1 Oracle Utilities Customer to Meter Overview

Learning Objectives	1-2
Solution Overview	1-3
Customer to Meter: Application Components	1-4
Functional Areas	1-5
Preview of Course Topics	1-7
The Format of This Course	1-12
Before We Start	1-14
The Documentation	1-15
Additional Resources	1-16
Caveats	1-17
Summary	1-18

2 User Interface Standards and Common Processes

Learning Objectives	2-2
Anatomy of All Pages	2-3
The Anatomy of All Pages	2-4
Redwood Look and Feel	2-5
User Dashboard Controls	2-6
Domain Name Support	2-7
Unified Search	2-8
Portals	2-11
Portal Overview	2-12
Portals Versus Fixed Pages	2-13
Portals Have Zones	2-14
Portal Configuration	2-15
Portals May Appear on Portal Preferences	2-16
Portal Preferences	2-17
Dictating Portal Preferences	2-18
The Dashboard Is a Portal Too	2-19
Portal Page	2-20
Maintenance Portal	2-21
Search Portal	2-22
Help Portal	2-23
Zones	2-24

Zone Patterns	2-25
Explorer Zone Layout	2-26
Explorer Zones May Have End-User Filters	2-27
Map Zones	2-28
Special-Purpose Zones	2-29
Special Feature Zone - Tree	2-30
Section and Element Help	2-31
Standard User Interface Functions	2-32
Menu and Navigation	2-33
Menu and Admin	2-34
Context Menus – Quick View	2-35
Context Menus – Search and Portal Pages	2-36
User Profile Definitions	2-37
Scrolls (Go To Button)	2-38
Standard Actions	2-39
Logs	2-40
Searches – The Fine Points	2-41
Saved Searches	2-42
Bookmarks	2-43
Go To Button	2-44
Work List	2-45
Broadcasting	2-46
Explorer Zone - Dragging and Dropping	2-47
Scroll Bars with Dynamic Height	2-48
Accordion Windows	2-49
Pagination	2-50
BPA Scripts	2-52
The BPA Menu	2-54
BPA Scripts Are Everywhere	2-55
BPA Scripts Reflect An Organization’s Business Practices	2-56
Batch Processing	2-57
Batch Processes	2-58
Batch Concepts	2-59
Batch Submission Concepts	2-60
Types of Processing	2-61
Online Submission	2-62
Tracking Batch Processes	2-63
Plug-in Driven Batch	2-64
To Do Processing	2-65
To Do Entry	2-66
To Do Summary	2-67

To Do List	2-68
To Do Summary Zone	2-69
To Do Type and To Do Role	2-70
Message	2-71
Special Message Handling	2-72
Entry Priority	2-73
How Entries Are Created	2-74
Batch Process	2-75
The Creator Supplies Other Attributes	2-76
Filling In The Blanks	2-77
Related To Do Entries	2-78
To Do Entry Lifecycle	2-79
Forwarding	2-80
Manual Completion	2-81
Batch Processes Can Complete Entries	2-82
To Do Management	2-83
To Do Search	2-85
Work Distribution	2-86
Pick and Choose	2-87
Supervisor To Do Summary	2-88
Supervisor Assignment	2-89
Supervisor User Summary	2-90
On Demand Assignment	2-91
On Demand – How It Works	2-92
The Benefits	2-93
Multi-Use Pages	2-94
Introducing a New Type of Entry Involves the Following Steps	2-95
Security	2-96
Database and Operating System Security	2-97
Application Services	2-98
Application Services and Access Modes	2-99
Linking an Application Service to a User Group	2-100
Field-Level Security	2-101
Security Rights Are Cached	2-102
Summary	2-103

3 Control Central, 360° Search, and Entity Relationship Diagrams

Learning Objectives	3-2
Practice 3-1: Log On to Customer to Meter	3-3
Control Central	3-4
Find a Customer and Premise	3-6

The Dashboard 3-7

Dashboard + Account Information = Complete View of the Customer 3-8

Practice 3-2: Use Control Central, Portals, and Zones 3-9

Customer 360 Portal 3-10

Customer 360 Portal Zones 3-12

Customer 360 - Program Enrollment Zone 3-13

Customer 360 Portal Zones: Customer Insights Zone 3-14

Customer 360 Portal Zones: Customer Activity History 3-15

Customer 360 Portal Zones: Financial Details 3-16

360°Search and View 3-19

360°Search 3-20

360°View Has Separate Portals For Each Object 3-22

Practice 3-3: Use the 360 Search and View a Device 3-23

Practice 3-4: Use Page and Portal Maintenance Dialogs 3-24

Entity Relationship Diagramming Standards 3-25

Entity Relationship Diagramming (ERD) 3-26

ERDs Represent Tables and Relationships 3-27

Color-Coding Highlights Subsystem Where Table's Rows Are Typically Maintained or
Type of Data 3-28

Color-Coding Used to Group Tables into Logical Subsystems 3-29

ERDs Highlight Important Business Relationships 3-30

Relationships Between Entities Are Highlighted 3-31

Dashed Lines Represent Columns on Entities with Predefined "Lookup"
Values 3-32

Review Questions 3-33

Summary 3-34

4 Customer Information – Part 1

Learning Objectives 4-2

Customer Information Overview 4-3

Customer Information 4-4

The 'V' 4-5

Customer = Person and Account 4-6

Practice 4-1: Find a Customer in Control Central 4-8

Person Concepts 4-9

Important Person Concepts 4-10

Person ERD 4-11

Practice 4-2: Add a Person and Account from Control Central 4-12

Person Contacts 4-13

Practice 4-3: Add a Person Contact 4-16

Account Concepts 4-17

Important Account Concepts	4-18
Account ERD	4-19
Customer Contacts	4-20
Customer Contact: Overview	4-21
Customer Contact ERD	4-22
Customer Contacts Trigger To-Do Entries	4-23
Customer Contacts Trigger Letters	4-24
Letter Images	4-25
Practice 4-4: Add a Customer Contact	4-26
Premise and Service Point	4-27
The 'V'	4-28
Important Premise Concepts	4-29
Premise ERD	4-30
Practice 4-5: View and Add a Premise	4-31
Service Point Basics	4-32
Devices Are Installed at Service Points	4-33
Service Points Have Installation Events	4-34
Installation Events Reference Device Configurations	4-35
Device Exchanges	4-36
Device Exchanges and AMI Transitions	4-37
Service Point Type	4-38
Service Points Behave Like Other Master Data Objects	4-39
Service Point Type – Service Point Category	4-40
Practice 4-6: View a Service Point Type and Add a Service Point	4-41
Service Points and Meters	4-42
Metered Service Points	4-43
Service Points and Items	4-44
Single Item Service Points	4-45
Multi-Item Service Points	4-46
Service Point Hierarchy	4-47
Measurement Cycles	4-49
Measurement Cycles and Manually Read Meters	4-50
A Measurement Cycle Has Routes and a Schedule	4-51
Measurement Cycle Batch Processes	4-53
Process D1-CMCS: Create Pending Measurement Cycle Schedule Routes	4-54
Process D1-CSPSR: Create Pending SP Measurement Cycle Schedule Routes	4-55
Process D1-PSPSR: Process Pending SP / Measurement Cycle Schedule Route Records	4-56
Measurement Cycle Route Management	4-57
Route Management	4-58

Route Management: Searching for Service Points	4-59
Route Management: Assigning Sequence Numbers to Service Points and Renumbering	4-60
Route Management: Renumbering Service Points	4-61
Route Management Transferring Service Points Between Routes	4-62
Deregulated Markets	4-64
Different Relationship Types In Different Markets	4-66
Network Locations	4-67
Network Locations Overview	4-68
Facilities	4-69
Network Locations	4-70
Switching Network Locations	4-71
Service Points and Facilities	4-72
Account Security	4-73
Account Security: Overview	4-74
Securing Persons	4-75
Securing Premises and Service Points	4-76
Data Access Groups and Roles	4-77
An Account's Access Group	4-78
More Account Security Information	4-79
Starting Service	4-80
The 'V'	4-81
Accounts and Service Agreements	4-82
Creating Service Agreements Through Start Service	4-83
Start Options Control Default Values	4-84
Practice 4-7: Start Service at Your Premise	4-85
Important Service-Oriented Concepts Still to Come	4-86
Review Questions	4-87
Summary	4-88

5 Assets

Learning Objectives	5-2
Asset Locations	5-3
Overview: What Are Locations?	5-4
Organizations	5-5
Organization Attributes	5-6
Out of Service Locations	5-7
Assets and Out of Service Locations	5-8
Out of Service Location Attributes	5-9
Organizations and Out of Service Locations	5-10
Asset Locations	5-11

Asset Location: Electric Residential Service Point	5-12
Asset Location: Non-Service Point Locations	5-13
Asset Locations and Service Points	5-14
Assets and Asset Locations: Installed vs. Attached	5-15
Asset and Asset Locations	5-16
Assets	5-17
What Are Assets?	5-18
About Specifications	5-19
Asset Specifications	5-20
Specification Attributes	5-22
Peer Specifications	5-23
Manufacturers	5-24
About Assets	5-25
Assets and Devices	5-26
Asset Attributes	5-27
Admin Data: Asset Types	5-28
Assets and Devices	5-29
Asset and Device Configuration Synchronization	5-31
Asset and Device Configuration Synchronization – Items	5-32
Practice 5-1: View an Asset	5-33
Practice 5-2: Create an Asset	5-34
Components	5-35
About Components	5-36
Sample Component: Gas Meter Faceplate	5-37
Component Attributes	5-38
Admin Data: Asset Type	5-39
Asset Disposition	5-40
About Asset Disposition	5-41
Asset Disposition and Location	5-42
Asset Disposition and Lifecycle Status	5-43
Asset Disposition: Examples	5-44
Asset Disposition and Install Events	5-45
Shipping Memo	5-46
Shipping Memo Category	5-47
Service History	5-48
About Service History	5-49
Creating Service History Records	5-50
Service History Attributes	5-51
Admin Data: Service History Types	5-52
Example: Asset Inspections	5-53
Service History Questionnaire	5-54

