Contents

---------- Important Note ----------

Oracle AI Database 26ai has replaced **Oracle Database 23ai**. This change was announced at Oracle AI World in October 2025. The architecture, concepts, and features presented in this course remain fully relevant to 26ai.

**- - - -

3 Installing Oracle Grid Infrastructure for a Stand-Alone Server
Objectives 3-2
Overview of Oracle Grid Infrastructure 3-3
Configuring Storage for Oracle Automatic Storage Management 3-4
Oracle Grid Infrastructure Installation: System Requirements for Linux x86-64 Systems 3-5
Installation Option 3-6
Create ASM Disk Group 3-7
ASM Password 3-8
Management Options 3-9
Operating System Groups 3-10
Installation Location 3-11
Create Inventory 3-12
Root Script Execution 3-13
Prerequisite Checks 3-14
Summary 3-15
Install Product 3-16
Finish 3-18
Oracle ASMCA: Home 3-19
Oracle ASMCA: Create Disk Group 3-21
Summary 3-23

4 Installing Oracle Database Software
Objectives 4-2
Oracle Database Software Installation: System Requirements 4-3
Select Installation Option 4-4
Select Database Installation Option 4-5
Select Database Edition 4-6
Specify Installation Location 4-7
Privileged Operating System Groups 4-8
Root Script Execution Configuration 4-9
Perform Prerequisite Checks 4-10
Summary 4-11
Install Product 4-12
Finish 4-13
Installer Logs 4-14
Summary 4-15

5 Creating an Oracle Database Using Oracle DBCA
Objectives 5-2
Planning the Database 5-3
Select Database Operation 5-4
Select Database Creation Mode 5-5
Select Database Deployment Type 5-7
Specify Database Identification Details 5-8
Select Database Storage Option 5-9
Select Fast Recovery Option 5-10
Specify Network Configuration Details 5-11
Select Oracle Data Vault Config Option 5-12
Specify Configuration Options 5-13
Specify Management Options 5-14
Specify Database User Credentials 5-15
Select Database Creation Option 5-16
Summary 5-17
Progress Page 5-18
Finish 5-19
Configure an Existing Database 5-20
Delete Database 5-21
Manage Templates 5-22
Manage Pluggable Databases 5-24
Summary 5-25

6 Patching Oracle Grid Infrastructure and Oracle Database
Objectives 6-2
Overview of the Patch Process 6-3
Oracle Patches Maintenance 6-4
Oracle Patches Prior to 19.17.0 6-5
Oracle Patches 19.17.0 and Forward 6-6
Proactive Maintenance with RUs and MRPs 6-7
Oracle Database Server Risk Matrix 6-9
Oracle Patching Tools 6-11
Oracle Patching Tools: OPatch 6-12
Oracle Patching Tools: OPatchAuto 6-18
Oracle Patching Tools: opatchauto -binary 6-21
Minimizing Downtimes: Rolling Patching 6-22
Minimizing Downtimes: Standby-First Patching 6-23
Minimizing Downtimes: Patching a Cloned Home 6-24
Summary 6-25

7 Oracle Restart
Objectives 7-2
Oracle Restart 7-3
Oracle Restart Process Startup 7-5
Oracle Restart Configuration & Management 7-6
Oracle Restart Configuration 7-7
Managing Oracle Restart 7-9
Server Control Utility (SRVCTL) 7-11
Using the SRVCTL Utility 7-12
Choosing the Correct SRVCTL Utility 7-13
Obtaining Help for the SRVCTL Utility 7-15
Starting Components Using the SRVCTL Utility 7-16
Stopping Components Using the SRVCTL Utility 7-17
Viewing Component Status 7-18
Displaying the Oracle Restart Configuration for a Component 7-19
Manually Adding Components to the Oracle Restart Configuration 7-20
Oracle Restart Maintenance Operations 7-21
Stopping and Restarting Restart for Maintenance Operations 7-23
Stopping and Restarting Restart: Example 7-24
Summary 7-27

8 Upgrading to Oracle Grid Infrastructure 23ai
Objectives 8-2
Upgrading Oracle Grid Infrastructure: Restrictions and Guidelines 8-3
Checklist for Upgrading Oracle Grid Infrastructure 8-4
Installing the Oracle Preinstallation RPM 8-5
Creating a Copy of the Preinstallation Configuration File for the Grid User 8-6
Select Configuration Option 8-7
Specify Management Options 8-8
Specify Installation Location 8-9
Root Script Execution 8-10
Perform Prerequisite Checks 8-11
Summary 8-12
Install Product 8-13
Finish 8-14
Installer Logs 8-15
Summary 8-16

9 Before Upgrading to Oracle Database 23ai
Objectives 9-2
Defining Upgrade and Data Migration 9-3
Database Upgrade 9-4
Database Migration 9-5
AutoUpgrade Methods 9-6
AutoUpgrade Utility: Advantages and Disadvantages 9-7
Upgrade Paths 9-8
AutoUpgrade Method Limitations 9-10
Upgrading to a New Release of Oracle Database 9-11
Migration Methods with Data Movement 9-12
Defining Upgrade and Data Migration 9-13
Migration Methods with Data Movement 9-14
Summary 9-15

10 Upgrading to Oracle Database 23ai
Objectives 10-2
Preparing to Upgrade 10-3
Planning the Upgrade 10-4
Developing a Test Plan 10-5
Performance Testing 10-6
Performance Testing: Database Replay 10-7
Performance Testing: SQL Performance Analyzer 10-8
Requirements for Databases Using Oracle Label Security or Oracle Database Vault 10-9
Installing Oracle Database 23ai Software Using OUI 10-10
Select Configuration Option 10-11
Select Database Installation Option 10-12
Select Database Edition 10-13
Specify Installation Location 10-14
Privileged Operating System Groups 10-15
Root Script Configuration 10-16
Perform Prerequisite Checks 10-17
Perform Prerequisite Checks Results (For Errors) 10-18
Summary 10-19
Install Product 10-20
Finish 10-22
Installer Logs 10-23
Upgrading Using the AutoUpgrade Utility 10-24
AutoUpgrade Command-Line Syntax 10-26
AutoUpgrade with Source and Target Database Homes on Same Server 10-27

AutoUpgrade with Source and Target Database Homes on Different Servers 10-28
Overview of AutoUpgrade Job Stages 10-29
AutoUpgrade Command-Line Parameters and Options 10-31
AutoUpgrade Help 10-34
AutoUpgrade Version 10-35
AutoUpgrade Sample Configuration File 10-36
Configuration File for AutoUpgrade 10-37
AutoUpgrade Utility System Checks 10-38
Running AutoUpgrade Fixups 10-39
Backing Up the Database 10-40
Summary 10-41

11 Performing Postupgrade Tasks
Objectives 11-2
Required Tasks After Database Upgrade 11-3
Recommended Tasks After Database Upgrade 11-5
Summary 11-6

12 Migrating Data Using Oracle Data Pump
Objectives 12-2
Oracle Data Pump: Overview 12-3
Data Pump Export and Import Clients: Overview 12-4
Data Pump Utility: Interfaces and Modes 12-5
Migrating Using Oracle Data Pump 12-6
Importing Using a Network Link 12-7
Creating a Container Database by Using Oracle DBCA 12-8
Plugging a Non-CDB Database into a CDB 12-9
Creating an Empty New PDB from PDB$SEED 12-10
Exporting from a Non-CDB and Importing into a PDB 12-11
Summary 12-12
