Except where your use constitutes "fair use" under copyright law, you may not use, share, download, upload, copy, print, display, perform, reproduce, publish, license, post, transmit, or distribute this document in whole or in part without the express authorization of Oracle.

The information contained in this document is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

Restricted Rights Notice

If this documentation is delivered to the United States Government or anyone using the documentation on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

Trademark Notice

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

Third-Party Content, Products, and Services Disclaimer

This documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Table of Contents

Module 1: OCI Introduction	11
Introduction	11
Complete Cloud Infrastructure Platform	12
Cloud Regions, Hybrid Cloud, Multi-Cloud,	
Powerful Core Infrastructure Services	14
Comprehensive Database Services	15
Broad Data Management and Data Science Capabilities	16
Manage, Secure, and Operate at Scale,	
Build and Run Cloud Native Applications and Extend Existing Apps	18
Robust Oracle Analytics and Third-Party Support	19
Comprehensive Horizontal and Industry SaaS Portfolio	20
Complete Cloud Infrastructure Platform	21
Module 2: Base Database Service	22
Oracle Base Database Service Overview	22
Database Services in Oracle Cloud	23
Oracle Base Database Service	24
License-Included Oracle Database Consumption Options	25
Virtual Machines	26
Virtual Machine Database System Options	27
Shapes for Virtual Machine Database Systems	28
VM DB Systems Storage Architecture	29
Fault Domains, Availability Domains, and Regions,	
Cloud Automation for Life Cycle Management	31
Oracle Maximum Availability Architecture (MAA)	32
MAA Components for License-Included Editions	33
Integrated Security from Data to Identity	34
Data Safe – Database Security Control Center	35
Create Oracle Base Database Service	36
Objectives	37
Prerequisites to Launching a Virtual Machine DB System	38
Identity and Access Management Service	39
Identity & Access Management (IAM) Policy: Syntax	40
Virtual Cloud Network (VCN)	41
Using the Console	42
Creating a VCN for a Virtual Machine DB System	43
Using the Console to Launch a Virtual Machine DB System	46
Steps to Fill in Virtual Machine DB System Information	47
Steps to Fill in Network Information	49
Oracle Database Software Images	50
Steps to Fill in Database Information	51
Using the Console to Check the Status of a DB System	53
Connecting to a Virtual Machine DB System with SSH	54

Virtual Machine DB System OS Users	55
Summary	56
Manage Oracle Base Database Service	57
Objectives	58
Display Virtual Machine DB System and Database State	59
Start, Stop, and Reboot a Virtual Machine DB System, Scale OCPUs	61
Scale Up Storage	65
Clone a Virtual Machine DB System	66
Updating (Patching) the Operating System	67
Terminate a Virtual Machine DB System	68
Manage Tags	69
Summary	70
Oracle Base Database Service - Database Lifecycle Management	71
Objectives	72
Create Databases	73
PDB Lifecycle Management	74
Backup Options	75
Configure Automatic Backups for a Database	76
Automatic Database Backup: Default Configuration	77
Create an On-Demand Full Backup of a Database	78
Restore Database	79
Update a DB System and Database	80
Best Practices for updating Virtual Machine DB System databases	81
Update a DB System	82
Update a Database	83
Upgrade a Database to 19c	84
View DB System and Database Patch History	85
Enable Data Guard	86
Enable Oracle Data Guard	87
Data Guard Requirements	88
Data Guard Configuration Options and Operations	89
Summary	90
Base Database Service - Database Metrics & Management Interfaces	91
Objectives	92
Metrics and Performance Hub	93
Database Management – Metrics	95
Database Management – Performance Hub	96
Database Management – Full Management Features	97
OCI Management Interfaces	98
Using the CLI to Create and Manage DB Systems	99
Summary	100
Module 3: Exadata Database Service	101
Exadata Performance on Dedicated Cloud Infrastructure or Exadata	101
Exadata Vision	102
Fastest OLTP	103

