

Jira Administration Part 2 Live Team Training

Duration: 8 hrs

Course Objective: Structured around a business case study, this training provides your team with applicable, real-world skills that they can start using at your organization immediately. Your team will explore complex schemes, advanced workflow configurations, and board and sprint permissions.

Pre-Requisite: Before taking this course, we suggest your team has taken Jira Administration Part 1 ([Cloud](#) or [Data Center](#)) or has equivalent experience.

Lab Details: Free Trail of JIRA Cloud