Asset Activities	5-55
Overview: Asset Activities	5-56
About Activities	5-57
Types of Activities	5-58
Activity Attributes	5-59
Admin Data: Activity Type	5-60
About Completion Events	5-61
Completion Event Attributes	5-62
Admin Data: Completion Event Type	5-63
Activities and Completion Events: Ad-Hoc and Local/Scheduled Activities	5-64
Outbound Activities	5-65
Outbound Messages	5-66
Admin Data: Outbound Message Types	5-67
Inbound Communications	5-68
Inbound Communication Attributes	5-69
Inbound Communication Attributes: Completion Events	5-70
Admin Data: Communication Type	5-71
Outbound Activity Processing Overview	5-72
Asset Activity Generators	5-73
Overview: What are Activity Generators	5-74
Activity Generators	5-75
Types of Activity Generators	5-76
Activity Generators	5-77
Activity Generators and Activities: Ad-Hoc and Local or Scheduled Activities	5-78
Activity Generator Attributes	5-79
Activity Generator Templates	5-80
Asset Receipt Inspection	5-81
Overview	5-82
Overview: What is Asset Receipt Inspection	5-83
Asset Replication	5-84
Asset Replication Activity Attributes	5-85
Replicating Assets	5-86
Asset Inspection	5-87
Mass Asset Disposition Update	5-88
Using Mass Asset Disposition Update	5-89
Configuration Report	5-90
Configuration Report – Overview	5-91
Configuration Report – Functionality Overview	5-92
What Is a Configuration	5-94
What Is a Configuration Class	5-95
“Communicate To” Location-To-Location Relationship	5-96

Valid “Communicate To” Location Types 5-97
Base Configuration Classes 5-99
Configuration Report Overview 5-101
Configuration Report Example: Criteria 5-102
Configuration Report Example: Result 5-103
Configuration Report Example: Notes 5-104
Configuration Criteria Activity Generator Overview 5-105
Activity Generator Refresher 5-106
A New Way To Create an Activity Generator 5-107
Additional Activity Generator Criteria 5-108
Summary 5-109

6 Devices and Measuring Components

Learning Objectives 6-2
Device and Measuring Component Basics 6-3
Device and Measuring Components 6-4
Device versus Measuring Component Attributes 6-5
What A Measuring Component Measures 6-7
Scalar versus Interval Measuring Components 6-8
Practice 6-1: View Existing Device and Measuring Components 6-9
Changing Measuring Component Attributes over Time 6-10
Reconfiguring Devices 6-11
Measuring Components And Measurements 6-12
Measuring Components and Measurements 6-13
Subtractive versus Consumptive Measuring Components 6-14
Interval Measuring Components 6-15
Scalar Measuring Components 6-16
Interval and Scalar Measuring Components On a Single Device 6-17
A Note About Initial Measurements (IMDs) 6-18
Admin versus Master Data 6-19
Master Data versus Admin Data 6-20
Practice 6-2: View Device and Measuring Component Admin Data 6-21
Device-Oriented Tables and Maintenance Objects 6-22
Types Of Measuring Components 6-24
Setting Up Admin Data 6-25
Practice 6-3: Create a “Manual Read” Traditional Scalar Meter 6-27
Items 6-28
Items Overview 6-29
Items Overview: Badged vs. Unbadged Items 6-30
Device – Item 6-31
Admin Data – Item Types 6-32

Device Type – Item Type	6-33
Device Type Service Quantity	6-34
Item (Device) Configurations and Configuration Types	6-35
Measuring Component Level Communication Modules	6-36
Measuring Component Level Communication Modules – Example	6-39
Review Questions	6-40
Summary	6-41

7 Field Work and Service Order Management

Learning Objectives	7-2
Overview	7-3
Service Order Management	7-4
Field Activities	7-5
Field Activities – Overview	7-6
Field Task Types	7-7
Example Field Task Type	7-8
Limit Field Work by Service Point Type	7-9
How do Field Activities Work?	7-10
How Do Field Activities Work?	7-11
Example Field Activity	7-12
Field Activity Processing	7-13
Manually Completing Field Activities	7-15
Pass-Through Field Activities	7-16
Field Activity Communications	7-17
Communications and Communication Types	7-20
Outbound Communications	7-21
Outbound Communications and External Applications	7-22
Outbound Communications and Processing Methods	7-23
Sample Outbound Communication	7-24
Outbound Communications: Passing Additional Data	7-25
Inbound Communications	7-26
Inbound Communications and Inbound Web Services	7-27
OUAF Components	7-28
OUAF Components Outbound – External Systems	7-29
OUAF Components Outbound – Message Senders	7-30
OUAF Components Outbound – Outbound Message Types	7-31
OUAF Components Inbound – Inbound Web Services	7-32
Completion Events	7-33
Sample Completion Event	7-35
Service Order	7-36
What is a Service Order?	7-37

Purpose of a Service Order (Orchestration)	7-38
Understanding Service Orders	7-39
Service Orders – Child Activities	7-40
Example Service Order	7-41
Service Order Activity Types	7-42
Service Order Activity Processing	7-43
Evaluating Service Point and Device	7-44
Creating Specific Activities – Evaluating the Service Point’s State	7-45
Creating Specific Activities – Creating the Activity	7-46
Updating Devices	7-47
Update Device Algorithms	7-48
Canceling or Updating Service Order Activities	7-49
A Closer Look: Enable Service	7-50
Enable Service – Functional Overview	7-51
Enable Service – “Are SP and Device Ready?” State Algorithms	7-54
Customer Processes and Service Orders	7-56
Field Activity Requests	7-57
Field Activity Request Types and Service Order Activity Types	7-58
Mapping Field Activity Request Types to Service Order Activity Types	7-59
Practice 7-1: Examine the Field Activity Request	7-60
Practice 7-2: View Enable Service Activity	7-61
Practice 7-3: Create an Inbound Communication	7-62
Practice 7-4: Re-Examine the Field Activity Request that was Created Earlier	7-63
Appointment Booking Process Overview	7-64
Appointment Booking Process	7-65
Summary	7-68
Appendix	7-69
Enable Service: “Are SP and Device Ready?” Algorithms	7-70
Enable Service: Customer-Device Compatibility Check – Algorithm Logic	7-71
Enable Service: Connect SP and/or Install Device – Algorithm Logic	7-73
Enable Service: Connect SP and/or Install Device – Algorithm Soft Parameters	7-76
Enable Service: Connect Device – Algorithm Logic	7-77
Enable Service: Connect Device - Algorithm Soft Parameters	7-81
Enable Service: Check for Measurement – Algorithm Logic	7-82
Enable Service: Update US/SP’s Override Start Date Time for Enable Service – Algorithm Logic	7-86

8 Customer Information – Part 2

Learning Objectives	8-2
Service Agreements	8-3
The ‘V’	8-4

Review: Bills Are Sent to Customers	8-5
A Bill Contains Charges for Services	8-6
An Account Must Have a Service Agreement for Every Service That Is Billed	8-7
Some SAs Are Linked to Premises through SPs	8-8
Some SAs Are Not Linked to Premises	8-9
Service Agreement ERD	8-10
Activating Pending Start Service Agreements	8-11
Service Agreement States	8-12
Activating Pending Start Service Agreements	8-13
Practice 8-1: Activate Your Service Agreement	8-14
Practice 8-2: Explore a Service Agreement	8-15
Usage Subscriptions	8-16
The 'V'	8-17
Subscribing To Usage (Bill Determinants)	8-18
Multiple Service Points and Measuring Components	8-19
Usage Subscription Types	8-20
Usage Subscriptions Behave Like the Other Master Data Objects	8-21
Practice 8-3: View Your Usage Subscriptions	8-22
Alerts	8-23
The Alerts Zone	8-24
The Control Central Alert Plug-In Spot	8-25
Jurisdictions	8-26
Jurisdictional Rules	8-27
Division = Jurisdiction	8-28
Multiple Jurisdictions	8-29
Other Features	8-30
Account/Person Replicator	8-31
Alternate Names and Addresses	8-32
Address Validation	8-33
Configuring Address Validation	8-34
Address Validation BPA	8-35
Introducing Custom Address Validation Logic	8-36
Account Management	8-37
Account Management Portal – Account Update	8-39
Supported Account Updates	8-40
Supported Service Agreement Updates	8-41
Notification Preferences	8-42
Notification Preferences: Key Relationships	8-44
Message-Based vs. Template-Based Notifications There are two notification formats:	8-45
Push vs. Subscription Notification Types There are two notification types:	8-46

Push-Based Notifications	8-47
Account – Account Portal: Push Communications Preferences Zone	8-49
Subscription-Based Notifications	8-50
Account – Account Portal: Subscription Communication Preferences Zone	8-52
Setting Notification Preferences	8-53
Account – Persons: Notification Preferences	8-54
Account – Account Portal: Maintaining Contact Details	8-55
Practice 8-4: Investigate a Notification Preference	8-56
Master Configuration	8-57
The Flexibility of the V	8-59
The V Diagram	8-60
Two SAs, Each Linked to a Single SP	8-61
Two SAs Linked to the Same SP	8-62
One SA linked to Two SPs	8-63
Typical Family Moves	8-64
Non-Utility Customer	8-65
Customers Share One Line, Usage Goes Through One Meter on the Way to Another Customer	8-66
Corporate Pays for Usage, Operating Units Pay for Transport, and Metering	8-67
SA Type and SP Type Control the Valid Relationships	8-68
Review Questions	8-69
Summary	8-70

