Monitoring Systems and Services with Prometheus (LFS241)

Chapter 1. Course Introduction

Chapter 2. Introduction to Systems and Service Monitoring

Chapter 3. Introduction to Prometheus

Chapter 4. Installing and Setting Up Prometheus

Chapter 5. Basic Querying

Chapter 6. Dashboarding

Chapter 7. Monitoring Host Metrics

Chapter 8. Monitoring Container Metrics

Chapter 9. Instrumenting Code

Chapter 10. Building Exporters

Chapter 11. Advanced Querying

Chapter 12. Relabeling

Chapter 13. Service Discovery

Chapter 14. Blackbox Monitoring

Chapter 15. Pushing Data

Chapter 16. Alerting

Chapter 17. Making Prometheus Highly Available

Chapter 18. Recording Rules

Chapter 19. Scaling Prometheus Deployments

Chapter 20. Prometheus and Kubernetes

Chapter 21. Local Storage

Chapter 22. Remote Storage Integrations

Chapter 23. Transitioning From and Integrating with Other Monitoring Systems

Chapter 24. Monitoring and Debugging Prometheus
