

Certified Business Analysis Professionals (CBAP)

Duration: 40 Hours (5 Days)

Overview

The Certified Business Analysis Professional (CBAP) course is a comprehensive training program designed for individuals seeking to deepen their knowledge and skills in business analysis. This course is founded on the standards of the Business Analysis Body of Knowledge (BABOK® Guide) and prepares learners for the CBAP certification exam. Through a structured curriculum, participants will explore foundational concepts, delve into business analysis planning and monitoring, understand Elicitation, Requirements Management, Strategy Analysis, and Solution Evaluation, and develop Underlying Competencies essential for an experienced business analyst. CBAP training focuses on practical applications and real-world scenarios, ensuring that learners are equipped with the tools and techniques necessary for success in various business contexts. CBAP classes also cover a wide range of perspectives such as Agile, Business Intelligence, IT, Business Architecture, and Business Process Management, offering a holistic view of business analysis. Engaging in CBAP training and classes will significantly enhance one's ability to drive business improvements and deliver value to stakeholders.

Audience Profile

The CBAP course equips professionals with advanced business analysis skills, targeting experienced individuals seeking certification.