Fastest Analytics	105
Best Consolidation	106
Thousands of Critical Deployments, On Premises, and in the Cloud, Exadata in Oracle Cloud	108
100% Compatible Exadata On-Premises, Hybrid Cloud and Public Cloud, Enterprise-Grade Cloud Data Management	110
Exadata in Oracle Cloud: Most Complete Database Service Available	111
Exadata in Oracle Cloud Architecture	112
Hybrid Cloud: Public Cloud Simplicity and Elasticity Behind your Firewall	113
Exadata Cloud@Customer Architecture	114
Exadata Database Service	115
Database Services on Exadata in Oracle Cloud	116
Exadata Database Service on Dedicated Infrastructure	117
Exadata Database Service on Cloud@Customer	118
Elastic OCPU Scaling - Pay Only for What You Use	119
Cost-Effective Software Licensing Models	120
Simple Cloud Management Model	121
Cloud Automation for Life Cycle Management	122
Oracle Maximum Availability Architecture (MAA)	123
Exadata Database Service: Protection Out of the Box	124
Database Backup	125
HA Standby/Disaster Recovery	126
Integrated Security from Data to Identity	127
Operator Access Control (OpCtl)	128
Mission-critical cloud database capabilities where you need them	129
Exadata: Network, Infrastructure, VM Cluster Overview	130
Objectives	131
Network Overview	132
Network Architecture	133
Service Architecture	136
Create Exadata Infrastructure	137
Exadata Database Service - Resource Model	138
Oracle Cloud Infrastructure (OCI) Web Console	139
Creating Exadata Infrastructure Resource	140
Exadata Infrastructure Resource Details	141
Create Exadata VM Cluster	142
Exadata Cloud VM Cluster	143
Exadata Database Service	144
Exadata Snapshot Databases	145
Sparse Test Masters	146
Create Exadata VM Cluster	147
Summary	148
Exadata Infrastructure and VM Cluster Management	149
Objectives	150
Management Overview	151
Exadata Database Service - Responsibility Matrix	152
Exadata Database Service	153

Identity and Access Management Service	154
Infrastructure Maintenance	156
Infrastructure Maintenance Process	157
Scheduling Infrastructure Maintenance	158
Automatic Infrastructure Maintenance Scheduling	159
Infrastructure Maintenance Scheduling Policies	160
Impact of Infrastructure Maintenance	161
Scaling Exadata Cloud Infrastructure	162
Scale Exadata Infrastructure	163
Scaling the VM Cluster	164
Scale VM Cluster	165
Scale VM Resources	166
VM Cluster Node Subsetting	167
Networking with Node Subsetting	169
Provision VM Cluster on a subset of DB Servers	170
Update Exadata VM Database License Type	171
VM Power Management	172
Move Exadata VM Cluster to Another Compartment	173
Tailor VM Network Traffic Access	174
Summary	175
Database Lifecycle Management	176
Objectives	177
Create Database Homes and Databases	178
Create a Database Home and Database	179
Create a Database from a Backup	180
Create Custom Database Software Image	181
Pluggable Database Management	183
Manage Database Backup & Recovery	185
Database Backup	186
Configure Automatic Backups for a Database	187
Automatic Database Backup	188
Create an On-Demand Full Backup of a Database	189
Exadata Cloud@Customer	190
Restore Database	192
Customer Managed Keys with OCI Vault/Key Vault	193
Using Oracle & Customer-Managed Keys	194
Oracle Key Vault	195
User-Managed Maintenance Updates	196
Exadata Database Service – Patching Responsibility Matrix	197
VM Cluster	198
Grid Infrastructure and Database Updates	200
Exadata Database Service	201
Grid Infrastructure (GI)	203
Database Home	204
Move an Existing Database to a New Database Home	206
Grid Infrastructure & Database Home	207
Grid Infrastructure Upgrade	208

Grid Infrastructure (GI)	209
Upgrade Database	210
Select Target Database Home to Upgrade the Database to 19c	211
Exadata OS Image Updates	212
Exadata OS Image Update	214
Enable Data Guard	215
Enable Disaster Recovery & Standby HA Using Data Guard	216
Data Guard Configuration Options & Operations	217
Data Guard Requirements	219
Summary	220
Management Tools	221
Objectives	222
Understanding the Various OCI Management Tools	223
OCI Management Interfaces	224
Oracle Cloud Web based UI	225
Exadata Database Service – Console UI	226
Exadata Database Service	227
Command Line Interface	228
OCI Command Line Interface (OCI CLI)	229
OCI CLI – Examples	230
SDKs	231
Software Development Kit (SDK)	232
Terraform	233
Terraform for Exadata Database Service	234
Ansible	236
Additional Utilities	238
Example Commands using dbaascli	240
Example Commands using ExaCLI	241
Example Commands using bkup_api	242
Events	243
Event Categories	245
Event Notifications – Example Critical Event Message	246
Monitoring Exadata Resources with OCI Metric Charts	247
Exadata Database Service	248
Oracle Management Cloud	249
Summary	250
Module 4: MySQL Database Service	130
MySQL HeatWave Database Service	251
Objectives	252
MySQL Is the #1 Open-Source Database	253
Innovative Enterprises Across Many Industries Run MySQL	254
MySQL Community Versus MySQL Enterprise	255
MySQL on Third-Party Clouds	256
Introducing MySQL HeatWave Database Service	257
Introducing MySQL HeatWave Database Service	258
MySQL HeatWave Database Service: Ease of Use	259
MySQL HeatWave Database Service: Security First	260