9 Measurements and Scalar VEE

Learning Objectives	9-2
Examples: Interval vs. Scalar Measurements	9-3
Measurement Basics	9-4
Initial Measurements vs. Final Measurements vs. Usage	9-5
VEE Is Discussed Later	9-6
Interval Initial Measurements Create Final Measurements	9-7
Pre-VEE and Post-VEE Quantities	9-8
Measurement Conditions	9-9
Updating Final Measurements	9-10
Final Measurements and Derived Values	9-11
Deriving Other Values	9-12
Derived Values	9-13
Scalar/Interval Measurements, Initial Measurements, and Final Measurements	9-14
Interval versus Scalar Measuring Components	9-15
Scalar Measuring Components	9-16
IMDs for Subtractive Measuring Components	9-17
Practice 9-1: Examine Scalar Measurement Data	9-18

The Source of Initial Measurements	9-19
IMDs Interfaced from External Systems	9-20
IMDs Loaded Real-Time By Supplying an XML Document	9-21
IMDs Created by Functions	9-22
Estimations	9-23
IMDs Created To Estimate Consumption	9-24
Estimating for at Billing Time for Traditionally Read Scalar MCs	9-25
Estimation Parameters for Daily Scalar MC Types	9-26
Detecting Missing Final Measurements	9-27
Scalar Measurements – User Interface	9-28
Scalar Measurements - User Interface Screens	9-29
User Interface to Create and Update Scalar Readings	9-30
Creating and Updating Scalar Readings	9-31
Creating Scalar Readings	9-33
Updating Scalar Readings	9-34
Creating Scalar Readings – Multiple Registers	9-35
Creating and Updating Scalar Readings - New Initial Measurements	9-36
Reader Remarks	9-37
Meter Reader Remarks - Overview	9-38
Meter Reader Remarks - Process Overview	9-39
Creating Meter Reader Remarks - Scalar Initial Measurements	9-40
Creating Meter Reader Remarks	9-41
Creating Reader Remarks - Reader Remark Types	9-42
Reader Remark Processing	9-43
Reader Remark Processing - Execute	9-44
Reader Remark Processing - Complete	9-45
Searching and Viewing Reader Remarks	9-46
Measurement Tables and Maintenance Objects	9-48
Validation, Editing, and Estimation (VEE) Overview	9-50
The VEE Process	9-51
Critical Validations Occur Before VEE	9-52
Reprocessing Critical Validation Failures	9-53
Applying Multipliers	9-54
And One Last Phase Before VEE	9-55
A VEE Group Contains VEE Rules	9-56
Eligibility Criteria	9-57
Base Package VEE Rules	9-58
VEE Rules – Decision Making Rules	9-60
VEE Rules – Validation Rules	9-61
VEE Rules – Estimation Rules	9-63
Practice 9-2: Examine a VEE Group	9-64

VEE Tables and Maintenance Objects 9-65

Practice 9-3: Create Initial Measurement Data and Final Measurements 9-67

Review Questions 9-68

Summary 9-69

10 Integrations

Learning Objectives 10-2

Business Flags 10-3

Business Flags: Analytics Insights Integration 10-4

Business Flags 10-5

Business Flags: Business Flag Types 10-6

Business Flags: Standard Names 10-7

Business Flags: Lifecycle Processing 10-8

Business Flags: Example 10-9

Business Flags and the 360°View 10-10

Service Investigative Orders 10-11

Service Investigative Orders: Overview 10-12

Service Investigative Orders: Process Overview 10-13

Creating Service Issue Monitors 10-14

Creating Service Issue Monitors: Triggering Events 10-15

Service Issue Monitor Triggering Events: Device Events and Device
Event Type 10-16

Service Issue Monitor Triggering Events: VEE Exceptions and
Exception Type 10-17

Service Issue Monitor Triggering Events: Failed Commands and
Activity Type 10-19

Creating Service Issue Monitors: Service Issue Monitor Types 10-20

Service Issue Monitor Types: Evaluation Criteria 10-21

Service Issue Monitor Types: Evaluation Criteria – Multiple Criteria 10-22

Service Issue Monitor Types: Completion Criteria 10-23

Service Issue Monitor Types: Discard Rules 10-25

Service Issue Monitor Types: Service Investigative Orders 10-26

Service Issue Monitor Processing 10-27

Service Issue Monitor Processing: Pending 10-28

Service Issue Monitor Processing: Analyzing Service Points 10-29

Service Issue Monitor Processing: Processed 10-30

Searching and Viewing Service Issue Monitors 10-31

Service Investigative Order Activities 10-33

Searching and Viewing Service Investigative Orders 10-34

Configuring Service Investigative Orders 10-35

DataConnect 10-36

Overview	10-37
DataConnect Overview	10-38
DataConnect Data Extracts	10-39
Master Data Extracts	10-41
Billing Data Extracts	10-43
Billing Data Extracts: Business Objects	10-44
Billing Data Extracts: Pre-Processing Algorithms	10-45
Consumption Extracts	10-46
Initial Load Extracts	10-47
Incremental and Ongoing Extracts	10-48
Historical Correction Extracts	10-49
Consumption Extract Requests	10-50
Admin Data: Request Types	10-51
Admin Data: Consumption Extract Types	10-52
Consumption Extract Request Query Portal	10-55
Consumption Extract Request Portal	10-56
Consumption Extract Request Portal: Attachments	10-57
Extract Files	10-58
Sample Extract Files	10-59
Data Extracts and Export	10-60
Overview	10-61
Types of Extracts and Exports	10-62
Configurable Consumption Extract	10-63
Configurable Consumption Extract – Interval Snapshot Mapping Records	10-64
Configurable Consumption Extract – Consumption Extract Type	10-65
Configurable Consumption Extract – Consumption Extract Requests	10-66
Generalized Data Export	10-67
Specialized Data Export	10-68
Measurement Data Export	10-69
Measurement Data– Data Export Control Records	10-70
Measurement Data Export – Batch Controls	10-71
Initial Measurement Data (IMD) Header Export	10-72
IMD Header Export – Data Export Control Records	10-73
IMD Header Export – Batch Controls	10-74
Customer Self Service	10-75
Rate Compare Overview	10-76
Rate Compare: Process Overview	10-77
Self-Service Master Configuration: Rate Compare Configuration	10-78
Usage Adjustment Factors	10-79
Usage Adjustment Factors: Profile Measuring Components	10-80
Rate Comparisons and Usage Subscriptions	10-81

Rate Comparisons and Usage Subscription Types 10-82
Usage Transaction: Calculation Mode and Usage Adjustment Profiles 10-83
Profile Accumulation Usage Rules 10-84
Creating Usage Adjustment Profiles: Summary 10-85
Rate Comparison Example: Existing Usage Transaction 10-86
Rate Comparison Example 10-87
Summary 10-88

10b C2M Consolidated Maintenance

Customer to Meter Consolidated Maintenance and Data Mapping 10b-2
Oracle Utilities Customer to Meter Application Components 10b-3
Deployment Options 10b-4
Main Interactions Between Application Components 10b-6
Master Data Model 10b-8
Oracle Utilities Customer to Meter Specific Functionality 10b-9
Oracle Utilities Customer to Meter Master Configuration Summary of Internal
Interaction Configuration 10b-10
Multiple Merged Maintenance Types 10b-11
Merged Maintenance: Combined User Interfaces 10b-12
Internal Synchronization 10b-13
External Synchronization 10b-15
Data Audit Maintenance 10b-16
Lookup Value Mapping 10b-17
Transactional Data Mapping 10b-19
Usage Requests and Usage Transactions 10b-20
Field Activity Requests and Service Order Activities 10b-21
Summary 10b-22

11 Payload Processing – Native Implementations

Objectives 11-2
Standard Payload Format Processing 11-3
Native Implementations Payload Processing Overview 11-4
Cloud Service Payload Processing Configuration 11-5
Key Rings and Key Pairs 11-6
Creating Key Rings and Key Pairs 11-7
Object Storage Locations 11-8
File Storage Configuration Extendable Lookup Values 11-9
Head End Systems 11-10
Adapter Extendable Lookups 11-11
SGG Payload Processing Configuration 11-12
Payload Processing Batch Controls 11-13

Payload Processing Batch Control Parameters	11-14
Itron OpenWay Payload Processing	11-15
Upload Statistics Activities	11-18
What are Upload Statistics Activities	11-19
How Upload Statistics Activities are Created	11-20
Suppressing Upload Statistics Activities	11-21
Searching and Viewing Upload Statistics Activities	11-22
Filtering Usage and Device Events	11-23
Custom Payload Format Processing Using the Adapter Development Kit	11-25
Adapter Development Kit Custom Payload Processing	11-26
Custom Payload Processing Overview	11-27
Oracle Utilities Meter Data Framework Processing	11-28
Payload Parser Processing	11-29
Payload Transformer Processing	11-30
Payload Processing User Exit Interceptor Scripts	11-31
Payload Processing User Exit Interceptor Scripts – Parser Script	11-32
Payload Processing User Exit Interceptor Scripts – Transformer Script	11-33
Configuration Steps	11-34
Sample Implementation	11-35
Summary	11-36

