| Revision History .....                                                      | 3  |
| Table of Contents .....                                                     | 4  |
| Acknowledgements .....                                                      | 7  |
| 0 Introduction .....                                                        | 8  |
| 0.1 Purpose of this Syllabus .....                                          | 8  |
| 0.2 The Certified Tester Model-Based Testing in Software Testing .....      | 8  |
| 0.3 Career Path for Testers .....                                           | 8  |
| 0.4 Business Outcomes .....                                                 | 8  |
| 0.5 Examinable Learning Objectives and Cognitive Level of Knowledge .....   | 9  |
| 0.6 The Certified Tester Model-Based Testing Certificate Exam .....         | 9  |
| 0.7 Accreditation .....                                                     | 10 |
| 0.8 Handling of Standards .....                                             | 10 |
| 0.9 Keeping It Current .....                                                | 10 |
| 0.10 Level of Detail .....                                                  | 10 |
| 0.11 How this Syllabus is Organized .....                                   | 11 |
| 1 Introduction to Model-Based Testing – 90 minutes (K2) .....               | 13 |
| 1.1 Objectives and Motivations for MBT .....                                | 14 |
| 1.1.1 Main Motivations for MBT .....                                        | 14 |
| 1.1.2 Misleading Expectations and Pitfalls of MBT .....                     | 15 |
| 1.2 MBT Activities and Work Products in the Test Process .....              | 15 |
| 1.2.1 MBT Specific Activities .....                                         | 15 |
| 1.2.2 Essential MBT Work Products (Inputs and Outputs) .....                | 16 |
| 1.3 Integrating MBT into the Software Development Lifecycles .....          | 17 |
| 1.3.1 MBT in Sequential and Iterative Software Development Lifecycles ..... | 17 |
| 1.3.2 Supporting Requirements Engineering .....                             | 18 |
| 2 MBT Modeling – 250 minutes (K3) .....                                     | 19 |
| 2.1 MBT Modeling .....                                                      | 20 |
| 2.1.1 MBT Modeling Activities .....                                         | 20 |
| 2.1.2 Focus of MBT Models .....                                             | 21 |
| 2.1.3 MBT Models Depend on Test Objectives .....                            | 21 |

|       |                                                                                                   |    |
|-------|---------------------------------------------------------------------------------------------------|----|
| 2.2   | Languages for MBT Models.....                                                                     | 22 |
| 2.2.1 | Main Categories of Modeling Languages for MBT.....                                                | 22 |
| 2.2.2 | Language Categories Relevant for Different Systems and Project Objectives.....                    | 22 |
| 2.3   | Good Practices for MBT Modeling Activities .....                                                  | 23 |
| 2.3.1 | Quality Characteristics for MBT Models.....                                                       | 23 |
| 2.3.2 | Typical Mistakes and Pitfalls in MBT Model Design.....                                            | 23 |
| 2.3.3 | Linking Requirements and Process Related Information to the MBT Model .....                       | 24 |
| 2.3.4 | Modeling Guidelines for MBT .....                                                                 | 25 |
| 2.3.5 | Reuse of Existing System Design or Requirements Models.....                                       | 25 |
| 2.3.6 | Tool Support for Modeling Activities.....                                                         | 25 |
| 2.3.7 | Iterative Model Development, Review and Validation.....                                           | 26 |
| 3     | Selection Criteria for Test Case Generation – 205 minutes (K3) .....                              | 27 |
| 3.1   | Classification of MBT Test Selection Criteria .....                                               | 28 |
| 3.1.1 | Test Selection Criteria .....                                                                     | 28 |
| 3.1.2 | Test Case Selection in Practice .....                                                             | 29 |
| 3.1.3 | Examples of Test Selection Criteria .....                                                         | 29 |
| 3.1.4 | Examples of Test Selection Criteria .....                                                         | 30 |
| 3.2   | Applying Test Selection Criteria .....                                                            | 30 |
| 3.2.1 | Degree of Automation in Test Generation.....                                                      | 30 |
| 3.2.2 | Pros and Cons of Specific Test Selection Criteria .....                                           | 30 |
| 3.2.3 | Good Practices of MBT Test Selection .....                                                        | 31 |
| 4     | MBT Test Implementation and Execution – 120 minutes (K3).....                                     | 32 |
| 4.1   | Specifics of MBT Test Implementation and Execution .....                                          | 33 |
| 4.1.1 | High-level and Low-level Test Cases in the MBT Context.....                                       | 33 |
| 4.1.2 | Different Kinds of Test Execution .....                                                           | 33 |
| 4.1.3 | The Impact of Changes on the MBT Work Products.....                                               | 34 |
| 4.2   | Activities of Test Adaptation in MBT .....                                                        | 34 |
| 5     | Evaluating and Deploying an MBT Approach – 60 minutes (K2) .....                                  | 36 |
| 5.1   | Evaluate an MBT Deployment.....                                                                   | 37 |
| 5.1.1 | ROI Factors for MBT Introduction .....                                                            | 37 |
| 5.1.2 | Organizational Objectives and their Relationship to the Characteristics of the MBT Approach<br>38 |    |
| 5.1.3 | Metrics and Key Performance Indicator .....                                                       | 39 |
| 5.2   | Manage and Monitor the Deployment of an MBT Approach .....                                        | 39 |

|       |                                                                                   |    |
|-------|-----------------------------------------------------------------------------------|----|
| 5.2.1 | Good Practices when Deploying MBT .....                                           | 39 |
| 5.2.2 | Cost Factors of MBT .....                                                         | 40 |
| 5.2.3 | Integration of the MBT Tool .....                                                 | 41 |
| 6     | Abbreviations .....                                                               | 43 |
| 7     | References .....                                                                  | 44 |
|       | Standards .....                                                                   | 44 |
|       | ISTQB® Documents .....                                                            | 44 |
|       | Books .....                                                                       | 44 |
|       | Articles .....                                                                    | 44 |
| 8     | Appendix A – Simple Modeling Language .....                                       | 45 |
| 8.1   | A Simple Graphical Modeling Language for Workflows .....                          | 45 |
| 8.2   | A Simple Graphical Modeling Language for State Transition Diagrams .....          | 47 |
| 9     | Appendix B – Learning Objectives/Cognitive Level of Knowledge .....               | 48 |
|       | Level 1: Remember (K1) .....                                                      | 48 |
|       | Level 2: Understand (K2) .....                                                    | 48 |
|       | Level 3: Apply (K3) .....                                                         | 49 |
| 10    | Appendix C – Business Outcomes traceability matrix with Learning Objectives ..... | 50 |
| 11    | Appendix C – Release Notes .....                                                  | 56 |
| 12    | Index .....                                                                       | 57 |
