

Contents

1 Overview of Order Management and Fulfillment

- Learning Objectives 1-2
- Topics 1-3
- Order Management and Fulfillment Business Flows 1-4
- Business Flow: Physical Goods 1-5
- Business Flow: Nonphysical Goods 1-8
- Business Flow: Return Order 1-9
- Topics 1-11
- Business Flow: Transfer Order 1-12
- Business Flow: Change Order 1-13
- Topics 1-14
- Order-to-Cash Process 1-15
- Order Management and Fulfillment Flow 1-16
- Order Management Integrations 1-17
- Integrations with Oracle Cloud Applications 1-18
- Business Case: End-to-End Flow 1-20
- Summary 1-21

2 Importing Orders

- Learning Objectives 2-2
- Order-to-Cash Process 2-3
- Importing Orders 2-4
- Topics 2-5
- Import Methods 2-6
- Direct Web Service Integration 2-7
- File-Based Data Import 2-9
- Import Template 2-10
- Business-to-Business Messaging 2-11
- Topics 2-12
- How Orders Are Imported 2-13
- Topics 2-15
- Importing Coverage and Subscription Lines 2-16
- Import of Coverage Order Line Against Configured Covered Items 2-17
- Using Order Import to Modify and Cancel Coverages 2-18
- Import of Coverage Return Lines 2-19

Import of Subscription Lines 2-20
Import of Revision 2-21
Best Practice: Optimizing Import Processing 2-22
Topics 2-23
Sequence of Sales Order Numbers 2-24
Sequence of Sales Order Numbers: Setup 2-25
Practices: Overview 2-26
Summary 2-27

3 Transforming Orders

Learning Objectives 3-2
Topics 3-3
Transform Orders 3-4
Transformation: Overview 3-5
Sales Order Versus Transformed Order 3-6
Transformed Order: Example 3-7
Topics 3-8
Types of Transformation 3-9
Product-to-Product Transformation 3-10
Attribute-to-Product Transformation 3-11
Context-to-Product Transformation 3-12
Product-to-Attribute Transformation 3-13
Attribute-to-Attribute Transformation 3-14
Context-to-Attribute Transformation 3-15
Topics 3-16
Setting Up Transformation 3-17
Transformation Using Oracle Business Rules 3-18
Practice 3-20
Summary 3-21

4 Creating Orders

Learning Objectives 4-2
Topics 4-3
Order-to-Cash Process 4-4
Creating Orders: Flow 4-5
Topics 4-6
Types of Items 4-7
Topics 4-8
Item Definition 4-9
Topics 4-11
Ordering a Standard Item 4-12

- Topics 4-13
- Ordering a Configurable Item: Explained 4-14
- Selecting the Options of a Configurable Item: Configurator Runtime 4-15
- Configure the Model: Getting Started 4-17
- Configurator Runtime User Interface 4-18
- Referenced Models 4-19
- Configurator UI Navigation Schemes 4-20
- Single-Page Navigation 4-21
- Dynamic Tree Navigation 4-22
- Step-by-Step Navigation 4-23
- Pricing Configurable Items (Models) 4-24
- Topics 4-25
- Ordering a Service Item 4-26
- Ordering Subscriptions 4-27
- Consider these Possible Scenarios 4-28
- Setting Up the Order Management-Subscription Management Integration: Overview 4-29
- Service Item Charges and Invoices 4-30
- Topics 4-31
- Information You Can Capture on an Order 4-32
- Header 4-33
- More on Sales Credits 4-34
- Order Line Information 4-35
- More on Tax Determinants 4-36
- Shipping Information 4-37
- Billing and Payment Information 4-38
- Copying an Order 4-39
- Copying an Order - Considerations 4-40
- Copying an Order - Limitations 4-41
- Demo 4-42
- Practices 4-46
- Summary 4-47

5 Pricing Orders: Pricing Strategies

- Learning Objectives 5-2
- Order-to-Cash Process 5-3
- Topics 5-4
- Pricing in Order Management 5-5
- Pricing Setup 5-6
- Business Use Case 5-7
- Topics 5-8

