Restricted Rights Notice

If this documentation is delivered to the United States Government or anyone using the documentation on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

Trademark Notice

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

Third-Party Content, Products, and Services Disclaimer

This documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

I New Features for Developers
Presenters I-2
Audience I-3
Prerequisites I-4
Learning Outcome I-5
Course Objectives I-6

1 SQL Enhancements for DML & DDL
Objectives 1-2
Agenda - DEFAULT ON NULL for UPDATE Statements 1-3
Data Analytics: Enhancements to SQL Statements 1-4
Example: 1-5
Agenda - Annotations 1-8
Data Analytics: Enhancements to SQL Statements 1-9
Example 1-10
Agenda - IF (NOT) EXISTS Enhancement 1-12
Data Analytics: IF (NOT) EXISTS Enhancement 1-13
Example 1-14
Agenda - GROUP BY Column Alias or Position 1-17
Data Analytics: Enhancements to SQL Statements 1-18
Example 1-19
Agenda - SELECT without FROM clause 1-22
SQL: SELECT Without FROM Clause 1-23
Example 1-24
Agenda - RETURNING Clause Enhancement 1-27
Data Analytics: Enhancements to SQL Statements 1-28
Example 1-29
Agenda - SQL Support for BOOLEAN Datatype 1-30
SQL PLUS Support for Boolean Datatype 1-31
Example: 1-32
Agenda - Table Value Constructor 1-36
Data Analytics: Enhancements to SQL Statements 1-37
Example 1-38
Table Value Constructor: Example 1-40

Agenda - Aggregation over INTERVAL types 1-42
Aggregation Over INTERVAL Data Types 1-43
Aggregation Over INTERVAL Data Types: Example 1-44
Agenda - Direct Joins for UPDATE and DELETE 1-45
Data Analytics: Enhancements to SQL Statements 1-46
Example 1-47
Summary 1-49

2 JSON
Objectives 2-2
JSON Schema Support 2-3
Data Analytics: JSON Schema Support 2-4
JSON Schema Support: Example 2-5
Example: 2-7
SODA Enhancements 2-9
Why are these SODA Enhancements important? 2-12
Enhancement to JSON_TRANSFORM 2-13
Example 2-16
Comparing and Sorting JSON Datatypes 2-20
Database Version Comparison: Example 2-22
JSON Type Comparison: Example 2-23
Sorting Mixed JSON Type Values: Example 2-24
Sorting Mixed JSON Type Values: Example (contd.) 2-25
Predicates for JSON_VALUE and JSON_QUERY 2-27
Example 2-30
JSON-Relational Duality View 2-31
Introduction: Object□Relational Mismatch 2-32
Relational Data vs JSON Document 2-33
Document Data Example 2-38
Oracle as Document Database 2-39
Limitations of Document Database 2-40
The Best of Both Worlds: Document Relational Duality 2-42
JSON Duality Views 2-43
Example 2-44
Lock-Free Concurrency Control 2-46
What are ETAGs? 2-47
Example 2-49
CREATE_VIEW_ON_PATH 2-51
Example 2-52
Oracle Supports All Dimensions of JSON Relational Duality 2-53
Summary 2-54

3 Analytic Platform
Objectives 3-2
Agenda - Data Quality Operators 3-3
Data Quality Operators 3-4
Example: 3-6
Agenda - JSON Materialized Views Enhancements 3-8
Enhanced JSON Support for Materialized Views 3-9
Summary 3-10

4 Other New Features
Objectives 4-2
Agenda - Vectorized Query Processing 4-3
Vectorized Query Processing 4-4
Restrictions 4-5
Usage 4-7
Agenda - Staging Tables 4-8
Staging Tables 4-9
Creating Staging Tables: Methods 4-11
Example: 4-13
Agenda - LPCT for Materialized View Refresh and Staleness Tracking 4-14
LPCT: MV Refresh and Staleness Tracking 4-15
Summary 4-16

5 SQL Enhancements for Materialized Views
Objectives 5-2
Overview of a Materialized View (MV) 5-3
Semi-Join Materialized View 5-4
Benefits of a Semi-Join MV 5-6
How to Define the Syntax of a Semi-Join MV - Example 5-7
Example (Cont.) 5-9
ANSI Join Materialized View 5-10
Benefits of an ANSI Join MV 5-12
Example: ANSI Join 5-13
Materialized View (MV) Refresh Enhancements Techniques 5-14
Concurrent Refresh 5-16
Example: Enabling Concurrent Materialized View Refresh 5-18
Conditions That Allow Concurrent Materialized View Refresh 5-19
DBMS_MVIEW Package APIs 5-20
Example: DBMS_MVIEW Package 5-22
Summary 5-23

6 Other SQL Enhancements
Objectives 6-2
Transportable Binary XML (TBX) 6-3
Overview of Transportable Binary XML (TBX) 6-4
How It Fits into the Big Picture 6-5
Benefits of Transportable Binary XML (TBX) 6-6
Privileges if creating XMLType table in different DB schema 6-7
Example 6-8
Indexes with Automatic Maintenance 6-11
Overview of Indexes with Automatic Maintenance 6-12
Problems Automatic Maintenance Indexes Solves 6-13
Benefits of Automatic Maintenance Indexes 6-14
Maintenance Types: Configuration Setting 6-15
Restrictions of Automatic Maintenance Indexes 6-16
Monitoring Maintenance Events 6-17
Enable Automatic Maintenance Indexes 6-18
Enable Automatic Maintenance Indexes: Cont 6-19
Disable Automatic Maintenance Indexes 6-21
Switching Between Automatic and Manual Maintenance Modes 6-22
Enhanced Automatic Indexing 6-23
Overview of Enhanced Automatic Indexing 6-24
How Automatic Indexing Works 6-25
Maintaining Automatic Indexing 6-26
Drop Automatic Maintenance Indexes 6-28
Summary 6-29

7 Time and Date Handling Changes
Objectives 7-2
Enhanced Time Zone Data Upgrade 7-3
Timezone Definitions Change: Considerations 7-4
Optimizing Time Zone File Upgrade 7-5
Benefits of Enhanced Timezone Update 7-6
Tables with TIMESTAMP WITH TIME ZONE Data 7-7
New Parameter in init.ora File 7-8
Configuring Database Parameters 7-9
SYSDATE and SYSTIMESTAMP 7-10
Date and Time in Oracle Databases 7-11
Database Time Versus OS System Time 7-12
Database-Specific Time in Oracle Database 23c 7-13
Setting Database-Specific Time Example 7-14
Summary 7-15

8 Globalization Support
Objectives 8-2
Globalization Improvements 8-3
Unicode IVS Support 8-4
Ideographic Variation Sequence Symbols 8-5
Unicode Standard Supports IVS 8-6
Typical Data Containing Unicode IVS Sequences 8-7
Why Handle IVS Character Combinations as Entities? 8-8
Improving Compliance and Usability 8-9
IVS Use Case Examples 8-10
Adding and Querying IVS Data 8-11
Default IVS Sequence Handling 8-12
Enabled IVS Sequence-as-Entity Recognition 8-13
Unicode 15.0 Support 8-14
Unicode Support Evolution 8-15
New Unicode 15.0 Standard 8-16
Improved Compliance and Competitiveness 8-17
Use Cases and Database 23c Unicode 15.0 Implementation 8-18
Summary 8-19
