

Managing Jira Projects Cloud Live Team Training

Duration: 8 hrs

Course Objective: Your team will learn all the tasks and best practices used in the creation, configuration, and maintenance of projects in Jira. This course also covers topics that go beyond the scope of what project administrators can do. Learn how project administration is tied to Jira administration and the importance of maintaining the health of the system as a whole.

Completing this course will help prepare your team for the [Managing Jira Projects for Cloud Certification exam](#).

Pre-Requisite: Before taking this course, we suggest your team take [Jira Essentials with Agile Mindset](#), or have equivalent experience.