Pricing Strategies: Overview 5-9
Pricing Strategies: Customer Pricing Profiles 5-10
Pricing Strategies: Pricing Segments 5-11
Pricing Strategies: Pricing Strategy Assignments 5-12
Pricing Strategies 5-13
Price Execution: Derive Pricing Strategy 5-15
Topics 5-16
Matrixes: Overview 5-17
Matrix Classes 5-19
Matrix Types 5-20
Matrix Rules 5-21
Demo 5-22
Practices 5-25
Summary 5-26

6 Pricing Orders: Price Lists

Learning Objectives 6-2
Order-to-Cash Process 6-3
Topics 6-4
Price Lists 6-5
Price List 6-6
Price Lists: Types 6-7
Price List Use Case 6-8
Topics 6-9
Charges 6-10
Charges: Examples of Calculations 6-12
Topics 6-13
Adjustments: Tier-Based 6-14
Tier-Based Adjustment: Example 6-15
Adjustments: Attribute-Based 6-16
Attribute-Based Adjustments: Example 6-17
Item Extensible Attributes for Attribute-Based and Category-Based Rules 6-18
Setting Up Adjustments Based on the Item Category 6-19
Adjustments Based on Item Category: Where to Perform the Setups 6-20
Setting Up Adjustments Based on Item Category Using the Price Adjustment Matrix 6-21
Adjustments: Manual 6-22
Topics 6-23
Pricing of Standard Items 6-24
Demo 6-25
Topics 6-26

- Pricing of Configurable Items (Models) 6-27
- Topics 6-28
- Pricing of Coverage Items 6-29
- Demo 6-31
- Topics 6-32
- Pricing of Subscription Items 6-33
- Demo 6-34
- Topics 6-35
- Price List Maintenance: ADFdi 6-36
- List Maintenance: File-Based Data Import 6-37
- FBDI: Uploading a Single Price List or Batch 6-38
- FBDI: Using the Price List Template 6-39
- Price List Maintenance: Charges and Tiers 6-40
- Maintenance: Deleting Pricing Data from Interface Tables 6-41
- Practices: Overview 6-42
- Summary 6-43

7 Pricing Orders: Discounts and Promotions

- Learning Objectives 7-2
- Order-to-Cash Process 7-3
- Topics 7-4
- Discount List Use Case 7-5
- Discount Lists 7-6
- Topics 7-7
- Simple Discounts 7-8
- Topics 7-9
- Tier-Based Discounts 7-10
- Topics 7-11
- Attribute-Based Discounts 7-12
- Item Extensible Attributes for Attribute-Based and Category-Based Rules 7-13
- Setting Up Discounts According to the Item Category 7-14
- Discounts According to Item Category: Where to Perform the Setups 7-15
- Establishing Discounts for Configurable Models 7-16
- Topics 7-17
- Manual Adjustments 7-18
- Demo 7-19
- Topics 7-20
- Discount Lists: Management 7-21
- Practice 7-22
- Topics 7-23
- Maintenance: Deleting Pricing Data from Interface Tables 7-24

Topics 7-25
Using Pricing Promotions in Order Management 7-26
Understanding Pricing Promotion 7-27
Understanding Pricing Promotion Eligibility Rules 7-28
Creating Rules: Tips and Considerations 7-29
Predefined Order Attributes You Can Use 7-30
Implementing Pricing Promotions 7-31
Summary 7-32

8 Pricing Orders: Shipping Charge Lists

Learning Objectives 8-2
Order-to-Cash Process 8-3
Topics 8-4
Shipping Charge Lists: Overview 8-5
Topics 8-6
Shipping Charge List Use Case 8-7
Topics 8-8
Define Item-Based Shipping Charges 8-9
Create Shipping Charges 8-10
Demo 8-11
Summary 8-12