12 Financial Transactions

Objectives	12-2
Financial Transaction Basics	12-3
Determining an Account's Balance	12-4
Source of Financial Transactions	12-5
Bill Segments	12-6
Payment Segments	12-7
Adjustments	12-8
Practice 12-1: Mark Brazil's Financial Transactions	12-9
Current Balance Versus Payoff Balance	12-10
Current Amount and Payoff Amount	12-11
When Current Balance Does Not Equal Payoff Balance	12-12
The General Ledger (GL)	12-14
General Ledger Details	12-15
Examples of Financial Transactions Without GL Details	12-16
Debt Age	12-17
How Old is the Debt?	12-18
Specific Days Shown on Several Transactions	12-19
Arrears Date	12-20
Arrears Date Typically Populated by Billing	12-21

Practice 12-2: Mark Brazil's Aged Debt	12-22
Financial Transaction Creation Algorithms	12-23
Financial Transaction Algorithms	12-24
Financial Transaction Status	12-25
Important Peripheral Effects	12-27
Financial Transactions Affect More Than Balances	12-28
Practice 12-3: View a Financial Transaction	12-29
The GL Interface	12-30
Updating the General Ledger	12-31
The GL Download Processes	12-32
Process GLASSIGN	12-33
Process GLS: Prepare Financial Transactions for Download	12-34
Process GLDL: Create Download Flat File	12-35
Practice 12-3: View a Financial Transaction	12-37
Balance Control	12-38
Overview of Balance Control	12-39
Balance Control Batch Processes	12-40
Process BCGNEW: Create a New Balance Control Group	12-41
Process BCASSIGN: Assign New FTs a Balance Control Group	12-42
Process BCGSNAP: Insert Balance Control Members and Check Financial Integrity	12-43
Review Questions	12-45
Summary	12-46

13 Usage and Billing

Objectives	13-2
Billing Basics	13-3
A Bill Contains Charges for Services	13-4
A Service Agreement for Every Service That Is Billed	13-5
Service Agreement Types	13-6
What's a Bill?	13-7
Definitions	13-8
Bill ERD	13-9
Bill Lifecycle	13-10
Bill Cycles Control Batch Billing	13-11
Batch Bill Creation Process	13-12
Bill Cycles	13-13
Window Billing	13-14
Other Bill Cycle Schedule Functions	13-16
How an Account Gets Its Bill Cycle	13-17
If the Service Point's Meter-Read Cycle Changes	13-18

Practice 13-1: View Your Account's Bill Cycle	13-19
Billing and Usage Requests	13-20
Usage Requests	13-21
Bill Segments are Created by Calling Plug-Ins	13-22
Bill Segment Creation Algorithms	13-23
SA Type Attributes	13-24
Get Consumption is First	13-25
Get Consumption	13-26
Scalar Processing Details	13-28
Interval Processing Details	13-29
Usage Request Example	13-30
Bill Segment Creation is Next	13-31
Bill Segment Creation	13-32
Rated Bill Segment ERD	13-34
An Aside: Bill Segments are Snapshots	13-35
Controlling Bill Segment Creation Order	13-36
Control Processing Sequence	13-37
Processing Sequence on Service Agreement Type	13-38
Review: Bill Segment Financial Transactions	13-39
Review: Bill Segments' Financial Transactions	13-40
Practice 13-2: Examine the SA Type Configuration for Bill Determinant-Oriented Service Agreements	13-41
Usage Business Objects	13-42
Usage ERD	13-44
Usage Request Business Object Lifecycle	13-45
Usage User Interface	13-50
Usage Request Portal (Request)	13-51
Usage Request Portal (Response)	13-52
Usage Request Portal (Exceptions)	13-53
Usage Request Log	13-54
Standard Bill Segment Page	13-55
Usage Request Query Portal	13-57
Practice 13-3: Review the Usage Business Objects	13-58
Practice 13-4: Create a Bill for Your Account	13-59
Practice 13-5: View a Usage Request	13-60
Bill Segment Start and End Dates	13-61
Metered Service Agreements	13-62
Time Period Derivation for Non-Metered Service	13-63
Use a Bill Period to Derive the End Date	13-64
Anniversary Date	13-65
The Default – Current Business Date	13-66

Preventing Short Bill Segments	13-67
More to Come	13-68
Bill Segment Lifecycle	13-69
Freeze at Bill Completion	13-71
Errors	13-72
Classic Errors	13-73
Bill Segment Errors	13-74
Bill Segment Remarks	13-75
Bill Errors	13-76
Errors After The Window Closes	13-77
Bill Completion	13-78
Bill Lifecycle	13-79
Bill Completion Is Intensive	13-80
Customer Class Pre-Completion Algorithms	13-81
Service Agreement Type Pre-Completion Algorithms	13-82
Bill Due-Date Calculation ERD	13-83
Late Payment Charge Computation – Levying The Charge	13-84
Late Payment Charge – Manual Intervention	13-86
Bill Routings	13-87
Bill Routing ERD	13-88
Route Method	13-89
Four Potential Mailing Addresses ERD	13-90
An Aside: Reprints	13-91
Customer Class Bill-Completion Algorithms	13-92
Service Agreement Type Bill-Completion Algorithms	13-93
Messages Linked to a Bill or Bill Segments	13-94
Messages with Variables	13-97
A Bill Summarizes Financial Transactions	13-98
All New Financial Transactions Swept onto the Bill	13-99
Customer Class Post-Completion Algorithms	13-100
Bill Download	13-101
Review: Bill Routing ERD	13-102
Postal Routing	13-103
Marking a Routing Record with a Batch Control and Run	13-104
Process POSTROUT: Create Download Flat File for Postal Routing	13-105
Configurable Bill Print Extract	13-106
Bill Print Extract Record Types	13-107
How is the XML Extract Constructed?	13-108
Extending the XML Extract	13-109
Bill-Print Intercept	13-110
Online Bill and Bill Segment Display	13-111

UI Interlude	13-112
Bill Summary Differs for Open-Item Customers	13-113
Bill Segments Differ for Accounts with Many Service Agreements	13-114
Bill – Bill Segment for Large Accounts	13-115
Other Places Where Bills Are Displayed	13-116
Financial Information Dashboard Zone	13-117
Online Bill Image	13-118
Bill Info is Constructed by a Plug-In	13-119
Warning: Demo Portals and Zones Ahead	13-120
Bill History Zone on Control Central	13-121
Bill Segment Calc Lines Zone	13-122
View Bill Zone	13-123
Bill Print Groups	13-124
Bill ERD	13-126
Bills are Presented in the Customer's Language	13-127
Bill Segments Produced by Applying a Rate	13-128
When the Flat File is Created, the Language Tables Are Accessed to Download Language Dependent Values	13-129
Reopening a Bill	13-130
Reopening a Completed Bill	13-131
Mass Reopen	13-133
How to Avoid Reopening	13-134
Freezing and Completing	13-135
Closing (Final) Bills	13-136
Closing Bills (... Bill Segments, really)	13-137
Sequential Bill Numbers	13-138
When Sequential Bill Numbers are Assigned	13-140
Other Types of Service Agreements Have Other Types of Bill Segment Creation Plug-Ins	13-141
Other Types of Bill Segment Creation	13-142
Billable Charges	13-143
Billable Charges May Have Bill Lines	13-145
A Different Bill Segment Creation Algorithm	13-146
Billable Charge ERD	13-147
Billable Charges with Service Quantities	13-148
Billable Consumption ERD	13-149
Billable Charge Bill Segment ERD	13-150
Billable-Charge Line Characteristics ERD	13-151
Billable Charge Templates Save Typing	13-152
How are Billable Charge Templates Used?	13-153
Practice 13-6: Add a Billable Charge for Your Account	13-154

Billable Charge Upload Overview	13-155
The Upload Processes	13-156
Process X: Populate Upload Staging	13-157
Process BCU1: Populate and Validate Service Agreement ID and Line Details	13-159
Process BCU2: Create Billable Charge	13-160
Purging Upload Records	13-162
Strict and Wait Options	13-163
Recurring Charges	13-164
Recurring Charge Service Agreements	13-165
Recurring Charge Bill Segment ERD	13-167
Off Cycle Bill Generators	13-168
Financial Transactions on Bills	13-169
Off-Cycle Bill Generator Overview	13-170
Off Cycle Bill Generator ERD	13-171
Off-Cycle Bill Generator Lifecycle	13-172
Creating the Bill	13-173
Practice 13-7: Examine the Off Cycle Bill Generator Business Object	13-174
Off-Cycle Bill Generator Portal	13-175
Standard Bill Page	13-176
Off-Cycle Bill Generator Query Portal	13-177
How to Access The Off-Cycle Bill Generator Portal	13-178
How to Create an Off-Cycle Bill Generator	13-179
Realigned Standard Bill Page Functions	13-181
Review Questions	13-182
Summary	13-183

14 Usage and Billing

Objectives	14-2
The Usage Calculation Process	14-4
Practice 14-1: Examine a Usage Transaction	14-6
Usage Groups and Usage Rules	14-7
Usage Calculation Group	14-8
Eligibility Criteria	14-9
Reusable Groups of Rules	14-10
Effective Dates	14-11
Fallback and Valid Usage Groups	14-12
Practice 14-2: Examine a Usage Group and Rules	14-13
Dynamic Determination of Usage Groups	14-14
Practice 14-3: Examine a Dynamic Determination Usage Subscription	14-18
Setting Up Usage Rules	14-19

