

Power BI Fabric Analyst in a Day

Duration 8 hours

FAIAD is an intermediate-level training designed for Power BI Data Analysts with at least 1 year of experience on Power BI, but new to Microsoft Fabric.

At the end of the day, attendees will better understand how to:

- Identify when their organizations can benefit from using Microsoft Fabric for their specific business scenarios.
- Leverage the full power of Microsoft Fabric to streamline and enhance productivity with integrated analytics platform.
- Unify and transform data from across various data sources through Shortcuts, Dataflows Gen 2 and Pipelines.
- Build rich and powerful reports to discover meaningful insights and make impactful business decisions with Power BI.