9 Pricing Orders: Guidelines

Learning Objectives 9-2
Order-to-Cash Process 9-3
Topics 9-4
Guidelines: Overview 9-5
Guideline Validation 9-6
Topics 9-7
Guidelines: How Do I Set Them Up? 9-8
Make Price Elements Eligible for Use in Guidelines 9-9
Create Conditions in the Pricing Matrix Class 9-10
Map a Matrix Class to the Pricing Charge Guideline Matrix Type 9-11
Map the Pricing Operation to the Pricing Process 9-12
Demo 9-13
Summary 9-14

10 Submitting Orders

Learning Objectives 10-2
Topics 10-3
Order-to-Cash Process 10-4

Order Submission 10-5
Detailed Order Submission Process 10-6
Topics 10-8
Order Submission and Defaulting Extensions 10-9
Flow of Order Submission and Defaulting Extensions 10-10
Topics 10-11
Validations 10-12
Managing Configurator Behavior 10-13
Topics 10-15
Credit Check 10-16
Credit Check Failure 10-17
Topics 10-18
Global Trade Management 10-19
Summary 10-20

11 Extending Order Management

Learning Objectives 11-2
Order-to-Cash Process 11-3
Extending Order Management 11-4
Topics 11-5
Service Mappings 11-6
Service Mappings: Flow 11-7
Service Mappings: High-Level Setup Steps 11-8
Topics 11-9
Order Management Order Profiles 11-10
Topics 11-11
Order Management Parameters: General Parameters 11-12
Order Management Parameters 11-13
Topics 11-14
Using Extensions with Order Management 11-15
Extension Events 11-16
Order Management Extensions 11-18
Order Management Data: Read Access (all events) 11-19
Order Management Data: Write Access 11-20
Filtering Lines In Extensions, Rules, and Constraints 11-21
Topics 11-22
Page Composer 11-23
Topics 11-24
Extensible Flexfields (EFFs) 11-25
Extensible Flexfields on UI Pages 11-26
Extensible Flexfields: Deployment 11-27

Extensible Flexfields: Setup 11-28
Migrating Setup Data 11-29
Summary 11-30

12 Managing Approvals

Learning Objectives 12-2
Order-to-Cash Process 12-3
Approvals 12-4
Topics 12-5
Approvals: Introduction 12-6
Serial Approval 12-7
Parallel Approval 12-8
Parallel Approval: Example 12-9
Topics 12-10
High-Level Approval Flow 12-11
Setup: High-Level Steps 12-13
Alter the Approval Task: Assignees, Deadlines 12-14
Alter the Approval Task: Notifications, Access, Configuration 12-15
Create an Approval Rule 12-16
Set Up the Start Approval Process for Sales Orders Parameter 12-17
Demo 12-18
Practice 12-19
Summary 12-20

13 Managing Processing Constraints

Learning Objectives 13-2
Order-to-Cash Process 13-3
Processing Constraints 13-4
Topics 13-5
Processing Constraints: Introduction 13-6
Processing Constraint Components 13-8
Topics 13-9
Managing Constraint Entities 13-10
Demo 13-12
Topics 13-14
Managing Processing Constraints 13-15
Importing and Exporting Processing Constraints 13-18
Practices: Overview 13-20
Summary 13-21

14 Assigning Orchestration Processes

- Learning Objectives 14-2
- Order-to-Cash Process 14-3
- Topics 14-4
- Managing Orchestration Process Assignment 14-5
- Sales Order Before and After Process Assignment 14-6
- Managing Orchestration Process Assignment Rules 14-7
- Topics 14-8
- Orchestration Groups 14-9
- Practice 14-10
- Summary 14-11

