Power BI Paginated Reports in a Day

The Power BI Paginated Reports in a Day will walk attendees through the technical knowledge required to create, publish, and distribute Power BI paginated reports. The training requires an access to premium account and downloading the Power BI Paginated Report Builder.

The course covers these topics:

- Design report layouts.
- Connect to data sources to retrieve report data.
- Work with parameters.
- Visualize report data.
- Add interactive features.
- Publish, consume, deliver, and embed paginated reports.
