

App in a Day

This app development course lets you experience the possibilities of building great business apps without writing code—in a single day. As a business leader, you need to react quickly to the changing market and cannot stay dependent on developing a software solution to do that. You want the ability to build a solution to meet your business needs swiftly. With Microsoft Power Platform, you can build great business apps without writing code.

At the end of the day, attendees will understand how to:

- Create custom business applications without writing code.
- Learn how to build sophisticated business processes and complex data relationships within applications.
- Learn how to connect your app to a variety of data sources to bring it to life.
- Share your apps inside your organization securely.