15 Defining Orchestration Processes

- Learning Objectives 15-2
- Order-to-Cash Process 15-3
- Topics 15-4
- Orchestration 15-5
- Topics 15-7
- Task Types Predefined 15-8
- Predefined Task Types: Explained 15-9
- Creating Your Own Task Type 15-12
- Creating Your Own Task Type: Additional Setup 15-13
- Topics 15-14
- Predefined Orchestration Processes 15-15
- Managing an Orchestration Process Definition 15-16
- Topics 15-19
- Dependencies Between Steps 15-20
- Demo 15-22
- Topics 15-23
- Oracle Business Rules (OBR) in Orchestration Process Definitions 15-24
- Demo 15-26
- Topics 15-27
- Validating New or Updated Orchestration Process Definitions 15-28
- Topics 15-29
- Setting Up Orchestration Processes for Coverage Items 15-30
- Setting Up Orchestration Processes for Coverage Items: Fulfillment Lines in Same Instance 15-31
- Setting Up Orchestration Processes for Coverage Items: Fulfillment Lines in Different Instances 15-32
- Topics 15-33

Setting Up an Orchestration Process to Reduce Inventory When a Sales Order Isn't Picked or Shipped 15-34
Demo 15-35
Practices: Overview 15-36
Summary 15-37

16 Managing Statuses

Learning Objectives 16-2
Order-to-Cash Process 16-3
Topics 16-4
Managing Statuses 16-5
What Are Statuses? 16-6
Topics 16-8
How Statuses Are Assigned 16-9
Topics 16-10
Status Setup 16-11
Setting Up Status Values 16-12
Setting Up Task Status Conditions 16-13
Process Class and Status Catalog 16-14
Setting Up Status Conditions 16-16
Orchestration Process Status Conditions 16-17
Fulfillment Line Status Conditions 16-18
Practices: Overview 16-19
Summary 16-20

17 Planning Orchestration Processes

Learning Objectives 17-2
Order-to-Cash Process 17-3
Orchestration Process Planning 17-4
What Is Planning? 17-5
Practice 17-7
Summary 17-8

18 Deploying Orchestration Processes

Learning Objectives 18-2
Order-to-Cash Process 18-3
Deploying Orchestration Processes 18-4
Releasing and Deploying the Orchestration Process Definition 18-5
Practice 18-6
Summary 18-7

19 Managing Jeopardy

Learning Objectives 19-2
Order-to-Cash Process 19-3
Topics 19-4
Managing Jeopardy 19-5
What Is Jeopardy? 19-6
Topics 19-7
Managing Jeopardy Priorities 19-8
Topics 19-9
Managing Jeopardy Threshold Definitions 19-10
Demo 19-13
Summary 19-14

20 Promising Orders: Introduction and Overview

Learning Objectives 20-2
Order Promising 20-3
Functional Architecture: Supply Chain Planning and Oracle Global Order Promising
20-4
Functional Integration Touchpoints 20-5
Functional Components 20-6
Key Functionality 20-7
Advanced Fulfillment Techniques 20-9
Promising of Configure-to-Order Items 20-10
Work Area for Managing Order Backlog 20-11
Summary 20-12

21 Promising Orders: Rules

Learning Objectives 21-2
Topics 21-3
Sourcing Rules 21-4
Global and Local Sourcing Rules 21-5
Global Sourcing Rules and Assignment 21-6
Creating Sourcing Rules 21-7
Assigning Sourcing Rules 21-8
Supported Assignment Levels for Global Sourcing 21-9
Sourcing Rule and Assignment Setup: Example 21-11
Local Sourcing Rules 21-12
Demo 21-13
Topics 21-14
ATP Rules 21-15

Promising Attributes: Promising Modes 21-16
Promising Mode: Supply Chain Availability Search 21-17
ATP Rule Assignment 21-19
Demo 21-20
Practice 21-21
Summary 21-22

22 Promising Orders: Key Functionality

Learning Objectives 22-2
Topics 22-3
Order Promising Workflow 22-4
Check Availability: Key Features 22-5
Check Availability 22-6
Alternate Availability Options 22-8
Topics 22-9
Capable-to-Promise 22-10
Topics 22-11
Profitable-to-Promise 22-12
Demo 22-13
Topics 22-14
Fulfillment Line Splits 22-15
Topics 22-16
End Item Substitution 22-17
Topics 22-18
Support Advanced Fulfillment Techniques 22-19
Topics 22-23
CTO Promising 22-24
Topics 22-25
Global Order Promising Work Area 22-26
Demo 22-28
Summary 22-29

