities
- Documenting the outputs of stage 1 audit

## Day 3   On-site audit activities

**Section 12: Preparing for stage 2 audit**...............................................................................

- Setting the audit objectives
- Planning the audit
- Assigning work to the audit team
- Preparing audit test plans
- Preparing documented information for the audit

**Section 13: Stage 2 audit**...................................................................................................

- Conducting the opening meeting
- Collecting information
- Conducting audit tests
- Determining audit findings and nonconformity reports
- Performing a quality review

**Section 14: Communication during the audit** .....................................................................

- Behavior during on-site visits
- Communication during the audit
- Audit team meetings
- Guides and observers
- Conflict management
- Cultural aspects

- Communication with the top management

**Section 15: Audit procedures**.......................................................................................................

- Overview of the audit process
- Evidence collection and analysis procedures
- Interview
- Documented information review
- Observation
- Analysis
- Sampling
- Technical verification
- Corroboration
- Evaluation
- Auditing virtual activities and locations

**Section 16: Creating audit test plans**........................................................................................

- Audit test plans
- Examples of audit test plans
- Guidance for auditing an ISMS

## Day 4    Closing of the audit

**Section 17: Drafting audit findings and nonconformity reports** ...........................................

- Audit findings
- Types of possible audit findings
- Documenting the audit findings
- Drafting a nonconformity report
- The principle of the benefit of the doubt

**Section 18: Audit documentation and quality review**...............................................................

- Work documents
- Quality review

**Section 19: Closing of the audit** .................................................................................................

- Determining audit conclusions
- Discussing audit conclusions
- Closing meeting

- Preparing audit report
- Distributing the audit report
- Making the certification decision
- Closing the audit

## Section 20: Evaluation of action plans by the auditor ...........................................................

- Submission of action plans by the auditee
- Content of action plans
- Evaluation of action plans

## Section 21: Beyond the initial audit ........................................................................................

- Audit follow-up activities
- Surveillance activities
- Recertification audit
- Use of trademarks

## Section 22: Managing an internal audit program ....................................................................

- Managing an audit program
- Role of the internal audit function
- Main internal audit services and activities
- Audit program resources
- Audit program records
- Follow up on nonconformities
- Monitoring, evaluating, reviewing, and improving an audit program

## Section 23: Closing of the training course ..............................................................................

- PECB certification scheme
- PECB certification process
- Other PECB services
- Other PECB training courses and certifications