Several Usage Rules Exist	14-20
Base Package Usage Rules	14-21
Usage Rules – Pre-Calculation Rules	14-22
Usage Rules –Calculation Rules	14-23
Scalar Usage Rules – Which One to Use?	14-24
Usage Rules – Post-Calculation (Validation) Rules	14-25
Usage Rules – Decision Making Rules	14-26
Rule Types and Parameters	14-27
More Sophisticated Rules	14-28
Understanding What A Rule Does	14-29
Defining When Usage Should End	14-30
Controlling the Through Date on Usage Transaction Scalar Consumption	14-31
Scalar Measuring Components – Calculating Thru Window	14-32
Usage Periods With Service Quantities	14-33
Use Case	14-34
Usage Transactions and Scalar Details	14-35
Service Quantities Populated For Scalar Reads	14-36
Calculating Usage for Items	14-37
Calculating Usage for Items - Multi-Items (Unbadged)	14-39
Usage Subscriptions for Items	14-40
Using Factors for Variables	14-41
Variable Values that Differ Based on Some Characteristic	14-42
A Factor that Holds Numbers	14-43
During Usage Rule Execution	14-44
Factors Can Be Related to Any Real or Dynamic Attribute	14-45
Usage Transaction Exceptions	14-46
Three Exception Categories (Just Like VEE Exceptions)	14-48
A To Do Entry Is Created	14-49
Recalculating, Discarding or Manually Overriding a UT in the Exception State	14-50
Usage Rules and Usage Transaction Exceptions	14-51
Retry Logic	14-53
Automated Retry	14-54
Consumption and Retry Until Date	14-55
Usage Correction	14-56
Usage Transaction Correction Processor Activity	14-58
Practice 14-4: Create a New Measurement to Correct Your Meter Reading	14-59
Practice 14-5: Examine a Usage Transaction Correction Processor Activity	14-60
Usage Tables and Maintenance Objects	14-61
Corrected Reads	14-63
Corrected Read Business Object	14-65
Corrected Read Business Object Lifecycle	14-66

Corrected Read Portal	14-67
Practice 14-6: Process an Off Cycle Bill	14-68
Correcting Bills	14-69
Correction through Cancellation	14-70
Different Correction Methods	14-72
The Cancel / Rebill Method	14-74
Cancel Only	14-75
Online Cancel / Rebill	14-76
Mass-Cancel an Entire Batch	14-77
Credit Notes	14-78
Online Credit Note Creation	14-79
Correction Notes	14-80
Online Correction Note Creation	14-81
Bill Segment Remarks	14-82
Cancellations Prior to Completion	14-83
Review Questions	14-85
Summary	14-86

15 Statements

Objectives	15-2
Statements Overview	15-3
Consolidated Service Agreement Financial Transactions	15-4
Routing Different Portions of a Bill to Different Parties	15-5
Multiple Statements for a Service Agreement or Account	15-6
Persons Receive Statements And Statements Consolidate Service Agreement Snapshots	15-7
Statement ERD	15-8
Statement Constructed from Service Agreement Snapshots	15-9
Practice 15-1: Michelin Inc's Statement Construct	15-10
Statement Production	15-11
Statement Cycle	15-12
Statement Creation Time Line	15-13
Statement Creation Process	15-14
Statement Production – Interesting Facts	15-16
Statement Routing	15-17
Online Statement Production	15-18
Statement Download Process	15-19
Statement Printing – Interesting Facts	15-20
Statement Images	15-21
Practice 15-2: Michelin Inc's Statements	15-22

Review Questions 15-23

Summary 15-24

16 Rates

Learning Objectives 16-2

The Basics 16-3

Before We Begin 16-4

Rate 16-5

The Components of a Rate 16-6

Structure of a Rate: Rate Schedule 16-7

Structure of a Rate 16-8

Rate Schedule ERD 16-10

Maintaining Rate Schedules 16-11

Rate Schedule Tree 16-12

Service Agreement Rate Schedule ERD (Expanded) 16-13

Service Agreement Type Configuration ERD 16-14

A Calculation Rule May Reference a Bill Factor 16-15

Bill Factor ERD 16-16

Summary 16-17

Practice 16-1: Explore Your Electric Service Agreement's Rate 16-18

Calculation Groups and Calculation Rules 16-19

A Calculation Group Contains Rules 16-20

Calculation Group Categories 16-21

Rates Best Practices 16-22

A Rule May Invoke a Calculation Group 16-25

Configuring Calculation Groups 16-26

Calculation Rules 16-27

Many Different Categories of Calculation Rules 16-28

Calculation Rule Categories 16-29

Common Calculation Rule Configuration: Controlling If and How the Line
is Printed 16-30

Common Calculation Rule Configuration: Seasonal Charges 16-31

Common Calculation Rule Configuration For Calculation Purposes
Only (FCPO) 16-32

Common Calculation Rule Configuration: Rounding 16-33

Common Calculation Rule Configuration: GL Account 16-34

Common Calculation Rule Configuration: Characteristics 16-35

Calculation Rule Category Type 16-36

Logical Cross-Reference 16-38

Base Product Calculation Rules 16-39

Base Calculation Rules 16-40

Calculation Rules for Consumption	16-41
Refresher: Get Consumption Is Done First	16-42
Refresher: Bill Segment Consumption Snapshot ERD	16-43
Calculate Final Reading Converts Measured Consumption	16-44
Calculate Final Reading Values	16-45
Calculate Service Quantity Calculation Rule	16-47
Calculate Service Quantity Rules Calculate Other UOMs	16-48
Calculate Service Quantity Rule Examples	16-50
UOM or TOU or SQI or All Three	16-51
Other Calculate Service Quantity Rule Features	16-53
Calculate Service Quantity Rule Summary	16-54
Practice 16-2: Examine a Calculation Group	16-55
Rules Used to Calculate Charges	16-56
Service Quantity Calculation Rule	16-57
Stepped Service Quantity Calculation Rule	16-58
Item Type Charge Calculation Rule	16-59
Flat Charge Calculation Rule	16-60
Calculation Rules That Depend on Other Rules	16-61
Apply-To Calculation Rule	16-62
Minimum and Maximum Charge Calculation Rules	16-63
Summary and Simple Summary Calculation Rules	16-64
Execute Calculation Group Rules	16-65
Calculation Rule Eligibility Criteria	16-66
Eligibility Criteria Control Whether Calculation Rules Are Applied	16-67
Calculation Rule Eligibility Criteria	16-68
Practice 16-3: Examine a Few More Calculation Rules	16-70
Bill Factors	16-71
Refresher: A Calculation Rule May Reference a Bill Factor	16-72
When to Use a Bill Factor	16-73
Bill Factor Configuration	16-76
The Structure of a Bill Factor	16-77
Bill Factor Values are Retrieved During Rate Application	16-78
Practice	16-79
Miscellaneous Rate Schedule Features	16-81
A Rate's Frequency	16-83
A Rate's Frequency Controls Proration of Time-Dependent Prices	16-84
\$10 Flat Charge on a Monthly Frequency	16-85
Other Types of Proration	16-86
Overriding Base-Package Proration	16-89
Disabling Proration	16-90
READ THE DOCUMENTATION	16-91

Rate Check 16-92
Rate Check Portal 16-93
Rate Check Input 16-94
Rate Check Output 16-95
Rate Check – Bill Determinants 16-98
Rate Check – Function Scripts 16-99
Start Options and Rates 16-101
Help Creating New Start Options 16-104
More Than Just Billing 16-105
Rates and Bill Factors are used in Many Places 16-106
Practice 16-4: Rate Check 16-107
Business Object Definition 16-108
A Business Object Exists for Every Calculation Rule 16-110
Calculation Rule Business Objects are Simple 16-111
Calculation Rule Schemas may be Simple or Complex 16-112
Read the Apply Calculation Rule Algorithm Type Description 16-113
Creating New Calculation Rules 16-114
Apply Formula Service 16-116
Apply Formula Service: Inputs and Outputs 16-117
Variables Can Reference Set Functions 16-119
Formulas May Contain More Sophisticated Operators 16-120
Conditional Formulas are Possible 16-121
Review Questions 16-122
Summary 16-123

17a Payments – Part 1

Learning Objectives 17a-2
Payments Overview 17a-3
A Payment Is Distributed Among the Account's Services 17a-4
Payment ERD 17a-5
Practice 17a-1: Examine a Payment 17a-6
Payment Events and Tenders 17a-7
Payments and Tenders 17a-8
The Payor Tenders: The Payee's Debt Is Relieved 17a-9
Multiple Payors and Payees on an Event 17a-10
Payment Event ERD 17a-11
Characteristics ERD 17a-12
Payment Event Allocation 17a-13
Payment Entry (System Default Event Allocation) 17a-14
Default Payment Amount 17a-15
Distributing a Payment Among An Account's Service Agreements 17a-16

Payment Distribution	17a-17
Payment Distribution Algorithm	17a-18
SA Type's Priority and Debt Age	17a-19
Payment Distribution Errors	17a-20
Overpayments	17a-21
Keeping Overpayments on Another Service Agreement	17a-22
Pay Segment (PS) Type	17a-24
Practice 17a-2: Create a Payment for Your Account	17a-25
Making Payments Using Distribution Rules	17a-26
Payment Event Distribution	17a-27
Another Aspect of Using Distribution Rules	17a-29
Distribution Rule ERD	17a-30
Payment Event Quick Add	17a-31
Distribution Rule Configuration	17a-32
Feature Configuration Must Be Enabled	17a-33
Practice 17a-3: Make a Payment by Using a Distribution Rule	17a-34
Canceling and Transferring	17a-35
Cancellation	17a-36
Cancellation ERD	17a-37
NSF Charges	17a-38
Cancellation Due to NSF ERD	17a-39
NSF Cancellations and Credit Rating	17a-40
NSF Cancellations and Cash-Only Points	17a-41
Cash-Only Warning	17a-42
Transferring a Payment to Another Account	17a-43
Transferring Payments Using Distribution Rules	17a-45
Unbalanced Events and Cash Back	17a-46
Cash Back	17a-47
Most Events Are Balanced	17a-48
How Do Events Become Unbalanced?	17a-49
Tender Management and Workstation Cashiering	17a-50
Balancing Tenders Against Expected Total	17a-51
Tender Source	17a-52
Balancing in a Tender Control	17a-53
Tender Control Lifecycle	17a-54
Two Cash Drawers and Their Tender Controls	17a-55
A User's Default Tender Source	17a-56
Practice 17a-4: Explore the Tender Control	17a-57
Deposit Control	17a-58
Tenders Are Ultimately Deposited	17a-59
Deposit Control Lifecycle	17a-60