23 Promising Orders: Administration and Data Collection

Learning Objectives 23-2
Topics 23-3
Data Collections for Global Order Promising 23-4
Collected Data 23-5
Data Collections Using File-Based Import 23-7
Global Order Promising Data You Can Collect Through File-Based Data Import 23-8
Order Management Data You Can Collect Using File-Based Data Import 23-9

Data Collection Configuration Summary 23-10
Data Collection from Files: Uploading the File 23-12
Data Collection from Files: Running the Scheduled Process 23-13
External Source System Setup 23-14
Cross-Reference Data Collections Setup Detail 23-15
Viewing the Cross-Reference Collected Data Setup Detail 23-17
Topics 23-18
Administration: When Not to Restart the Global Order Promising Engine 23-19
High-Volume Order Promising: Functionality It Enables 23-20
Using Pick-Pack Lead Time 23-21
Enabling Real-Time On-Hand and In-Transit Supply Data for Available-to-Promise Calculations 23-22
Administration: Real-Time Supply Update 23-23
Summary 23-24

24 Shipping Orders: Overview

Learning Objectives 24-2
Topics 24-3
Shipping Process Flow and Users 24-4
Integrated Trade Compliance in Oracle Inventory 24-6
Integrated Transportation in Oracle Inventory Management 24-7
Integrating with an External Manufacturing System 24-8
Topics 24-9
Pick Release Process Flow 24-10
Topics 24-12
Ship Confirm Process Flow 24-13
Topics 24-15
Quick Shipment 24-16
Demo 24-18
Summary 24-19

25 Shipping Orders: Basic Setup

Learning Objectives 25-2
Topics 25-3
Shipping Parameters 25-4
Shipping Parameters: General 25-6
Shipping Parameters: Pick Release 25-8
Shipping Parameters: Shipment Grouping 25-10
Topics 25-11
Carriers 25-12
Topics 25-13

Shipping Cost Types 25-14
Topics 25-15
Shipping Documents 25-16
Shipping Document Job Sets 25-17
Managing Shipping Document Job Set Rules 25-20
Managing Shipping Document Output Preferences 25-22
Shipping Document Sequences 25-23
Topics 25-25
Shipping Exceptions 25-26
Topics 25-28
Shipping Lookups 25-29
Topics 25-30
Shipping Process Flow and User Roles 25-31
Demo 25-32
Practice 25-33
Summary 25-34

26 Shipping Orders: Manage Pick Waves

Learning Objectives 26-2
Topics 26-3
What Is a Pick Wave? 26-4
Pick Wave Usage 26-5
Pick Release Process Options 26-6
Pick Release 26-7
Topics 26-8
Movement Request 26-9
Topics 26-10
Pick Wave Release Rule 26-11
Demo 26-12
Topics 26-13
Release Sequence Rules 26-14
Topics 26-15
Picking Rules 26-16
Picking Rule Assignments 26-18
Topics 26-20
Pick Slip Grouping Rule 26-21
Shipping Document Job Sets 26-23
Practice 26-24
Summary 26-25

27 Shipping Orders: Confirm Picks

- Learning Objectives 27-2
- Topics 27-3
- Pick Confirmation: Overview 27-4
- Pick Confirmation Process 27-5
- Release Process Options 27-6
- Topics 27-7
- Manual Pick Confirmation Setup 27-8
- Automatic Pick Confirmation Setup 27-9
- Demo 27-10
- Practice 27-11
- Summary 27-12

