

*ITIL Foundation recap xi*

*1 Introduction 1*

- 1.1 What is the cloud? 3*
- 1.2 The origins of cloud 3*
- 1.3 Types of cloud solution 6*
- 1.4 Deciding to use cloud services 10*
- 1.5 Cloud as a key component of digital strategy 12*
- 1.6 The role of cloud services in a digital transformation 13*
- 1.7 Cloud services and sustainability objectives 14*
- 1.8 Governance 15*
- 1.9 How to use this publication 20*

*2 Explore: Can the organization benefit from cloud? 31*

- 2.1 About the explore step 32*
- 2.2 Understanding the cloud's role in strategy 33*
- 2.3 Setting the strategic scope 36*
- 2.4 Cloud strategic positioning 38*
- 2.5 Value: outcomes, costs, and risks 43*
- 2.6 Formulating the initial cloud strategy 53*
- 2.7 Summary 61*

*3 Engage: Meeting a cloud service provider 63*

- 3.1 About the engage step 64*
- 3.2 Understanding the CSP landscape 65*
- 3.3 Types of services to be considered 71*
- 3.4 Defining requirements for cloud services 75*
- 3.5 Request for information and proof of concept 84*
- 3.6 Conducting a cloud readiness assessment 84*
- 3.7 Engaging with cloud service providers 87*
- 3.8 Reviewing the cloud strategy and cloud service requirements 92*
- 3.9 Summary 92*

*iv*

*4 Offer: Selecting the right services and service provider 93*

- 4.1 About the offer step 94*
- 4.2 Establishing a desired minimum return on investment 95*
- 4.3 Communicating requirements 96*
- 4.4 Request for proposal 96*
- 4.5 Reviewing proposals 101*
- 4.6 Determining the return on investment of the proposed cloud services 105*
- 4.7 Defining and communicating a business case for cloud services 110*
- 4.8 Summary 113*

*5 Agree: Negotiating and planning 115*

- 5.1 About the agree step 116*
- 5.2 Agreeing and planning value co-creation 117*
- 5.3 Negotiating and agreeing a cloud service 118*
- 5.4 Cloud service agreements 119*
- 5.5 Shared responsibility model 120*
- 5.6 Roles and responsibilities map 122*
- 5.7 Charging models 124*
- 5.8 Summary 125*

*6 Onboard (and offboard): Moving to the cloud 127*

- 6.1 About the onboard step: general considerations 128*
- 6.2 Migrating to cloud as a part of an onboarding initiative 134*
- 6.3 Security and compliance considerations 140*
- 6.4 Summary 143*

*7 Co-create: Enabling value 145*

- 7.1 About the co-create step 146*
- 7.2 Operating model alignment 147*
- 7.3 The value co-creation map for cloud 149*
- 7.4 Value co-creation drivers in practice 152*
- 7.5 Managing the optimization of cloud service consumption 166*
- 7.6 Managing cloud service quality 168*

7.7	<i>Using cloud tools for value co-creation</i>	170
7.8	<i>Summary</i>	171
8	<i>Realize: Measuring and improving</i>	173
8.1	<i>About the realize step</i>	174
8.2	<i>Maintaining operating model alignment</i>	175
8.3	<i>VUCA and the value co-creation map</i>	176
8.4	<i>Continual improvement and the value co-creation map for cloud</i>	180
8.5	<i>Summary</i>	188
9	<i>Conclusion</i>	189
<i>ITIL® 4: Acquiring and Managing Cloud Services</i>
