

[Learn Wi-Fi Password Penetration Testing \(WEP/WPA/WPA2\)](#)

Table of Content

Topic 1. Preparation

- Lab Overview & Needed Software
- Initial Preparation
- Installing Kali Linux as a VM on Windows
- Installing Kali Linux as a VM on Apple Mac OS
- Installing Kali Linux as a VM on Linux
- Basic Overview of Kali Linux
- Linux Terminal & Basic Commands

Topic 2. Network Basics

- Connecting a Wireless Adapter to Kali
- What is MAC Address & How to Change It
- Wireless Modes - Managed & Monitor Mode Explained
- Sniffing Basics - Using Airodump-ng
- Wi-Fi Bands - 2.4Ghz & 5Ghz Frequencies
- Targeted Sniffing Using Airodump-ng
- Deauthentication Attack (Disconnecting Any Device from The Network)
- Discovering Hidden Networks
- Connecting To Hidden Networks
- Bypassing Mac Filtering (Blacklists & Whitelists)

Topic 3. WEP Cracking

- Cracking Sections Introduction
- Theory Behind Cracking WEP
- WEP Cracking - Basic Case
- Associating With Target Network Using Fake Authentication Attack
- ARP Request Reply Attack
- Chopchop Attack
- Fragmentation Attack
- Cracking SKA Networks

Topic 4. WPA/WPA2 Cracking

- WPA Cracking - Introduction

Topic 5. WPA/WPA2 Cracking - Exploiting WPS

- WPA Cracking - Exploiting WPS Feature
- Bypassing "Failed to associate" Issue
- Bypassing 0x3 & 0x4 Errors
- WPS Lock - What Is It & How to Bypass it
- Unlocking WPS

Topic 6. WPA/WPA2 Cracking - Wordlist Attacks

- How To Capture the Handshake
- Creating a Wordlist
- Cracking Key Using a Wordlist Attack
- Saving Cracking Progress
- Using Huge Wordlists with Aircrack-ng Without Wasting Storage
- Saving Cracking Progress When Using Huge Wordlists Without Wasting Storage
- Speeding the Cracking Process Using Rainbow Tables
- Cracking WPA/WPA2 Much Faster Using GPU

Topic 7. WPA/WPA2 Cracking - WPA/WPA2 Enterprise

- What is WPA/WPA2 Enterprise & How it Works
- How To Hack WPA/WPA2 Enterprise
- Stealing Login Credentials
- Cracking Login Credentials

Topic 8. Protection

- Securing Systems from The Above Attacks
- How to Configure Wireless Security Settings to Secure Your Network