28 Shipping Orders: Confirm Shipment

- Learning Objectives 28-2
- Topics 28-3
- What Is Ship Confirm? 28-4
- Pick Release and Ship Confirmation Process Options 28-5
- Topics 28-6
- One-Step Shipping 28-7
- Ship Confirmation 28-9
- Ship Confirmation Actions 28-10
- Topics 28-11
- Shipping Confirmation Rules 28-12
- Topics 28-14
- Ship Confirm Rule: Shipping Parameters 28-15
- Consolidation of Backordered Lines 28-16
- Topics 28-17
- Shipment Consolidation 28-18
- Practice 28-19
- Summary 28-20

29 Revising Orders

- Learning Objectives 29-2
- Topics 29-3
- Order-to-Cash Process 29-4
- Change Order Processing 29-5
- Topics 29-6
- Business Flow: Revise Order 29-7
- Revising an Order 29-8
- Revise Order – Copying Data from Another Order 29-9

Change Processing: Concepts 29-10
Change Processing: Before 29-11
Change Processing: Evaluating the Differences 29-12
Change Processing: Compensating the Process 29-14
Change Processing: Result 29-15
Updating Orders with Split Lines Resulting from Partial Shipment: Overview 29-16
Updating Orders with Split Lines Resulting from Partial Shipment: Creating a Revision 29-17
Change Management on Updates to a Fulfillment Line That Was Split for Partial Shipment 29-18
Enabling Update of Split Order Lines for Partial Shipment 29-19
Summary 29-20

30 Setting Up Change Order Processing

Learning Objectives 30-2
Order-to-Cash Process 30-3
Change Order Processing 30-4
Change Management Setup: Overview 30-5
Topics 30-6
Compare Change Order to Fulfillment Values 30-10
Topics 30-11
Change Management Attributes on the Orchestration Process Definition 30-12
Topics 30-14
Order Attributes That Identify Change (Change Attributes) 30-15
Topics 30-16
Compensation 30-17
Demo 30-18
Practice 30-20
Summary 30-21

31 Managing Holds

Learning Objectives 31-2
Order-to-Cash Process 31-3
Managing Holds 31-4
Topics 31-5
Holds in Order Management 31-6
Topics 31-7
Applying Holds Manually 31-8
Applying Holds Automatically 31-9
Topics 31-10
Releasing Holds Manually 31-11

Releasing Holds Automatically 31-12
Topics 31-13
Setting Up Holds on the Manage Hold Definitions Page 31-14
Setting Up Holds Using Order Management Extensions 31-15
Demo 31-16
Summary 31-18

32 Understanding External Integration

Learning Objectives 32-2
Topics 32-3
External Integration: Introduction 32-4
Managing Integration with Order Management 32-6
Topics 32-7
Managing External Interface Web Service Details 32-8
Topics 32-9
Oracle Integration for Oracle SaaS 32-10
Topics 32-11
Manage External Interface Routing Rules 32-12
Topics 32-13
Business Event Notification 32-14
Business Event Trigger Points 32-16
Topics 32-18
Fulfill Order Task Layer 32-19
Topics 32-20
Custom Task Layer 32-21
Demo 32-22
Summary 32-25

33 Overview of Project-Driven Supply Chain

Introducing Project-Driven Supply Chain 33-2
Project-Driven Supply Chain 33-3
Features of Project-Driven Supply Chain 33-4
Summary of Actions Needed to Use Execute Project-Specific Manufacturing 33-5
Associated Training 33-6
Additional Resources 33-7

34 Conclusion

Learning Objectives 34-2
Order-to-Cash Process 34-3
Optional Practice 34-4
Contents

AI/ML-Driven Customer-Centric Experience

Objectives	-2
Customer centricity is the mission for modern marketing and sales.	-3
Oracle Unity CDP gives enterprises the AI/ML capabilities needed to deliver customer-centric experiences.	-4
Data Signals to Unified Profiles	-6
Lead to Opportunity	-7
CUSTOMER LIFECYCLE Example	-8
AI-Driven Customer-Centric Marketing, Sales, and Beyond	-9
Oracle Unity AI/ML Pre-Requisites	-13
Identify the Best Market Segment with AI/ML	-14
