

# MS-4009: Extend Microsoft Copilot for Microsoft 365

*This training course is designed to teach students how to build Copilot Studio actions that extend Microsoft Copilot for Microsoft 365. They'll gain an understanding of the core components of copilot extensions and the Copilot stack. They'll learn about the various types of actions available and the core concepts and considerations for creating them. Finally, they'll learn how to create and publish each type of action in Copilot Studio. This course will empower learners to extend the capabilities of Microsoft Copilot for Microsoft 365 using their organizational business data and logic.*

## Required Prerequisites

Students should be familiar with Microsoft Copilot for Microsoft 365.
