

Certified Revenue Cycle Representative (CRCR)

Course Duration: 64

- **Unit 1: Revenue Cycle in Health Care**

- This module introduces the revenue cycle in healthcare and covers the key concepts and processes. It sets the foundation for the entire course.

- **Unit 2: Pre-Service - Financial Care**

- This unit focuses on the financial aspects and processes that occur before services are provided, such as patient registration and insurance verification.

- **Unit 3: Time of Service - Financial Care**

- This module covers the financial processes during the service, including collecting patient responsibility and understanding billing codes.

- **Unit 4: Post-Service - Financial Care**

- This section focuses on billing, insurance claims, collections, and patient communication after services have been rendered.