Four Tender Controls Deposited Under a Single Deposit Control	17a-61
General Ledger Distribution Code	17a-62
Distribution Code	17a-63
Automatic Payment	17a-64
Practice 17a-5: Explore an Account's Auto Pay Options	17a-66
Auto Pay Option Control Tables	17a-67
Auto Pay Creation Control Tables	17a-68
When Are Auto Payments Created?	17a-69
Creation of Auto Payments at Bill Completion	17a-70
Creation of Auto Payments on Extract Date	17a-71
Auto Payment ERD	17a-72
Auto Pays Downloaded on Extract Date	17a-73
Auto Pay Activation Process	17a-75
Auto Pays Downloaded on Extract Date ERD	17a-76
Payment Advice Versus Automatic Payment	17a-77
Payment Advice	17a-78
Single Euro Payments Area (SEPA) Direct Debit Payments	17a-79
Single Euro Payments Area (SEPA) Overview	17a-80
Single Euro Payments Area (SEPA) Direct Debit	17a-81
Single Euro Payments Area (SEPA) Overview	17a-82
SEPA Direct Debit Mandate and Service Tasks	17a-83
Direct Debit Mandate Task Lifecycle	17a-84
SEPA Mandate's Relationship to the Account	17a-85
SEPA Direct Debit Payment Extract: New Batch Control (C1-SDDCE)	17a-86
SEPA Direct Debit Payment Extract: Other Features	17a-87
SEPA Direct Debit Configuration Requirements	17a-88
Payment Upload (Standard)	17a-91
Upload Processes	17a-92
Process PUPL Is Sophisticated	17a-95
PUPL Can Post Payments to a Suspense Account	17a-96
Purging Upload Records	17a-97
Payment Upload (Using Distribution Rules)	17a-98
Upload Processes	17a-99
Payment Event Upload Staging Lifecycle	17a-100
Process C1-PEPL1: Upload Payments (Step 1)	17a-101
Process C1-PEPL2: Upload Payments (Step 2)	17a-103
Process C1-PEPL3: Upload Payments (Step 3)	17a-105
To Do Entries Instead of Exception Records	17a-106
Review Questions	17a-107
Summary	17a-108

17b Payments – Part 2

Learning Objectives 17b-2
Credit Card Authorization Overview 17b-3
Not Applicable to All Implementations 17b-4
Case Study 17b-5
Payment Event Page Versus Payment Portal 17b-6
Payment Portal 17b-7
Add Payment Dialog Box 17b-8
If the Transaction Is Authorized 17b-9
If the Tender Is Subsequently Canceled 17b-10
Configuring Credit Card Authorization 17b-11
It Is Configurable 17b-12
Warning: CyberSource Specific Examples Follow 17b-13
Required Step 1: Set Up a Message Sender 17b-14
Required Step 2: Set Up Two Outbound Message Types 17b-15
Required Step 3: Set Up an External System 17b-16
Required Step 4: Set Up a “Dummy” User to Hold Merchant Information 17b-17
Required Step 5: Set Up a Tender Authorization Algorithm 17b-18
Required Step 6 17b-19
Required Configuration Is Complete 17b-20
Optional Configuration 17b-21
Configuring the User Interface 17b-22
UI Configuration Is Accomplished Via Business Object Options 17b-23
Tender Type-Specific Configuration 17b-24
Adding Card Number Format Validation 17b-25
Performing Additional Events If Denied 17b-26
An Aside: How the UI Map Morphs 17b-27
Optional Configuration If Manual Authorization Is Allowed 17b-28
Not Applicable to all Implementations 17b-29
Add Payment Dialog Box Changes 17b-30
If a Manual Authorization Code Is Entered 17b-31
Set Up Another Option on the Feature Configuration 17b-32
Review 17b-33
Summary 17b-34

17c Payments – Part 3

Learning Objectives 17c-2
Non-CIS Payments Overview 17c-3
Not Applicable to All Implementations 17c-4
Financial Example 17c-6

Payment Portal 17c-8
Practice 17c-1: Add a Non-CIS Payment 17c-9
Payment Templates 17c-10
Payment Template Business Object 17c-12
Payment Template Lifecycle 17c-13
Non-CIS Payment ERD 17c-14
Practice 17c-2: Examine Payment Templates 17c-15
Review Questions 17c-16
Summary 17c-17

17d Payments – Part 4

Learning Objectives 17d-2
Alternate Currency Payments Overview 17d-3
Not Applicable to All Implementations 17d-4
The Payment Portal 17d-5
Alternate Currency Payment: Overview 17d-6
Currency Conversion 17d-7
Currency Conversion: Example 17d-9
Introducing Custom Currency Conversion Logic 17d-11
Practice 17d-1: Alternate Currency Payments Overview 17d-12
Tender Controls and Sources 17d-13
Refresher: Managing Cash Drawers 17d-14
Managing Cash Drawers 17d-15
Tender Control Selection 17d-16
Tender Source ERD 17d-18
User Portal 17d-19
Practice 17d-2: Managing Cash Drawers 17d-20
Key Points 17d-21
Example: Multiple Currency Payments with Cash Back 17d-23
Enabling Alternate Currency Payments 17d-24
How to Enable Alternate Currency Payments 17d-25
Step 1: Set the Installation Options Flag 17d-26
Step 2: Set Up the Tender Sources 17d-27
Step 3: Set Up the Cashier's User Record 17d-28
Step 4: Set Up the Deposit and Tender Controls 17d-29
Step 5: Define the Currency Exchange Rates 17d-30
Practice 17d-3: Creating Payments in Alternate Currencies 17d-31
Review 17d-32
Summary 17d-33

18a Adjustments – Part 1

Learning Objectives	18a-2
Adjustments Overview	18a-3
Adjustments	18a-4
Adjustment ERD	18a-5
Adjustment Financial Transactions	18a-6
Adjustment Type	18a-7
Default Adjustment Amount	18a-9
Calculated Adjustments	18a-10
The Construction of the Financial Transaction	18a-11
Two Types of Characteristics	18a-12
Bill Print	18a-13
Accounts Payable Interface	18a-14
Practice 18a-1: Add an Adjustment	18a-15
Adjustment Lifecycle	18a-16
Additional Logic	18a-18
Adjustment Profiles	18a-19
Preventing Incorrect Adjustment Types	18a-20
Practice 18a-2: Examine the Adjustment Types that Can Be Issued Against Your Electric Service Agreement	18a-21
Adjustments and Aged Debt	18a-22
Credit Adjustments	18a-23
Debit Adjustments	18a-24
Practice 18a-3: Start Aging the Adjustment Immediately	18a-25
Adjustments Created Behind the Scenes	18a-26
MANY Events Can Create an Adjustment	18a-27
Transfer Adjustments	18a-29
Transferring Debt or Credit Between Service Agreements	18a-30
Inter- and Intra-Account Transfers	18a-31
Practice 18a-4: Transfer Debt	18a-32
Adjustment Upload Process	18a-33
The Upload Processes	18a-34
Process X: Populate Upload Staging	18a-35
Process ADUP1: Validate Staging Controls and Populate Service Agreement IDs	18a-36
Process ADUP2: Create Adjustments	18a-37
Adjustment Staging Control Lifecycle	18a-38
Adjustment Upload Staging Lifecycle	18a-39
Adjustment Upload Process – Suspense Adjustments	18a-40
Suspense Resolution - Part of the Upload Processes	18a-41
If a Suspense Adjustment Is Created by the “Determine SA” Plugin	18a-42

The Resolve Suspense Batch Process 18a-43
If the Suspense Is Resolved by the “Resolve Suspense” Plugin 18a-44
Review Questions 18a-45
Summary 18a-46

18b Adjustments – Part 2

Learning Objectives 18b-2
Adjustment Approval Overview 18b-3
Some Adjustments Require Approval 18b-4
Multiple Approval Levels 18b-5
To Do Entries Can Trigger Email Notification 18b-6
Adjustment: Approval Portal 18b-7
Practice 18b-1: Add an Adjustment 18b-8
Addendum: Freeze at Bill Completion 18b-9
Approval Profiles 18b-10
Approval Profile Business Object 18b-12
The Determine Approval Requirements Plug-In Spot 18b-13
Practice 18b-2: Examine Approval Profiles 18b-14
Approval Requests 18b-15
Adjustment Approval Request Business Object 18b-17
Adjustment Approval Request Business Object – States 18b-18
Approval Request Timeout and Escalation 18b-19
Adjustment Approval Request Business Object – Rejection 18b-20
Review Questions 18b-21
Summary 18b-22

