

Google Cloud AppSheet Developer

Course Overview

This course introduces you to the fundamentals of no-code application development and the capabilities offered by Google Cloud's AppSheet. AppSheet helps in digitizing and automating manual or paper-based business processes to turn them into mobile and web apps. Course includes curated collection of concepts and labs that provide you with real-world, hands-on experience using Google Cloud technologies.

Duration: 05 days / 40 hours

Level: Associate

Prerequisites: There is no prerequisite for this learning path.

Course Outcome: Learner will be prepared to work as a AppSheet Developer on Google Cloud Platform
