

# Adobe Experience Manager

## Customize Digital Assets in AEM (All versions)

**Course description:** Customize Digital Assets in AEM is a 2-day, instructor-led (classroom and virtual) course, and is relevant for all deployment methods. This course covers the configurations of AEM Assets using the application's user-friendly consoles. In this course, you will learn how to configure, customize, plan, and deliver assets for your enterprise Digital Asset Management system.

**AEM Version:** All versions

**Prerequisites:** Manage and Deliver Digital Assets Using AEM or equivalent knowledge

**Target audience:** Power users, asset librarians, and AEM developers who want to configure AEM Assets.

### Objectives

After completing this course, you will be able to:

- Create folders and upload assets
- Create new renditions with a processing profile
- Manage users, groups, and permissions
- Manage and customize asset metadata
- Manage and customize asset reports
- Manage and customize asset searches
- Manage and create workflows
- Create and customize projects
- Translate asset metadata to other languages
- Customize the AEM Asset user interface
- Create and deliver rich visual assets through Dynamic Media

### Course Materials

- Customize Digital Assets in AEM Student Guide

### TOPICS

- Assets Authoring Basics
