AI-3002: Develop solutions with Azure AI Document Intelligence

Duration: 01 days (08 hours)

Learning objectives:
After completing this course, students will be able to:
- Use prebuilt Document Intelligence models
- Train a custom Document Intelligence model
- Build a custom composed model
- Advanced features of Document Intelligence Service

Pre-requisite:
- Familiarity with Azure AI Services and the Azure portal.

Module 01: Use prebuilt Document Intelligence models
- Understand models in Azure AI Document Intelligence
- Train a custom Document Intelligence model
- Connect an app to Document Intelligence APIs
- Build a custom composed model

Module 02: Train a custom Document Intelligence model
- Train a custom model in Document Intelligence Studio
- Test your custom Document Intelligence model

Module 03: Build a custom composed model
- Train two custom models
- Assemble a composed model
- Test your composed model

Module 04: Advanced features
- Add-on capabilities
- Integrate with Azure AI Search
- Retrieval-Augmented Generation (RAG) with Document Intelligence
- generative AI solution