MySQL HeatWave Database Service: Security and Regulatory Compliance	261
MySQL HeatWave Database Service: Enterprise Ready	262
MySQL HeatWave Database Service: Flexible Deployment Options	263
MySQL HeatWave Database Service: Focus on Your Business	264
Remember: Describe the MySQL HeatWave Database Service	265
Summary	266
MySQL HeatWave Database Service Resources	267
MySQL Database Service - Operating MySQL Database Service	268
Agenda	269
Manage MySQL Data Service	270
Maintain MySQL Data Service	272
Monitor MySQL Data Service	273
MySQL Data Service Performance	274
MySQL Data Service Backup	275
MySQL Database Service - Provision and connect to MySQL Database Service	277
Agenda	278
Access the MySQL Database Service from the Oracle Cloud Console	279
MDS System Architecture	280
MDS DB System Build	281
Create MySQL DB System	282
Create Compute Instance	286
MDS Connect and Load	287
SSH Compute and MySQL Shell	288
SSH and Workbench	289
Loading Data into MySQL	290
MySQL Database Service and HeatWave - Create, manage and use HeatWave	291
Agenda	292
Overview - Description	293
Overview - HeatWave Architecture	294
HeatWave Prerequisites	295
Adding HeatWave Cluster to DB System	296
Adding HeatWave Cluster - Estimate Node Count	297
Loading Data Into The HeatWave Clusters	298
Running Queries In HeatWave	299
HeatWave Cluster Start and Stop	300
HeatWave Cluster Delete	301
MySQL + HeatWave	302
Module 5: Oracle NoSQL Database Cloud Service	268
Overview	303
Today's Modern Applications	305
Oracle NoSQL Database Cloud Service	306
Pricing Model	315
Oracle NoSQL Database Cloud Service (NDCS)	316
Oracle NoSQL Database Cloud Service	317

Feature Overview	319
Throughput Capacity	320
Write Unit, Read Unit, Oracle NoSQL Database Cloud Service	322
Seamless multi-model	329
Feature Overview	330
Oracle NoSQL Database Cloud Service	335
Fully Managed Cloud Service	336
Differentiators	338
Security	339
Objectives	340
Oracle NoSQL Database Cloud Service	341
Instant Elasticity at Table Level	342
Oracle NoSQL Database Cloud Service	343
Data Models	344
Agenda	345
Oracle NoSQL Database Cloud Service	346
Seamless Multi-Model	353
Feature Overview	354
Throughput	355
Agenda	356
Oracle NoSQL Database Cloud Service	357
Feature Overview	358
Throughput Capacity	359
Write Unit, Read Unit,	

Module 6: Oracle Cloud Infrastructure Database Management Service ... 361

External and Oracle Cloud Databases	361
Agenda	362
Database Management Service	363
OCI Database Management	364
Key Use Cases	365
Oracle Cloud Infrastructure Database Management Service	366
Manage Oracle Database	367
Database Management Features	368
Monitoring and Management	369
Autonomous Database	370
Performance Hub	371
Real-Time SQL Monitoring	372
Exadata Monitoring	373
AWR Explorer	374
Oracle Real Application Clusters (RAC) Monitoring	375
SQL Tuning Advisor	376
Schema Management	377
Schema Management (Contd ...)	378
Database Administration	379

OCI Database Management Service	380
Database Management Supported Deployments	381
Database Management	382
Oracle Observability and Management Platform	383
Bare Metal, Virtual Machines and Exadata Cloud	384
Agenda	385
Oracle Cloud Infrastructure Database Management Service	386
Management Options for Oracle Cloud Databases	387
Database Management Service	388
Prerequisites and Permissions	390
Database Management	391
Architecture for Oracle Cloud Databases	397
Database Management	399
Enable Database Management for Oracle Cloud Databases	402
Database Management	406
Database Management Pricing	409
Installing and Configuring Management Agents for Database Management	410
.....	
Installing and Configuring Management Agents for Database Management	411
Set Up Oracle Cloud Infrastructure for Management Agents	413
Download the Agent Software from Management Agent Cloud Service in OCI	415
Download the Management Agent Software	416
Install the Management Agent Software	417
Install and configure the Management Agent Software	418
Verify the Management Agent Software	419
Operations Insights - Observability and Management for OCI Databases	421
.....	
Customer Challenges	422
Operations Insights Overview	423
Operations Insights	424
Oracle Cloud Infrastructure Operations Insights Service: Overview	425
Forecast Resource Requirements	426
Forecast Capacity	427
Aggregation	428
Insights into SQL performance	429
SQL details	430
Exadata Resource Insights and Database Consolidation	431
Oracle Cloud Infrastructure Operations Insights Service: Key Capabilities	432