19a Credit and Collections - Part 1: Monitoring Overdue Debt

Learning Objectives 19a-2
Credit and Collections Overview 19a-3
Credit & Collection 19a-4
Credit & Collection vs. Overdue Processing 19a-5
Collection Process and Collection Events: Overview 19a-6
Important Collection Process Concepts 19a-7
Collection Process ERD 19a-8
Practice 19a-1: Examine a Collection Process 19a-9
Important Collection Event Concepts 19a-10
Collection Process ERD 19a-11
Collection Process Templates Define the Events and When They Will
Be Triggered 19a-12
Collection Process Template ERD 19a-13
Background Processes for the Collection Process 19a-14

Overview: Three Background Processes	19a-15
An Example: Day 1 – Feb 4	19a-16
An Example: Day 16 – Feb 19	19a-17
An Example: Day 17 – Feb 20	19a-18
Collection Event Lifecycle	19a-19
When Is an Account's Debt Reviewed?	19a-20
Restrict Collections by CIS Division	19a-21
Restrict the Collection Processes by CIS Division	19a-22
Review Questions	19a-24
Collection Class Control Defines Intolerable Levels of Debt	19a-25
Collection Class Control Defines Debt Thresholds	19a-26
The Definition of Overdue Debt Is Sophisticated	19a-27
Multiple Thresholds Can Be Defined	19a-28
Different Thresholds for Different Customers	19a-29
Different Thresholds for Types of Debt	19a-30
Different Thresholds for Special Criteria	19a-31
Collection Class Control ERD	19a-32
Collection Class Defines the Collection Method	19a-33
Practice 19a-2: Examine Collection Class Controls	19a-34
Automatic Cancellation of Collection Processes	19a-35
Cancellation of a Collection Process	19a-36
Cancellation at the Debt Class Level OR at the Service Agreement Level	19a-37
Cancellation of a Collection Process	19a-38
Severance Process: Overview	19a-40
Important Severance Process Concepts	19a-41
Important Severance Event Concepts	19a-42
Severance Process ERD	19a-43
Severance Process Templates	19a-44
Severance Process Template ERD	19a-45
Background Processes for the Severance Process	19a-46
Three Background Processes Activate the Events	19a-47
An Example: Day 1 – May 15	19a-48
An Example: Day 2 – May 16	19a-49
An Example: Day 3 – May 17	19a-50
Field Events Versus Office Events	19a-51
Severance Event Lifecycle	19a-53
C&C Field Activities Work Just Like Those Created from Start/Stop	19a-54
Severance Criteria	19a-55
Different Service Agreement Types Have Different Severance Processes	19a-56
Different Processes for Special Criteria	19a-57
Nominating a Single Service Agreement	19a-58

Severance Criteria ERD	19a-59
Practice 19a-3: Examine Severance Criteria and Processes	19a-60
Automatic Cancellation of Severance Processes	19a-61
Cancellation of a Severance Process	19a-62
Cancellation Algorithm	19a-64
Review Questions	19a-65
Payment Arrangements and Pay Plans	19a-66
Payment Arrangements Versus Payment Plans	19a-67
Payment Arrangements (Current Bill Plus)	19a-68
Payment Arrangements	19a-69
Payment Arrangement Request	19a-70
Payment Agreement on Control Central	19a-71
Payment Arrangement Request Eligibility	19a-72
Payment Arrangement Request Terms	19a-73
Review and Submit	19a-74
Payment Arrangement Request Type	19a-75
Lifecycle of a Payment Arrangement Request	19a-77
Payment Arrangements Are Service Agreements	19a-79
Transferring Delinquent Debt	19a-80
Stopping the Credit & Collection Process	19a-81
Service Agreement Type Attributes	19a-82
Current and Payoff Balance	19a-83
Automatic Closing	19a-84
Breaking Payment Arrangements	19a-85
Practice 19a-4: Create Payment Arrangement	19a-86
Triggering Stricter Collection Processes	19a-87
Pay Plans	19a-88
Pay Plan Overview	19a-89
Pay Plan: Overview	19a-90
Pay Plan Tree on Control Central	19a-91
Pay Plan Maintenance	19a-92
Pay Plan Payer ERD	19a-93
Creating a Pay Plan and Cancelling Collection and Severance Processes	19a-94
Using Future Scheduled Payments to Temporarily Reduce Aged Debt	19a-95
The ADM and the Override Debt Age Algorithm ERD	19a-96
The Pay Plan Monitor	19a-97
The Pay Plan Monitor ERD	19a-99
If Sufficient Payments Are Not Received	19a-100
Account Marked for Review by the ADM	19a-101
Optional Break Algorithms ERD	19a-102
Pay Plan and Automatic Payments	19a-103

Miscellaneous Pay Plan Info	19a-104
Practice 19a-5: View Pay Plan Creation	19a-106
Pay Plans and Alerts	19a-107
Alerts and Pay Plans	19a-108
Account Alerts ERD	19a-109
Alert Algorithm ERD	19a-110
Reconnects	19a-111
Reconnect “Severance” Processes	19a-112
Start Service if Payment Received After Service Agreement Expiration	19a-113
Review Questions	19a-114
Write Off Service Agreements	19a-115
Writing Off Delinquent Funds	19a-116
New Service Agreement to Write Off Debt	19a-117
Write-Off Service Agreements	19a-118
Transferring Debt	19a-119
Current and Payoff Balance	19a-120
Service Agreement Type Attributes	19a-121
Write-Off Processes and Events	19a-122
Important Write-Off Process Concepts	19a-123
Write-Off Process ERD	19a-124
Important Write-Off Event Concepts	19a-125
Write-Off Process and Write Off Event ERD	19a-126
Write-Off Process Templates	19a-127
Write-Off Process Template ERD	19a-128
Practice 19a-6: Examine a Write-Off Process Template	19a-129
Review Questions	19a-130
Automating the Write-Off Process	19a-131
Two Background Processes Control Write-Offs	19a-132
An Example: Day 1 – July 15	19a-133
An Example: Day 15 – July 29	19a-134
Write Off Event Lifecycle	19a-135
When Is a Service Agreement Reviewed by the Write-Off Processor?	19a-136
Write-Off Control Contains the Business Rules Used by the Write-Off Monitor	19a-137
Closing Machinations	19a-138
Write-Off Control Contains Business Rules	19a-139
Write-Off Control ERD	19a-140
Practice 19a-7: View Write-Off Controls	19a-141
Collection Agency Referrals	19a-142
Collection Agency Referrals Created by the System	19a-143
Collection Agency Referral ERD	19a-144

Collection Agency Communication ERD	19a-145
Collection Agency Referrals Canceled by the System	19a-146
Review Questions	19a-147
Automatic Cancellation of Write-Off Processes	19a-148
Cancellation of a Write-Off Process	19a-149
Finally, Writing Off the Debt	19a-151
When Is Debt Written Off?	19a-152
Accumulating Overdue Debt ERD	19a-153
Distribution Codes and Written-Off Funds	19a-154
Where to Transfer Write-Off Debt ERD	19a-155
Write-Off Service Agreement	19a-156
Overwriting Write-Off Distribution Codes ERD	19a-157
An Example	19a-158
Manual Write-Offs	19a-163
The Write-Off Page	19a-164
Online Write-Off Algorithm	19a-165
Practice 19a-8: View a Manual Write Off	19a-166
Postponing ADM and Write-Off Processing	19a-167
Postponement	19a-168
Review Questions	19a-169
Summary	19a-170

19b Credit and Collections - Part 2: Overdue Processing

Learning Objectives	19b-2
Overdue Processing Overview	19b-3
Overdue Processing Summary	19b-4
Credit & Collection versus Overdue Processing	19b-5
Collection Class and Collection Method	19b-6
Caveat	19b-7
An Aside: Open Item Accounting Overview	19b-8
An Aside: Open Item Accounting Allows Credit FTs To Be Matched Against Debit Financial Transactions	19b-9
An Aside: Match Events	19b-10
Monitoring Overdue Debt	19b-11
The Overdue Monitor	19b-12
Reviewing Accounts	19b-13
Overdue Monitor Rule	19b-14
Sample Overdue Monitor Rule Algorithm	19b-15
Algorithms Called in Sequence Order	19b-16
Practice 19b-1: Review Overdue Monitor Rules	19b-17
Overdue Process Overview	19b-18

Overdue Process Introduction	19b-19
Overdue Rule Creates an Overdue Process	19b-20
Overdue Process ERD	19b-21
Practice 19b-2: Look at Overland, Inc's Overdue Process	19b-22
Overdue Process Templates And Event Types Introduction	19b-23
Overdue Process Templates	19b-24
Overdue Process Template: Introduction	19b-25
Overdue Process ERD	19b-26
Overdue Process – Additional Information	19b-27
Original and Unpaid Amounts	19b-28
Overriding Overdue Process Information	19b-29
Overdue Processes Highlighted in Zones	19b-30
Postponing Overdue Processing	19b-31
Postponement	19b-32
Experimenting With Alternative Overdue Process Templates	19b-33
Champion/Challenger Defined	19b-34
Setting Up Champion/Challenger	19b-36
Business Intelligence	19b-37
Overdue Event Lifecycle	19b-38
Events Activated on Their Trigger Date	19b-40
Event Activation Algorithms ERD	19b-41
Two Ways to Activate Events: Method One	19b-42
Two Ways to Activate Events: Method Two	19b-43
Event Activation Is Logged	19b-44
Temporarily Suspending Activation	19b-45
Events that Wait for Something Before They Are Triggered	19b-46
Configuring a Waiting Scenario	19b-47
Waiting Summary	19b-48
Event Cancellation	19b-49
Overdue Event Cancellation Reason	19b-50
Overriding Overdue Event Information	19b-51
Practice 19b-3: Review Event Type Activation Algorithms	19b-52
Overdue Process Cancellation	19b-53
Cancellation Controlled through Algorithms	19b-54
Checking a Process' Cancel Criteria	19b-55
Manual Cancellation	19b-57
Practice 19b-4: Review an Overdue Process Template	19b-58
Check Point	19b-59
Checkpoint	19b-60
Many-Talented Background Process	19b-61
Plug-In Summary	19b-62

