

Leap into Power BI

Prerequisites:

One year of Tableau experience.

Course Description:

Leap into Power BI is a one-day introduction for data analysts, developers, and engineers currently using Tableau, showing them how to achieve the same functionality in Power BI. The course contains presentations and labs.

At the end of the day attendees will better understand:

- What is Power BI?
- Data connectivity and transformation in Power BI.
- How to perform calculations in Power BI.
- Organizing and simplifying data.
- Visualization.
- Analytics.
- Performance optimization.

Computer Prerequisites:

- A computer with:
 - Windows 8 / Windows Server 2008 R2, or later
 - Latest version of Power BI Desktop 64-bit
 - Microsoft Edge (based on Chromium) recommended—or, another web browser supported by Power BI

Course Modules:

- 01: Power BI Overview
- 02: Data Connectivity and Transformation
- 03: Calculations
- 04: Organizing and Simplifying
- 05: Visualization
- 06: Analytics
- 07: Performance Optimization
- 08: Bringing it all Together
