Clojure with Node and React App Development

i. Introduction to Clojure
ii. Basic Clojure Syntax and the REPL
iii. Clojure Functions
iv. Clojure Namespaces
v. Working with Java Code & Clojure
vi. More Clojure Syntax...
vii. Intro to Functional Programming with Clojure
viii. Data Structures
ix. Polymorphism

REACT JS

i. Introduction to React JS
ii. Emerging JavaScript
iii. Pure React
iv. React with JSX
v. Props, State and the Component Tree
vi. Enhancing Components
vii. Redux
viii. React Redux
ix. React Router
x. React on the Server

NODE JS
i. Understanding Node environment
ii. Understanding Asynchronous Event Driven Programming
iii. Streaming Data Across Node And clients
iv. Access the File System
v. Using Express
vi. Databases
vii. Working with MySQL
viii. Connecting Node with Angular
ix. CRUD operation with HTTP
x. Deployment.