Cut Process Overview	19b-63
Cut Processes	19b-64
Cut Process ERD	19b-65
Service Agreement Type Cut Rules	19b-66
Many-Talented Background Process	19b-67
Cut Concepts Similar to Overdue Concepts	19b-68
Almost Identical Concepts	19b-69
Differences	19b-70
Plug-In Summary	19b-71
Review Questions	19b-72
Payment Arrangements for Delinquent Bills	19b-73
Payment Arrangements	19b-74
Payment Arrangements Are Service Agreements	19b-75
Adjustments Used to Transfer Delinquent Debt	19b-76
Transfers	19b-77
Practice 19b-5: Set Up a Payment Arrangement for Bills	19b-78
Payment Arrangement Configuration	19b-79
Service Agreement Type Attributes	19b-80
Current and Payoff Balance	19b-81
Automatic Closing	19b-82
Breaking Payment Arrangements for Bills	19b-83
Triggering Stricter Collection Processes	19b-85
Review Questions	19b-86
Reconnects	19b-87
Reconnect Field Activities	19b-88
Start Service if Payment Received After Service Agreement Expiration	19b-89
Writing Off Bills	19b-90
Writing Off Bills when Service is Already Stopped	19b-93
Write-Offs and Collection Agency Referrals	19b-94
Collection Agency Referrals Created by the System	19b-95
Collection Agency Referral ERD	19b-96
Collection Agency Communication ERD	19b-97
Collection Agency Referral Cancellation	19b-98
Financial Write-Off	19b-99
Overdue Events and Writing Off Debt	19b-100
The Base-Package Plug-In	19b-101
Writing Off Small Amounts of Debt	19b-103
Accumulating Overdue Debt ERD	19b-104
An Example	19b-105
Manual Bill Write-Offs and Reversals	19b-107
Manual Write Offs and Reversals on Bill - Main	19b-108

Practice 19b-6: Manual Write-Off 19b-109
Highlighting the Existence of Written-Off Bills 19b-110
Write Off Visibility 19b-111
Summary 19b-112

20 Budgets

Learning Objectives 20-2
Budget Overview 20-3
The Business Behind Budgets 20-4
Service Agreements on a Budget 20-5
Service Agreement on a Budget ERD 20-6
Practice 20-1: Put an Account on a Budget 20-7
Financial Effect of a Budget Bill 20-8
Recurring Charge Amount 20-9
Practice 20-2: Bill an Account on a Budget 20-10
Service Agreement Type Budget Billing Controls 20-11
Bill Segment on a Budget ERD 20-12
Budget Plan 20-13
Budget Plan Controls Budget Business Rules 20-14
Budget Plan ERD 20-15
Practice 20-3: Review a Budget Plan 20-16
Recommended Budget Amount 20-17
Recommend Budget Amount 20-18
Highlighting Budget Anomalies 20-19
Budget True-Up 20-21
Budget True-Ups 20-22
Cancel Budget 20-23
Canceling a Budget 20-24
Canceling a Budget ERD 20-25
Review Questions 20-26
Summary 20-27

21 Service Requests

Objectives 21-2
A Few Questions Left Unanswered 21-3
Pending Start Activation 21-4
Starting Service Review 21-5
Background Process Creates Field Activity Requests to Start and Stop Service 21-6
Background Process Activates Most Service Agreements 21-7
What Happens When a Service Agreement Is Activated? 21-8
What Happens When an Service Agreement Is Activated? 21-9

Default Service Agreement Types at Start Time	21-10
Service Point Type References Initial SA Types	21-11
Starting Service - Interesting Facts	21-12
Pending Stops	21-13
What Happens When a Service Agreement Is Stopped?	21-14
What Happens When an Service Agreement Is Stopped?	21-15
Practice 21-1: Stop Service	21-16
Start/Stop Flexibility	21-17
Back-to-Back Service Request	21-18
Back-To-Back Defined	21-19
One Field Activity Request for Multiple Service Agreements	21-20
Back-to-Back Assumptions	21-21
Activation of Back-to-Backs	21-22
Back to Back Service – Interesting Facts	21-24
Practice 21-2: Start Service for Another Customer	21-25
Landlord Agreements	21-26
Landlord Agreement ERD	21-29
Service Changes Before Activation	21-30
Changing Service Requests	21-31
Changing Service Requests: Customer Calls Back	21-32
Changes on Start/Stop	21-33
Review Questions	21-34
Summary	21-35

21b Start/Stop/Transfer Service Request Processing

Objectives	21b-2
Start/Stop/Transfer Service Request Processing	21b-3
Start/Stop/Transfer Service Request Processing Benefits	21b-4
Start/Stop/Transfer Service Request Processing	21b-5
Start/Stop/Transfer Process Flows	21b-6
Start/Stop/Transfer Process Flow Types	21b-7
Start/Stop/Transfer Customer Service Requests	21b-8
Start/Stop/Transfer Customer Service Request Types	21b-9
Action Method for Start/Stop/Transfer Process Flows	21b-10
Stop Service Request Processing	21b-11
Stop Service Request Processing Overview	21b-12
High-Level Overview of Process Flow and Parent and Child Customer Service Requests for Stop Service	21b-13
Initiating Stop Service Process Flow	21b-14
Stop Service Action Method	21b-15
Stop Service Request Process Flow	21b-16

Stop Service Request Process Flow – Panel One	21b-17
Stop Service Request Process Flow – Panel Two	21b-18
Stop Service Request Process Flow – Panel Three	21b-19
Practice 21b-1: Complete a Stop Service Process Flow	21b-20
Stop Service Request Process Flow Type	21b-21
Practice 21b-2: Examine Stop Service Process Flow Type	21b-22
Stop Service Customer Service Request	21b-23
Stop Service Customer Request Type	21b-24
Practice 21b-3: Examine Stop Service-Related Customer Service Requests	21b-25
Stop Service Customer Request Type	21b-26
Practice 21b-4: Examine Stop Service Customer Service Request Type	21b-27
Steps to Enable Stop Service Request Processing	21b-28
Start Service Request Processing	21b-29
Start Service Request Processing Overview	21b-30
High-Level Overview of Process Flow and Parent and Child Customer Service Requests for Start Service	21b-31
Initiating Start Service Process Flow	21b-32
Start Service Action Method	21b-33
Start Service Request Process Flow – Panel One	21b-34
Start Service Request Process Flow – Panel Two	21b-36
Start Service Request Process Flow – Panel Three	21b-37
Start Service Request Process Flow – Panel Four	21b-38
Start Service Request Process Flow – Panel Five	21b-39
Practice 21b-5: Complete a Start Service Process Flow	21b-40
Start Service Request Process Flow Type	21b-41
Practice 21b-6: Examine Start Service Process Flow Type	21b-42
Start Service Customer Service Request	21b-43
Practice 21b-7: Examine Start Service-Related Customer Service Requests	21b-44
Start Service Customer Service Request Type	21b-45
Practice 21b-8: Examine Start Service Customer Service Request Type	21b-46
Steps to Enable Start Service Request Processing	21b-47
Transfer Service Request Processing	21b-48
Transfer Service Request Processing Overview	21b-49
High-Level Overview of Process Flow and Parent and Child Customer Service Requests for Transfer Service	21b-50
Initiating Transfer Service Process Flow	21b-51
Transfer Service Action Method	21b-52
Transfer Service Request Process Flow – Panel One	21b-53
Transfer Service Request Process Flow – Panel Two	21b-54
Transfer Service Request Process Flow – Panel Three	21b-55
Transfer Service Request Process Flow – Panel Four	21b-56

Transfer Service Request Process Flow – Panel Five 21b-57
Transfer Service Request Process Flow Type 21b-58
Transfer Service Customer Service Request 21b-59
Transfer Service Customer Service Request Type 21b-60
Practice 21b-9: Examine Transfer Service Customer Service Request Type 21b-61
Steps to Enable Transfer Service Request Processing 21b-62
Summary 21b-63

22 Deposits

Course Checkpoint – Deposits 22-2
Learning Objectives 22-3
Security Deposits Overview 22-4
Security Deposits – Overview 22-5
Deposit – Service Agreement Type Overview 22-6
Service Agreement Type Attributes 22-7
Practice 22-1: Create a New Account and Request a Deposit 22-8
Deposit Class 22-9
Deposit Class Controls Deposit Business Rules 22-10
A Service Agreement Type References a Deposit Class 22-11
Deposit Class Controls the Debt Secured by a Deposit (a Customer May Have
Many Deposits) 22-12
Deposit Class ERD 22-13
Practice 22-2: Examine a Deposit Class 22-14
Non-Cash Deposits 22-15
Non-Cash Deposit ERD 22-17
Interest 22-18
Interest Calculation 22-19
Deposit Interest ERD 22-20
Interest Events 22-21
Recommended Deposit Amount 22-22
Recommend Deposit Amount 22-23
Recommended Deposit Amount ERD 22-24
Recommending New (or Additional) Deposits 22-25
Recommend Deposit 22-26
Recommend a New or Additional Deposit ERD 22-27
Deposit Refunds 22-28
Refunding a Deposit 22-29
Deposit Refund ERD 22-30
