 - a. Benefits of Cascading Style Sheets
 - b. CSS Rules
 - c. Selectors
 - d. Combinators
 - e. Precedence of selectors
 - f. How browsers style pages
 - g. CSS resets
 - h. CSS normalizers
 - i. External stylesheets, embedded stylesheets and inline styles
 - j. Exercise 5: Creating an external stylesheet
 - k. Exercise 6: Creating embedded stylesheet
 - l. Exercise 7: Adding inline styles
 - m. <div> and
 - n. Exercise 8: Styling div and span

- o. Media Types
 - p. Units of measurement
 - q. Inheritance
- 7. CSS Fonts
 - a. font-family
 - b. @font-face
 - c. font-size
 - d. font-variant
 - e. font-weight
 - f. line-height
 - g. font
 - h. Exercise 9: Styling fonts
- 8. Color and Opacity
 - a. About color and opacity
 - b. Color and opacity values
 - c. Color
 - d. Opacity
 - e. Exercise 10: Adding color and opacity to text
- 9. CSS Text
 - a. letter-spacing
 - b. text-align
 - c. text-decoration
 - d. text-indent
 - e. text-shadow
 - f. text-transform
 - g. white-space
 - h. word-break
 - i. word-spacing
 - j. Exercise 11: Text Properties
- 10. JavaScript Basics
 - a. JavaScript vs. EcmaScript
 - b. The HTML DOM
 - c. JavaScript Syntax
 - d. Accessing elements
 - e. Where is JavaScript code written?
 - f. JavaScript Objects, Methods and Properties
 - g. Exercise 12: Alerts, Writing and Changing background color
- 11. Variables, Arrays and Operators
 - a. JavaScript Variables
 - b. A Loosely Typed Language
 - c. Google Chrome DevTools

- d. Storing User-Entered Data
 - e. Exercise 13: Using Variables
 - f. Constants
 - g. Arrays
 - h. Exercise 14: Working with Arrays
 - i. Associative Arrays
 - j. Playing with Array Methods
 - k. JavaScript Operators
 - l. The Modulus Operator
 - m. Playing with Operators
 - n. The Default Operator
 - o. Exercise 15: Working with Operators
12. JavaScript Functions
- a. Global Objects and Functions
 - b. Exercise 16: Working with Global Functions
 - c. User-defined Functions
 - d. Exercise 17: Writing a JavaScript Function
 - e. Returning Values from Functions
13. Built-in JavaScript Objects
- a. String
 - b. Math
 - c. Date
 - d. Helper Functions
 - e. Exercise 18 Returning the Day of the Week as a String
14. Conditionals and Loops
- a. Conditionals
 - b. Short-circuiting
 - c. Switch / Case
 - d. Ternary Operator
 - e. Truthy and Falsy
 - f. Exercise 19: Conditional Processing
 - g. Loops
 - h. while and do...while Loops
 - i. for Loops
 - j. break and continue
 - k. Exercise 20: Working with Loops
 - l. Array: forEach()
15. Event Handlers and Listeners
- a. On-event Handlers
 - b. Exercise 21: Using On-event Handlers
 - c. The addEventListener() Method

- d. Anonymous Functions
 - e. Capturing Key Events
 - f. Exercise 22: Adding Event Listeners
 - g. Benefits of Event Listeners
 - h. Timers
 - i. Exercise 23: Typing Test
16. The HTML Document Object Model
- a. CSS Selectors
 - b. The innerHTML Property
 - c. Nodes, NodeLists, and HTMLCollections
 - d. Accessing Element Nodes
 - e. Exercise 24: Accessing Elements
 - f. Dot Notation and Square Bracket Notation
 - g. Accessing Elements Hierarchically
 - h. Exercise 25: Working with Hierarchical Elements
 - i. Accessing Attributes
 - j. Creating New Nodes
 - k. Focusing on a Field
 - l. Shopping List Application
 - m. Exercise 26: Logging
 - n. Exercise 27: Adding EventListeners
 - o. Exercise 28: Adding Items to the List
 - p. Exercise 29: Dynamically Adding Remove Buttons to the List Items
 - q. Exercise 30: Removing List Items
 - r. Exercise 31: Preventing Duplicates and Zero-length Product Names
 - s. Manipulating Tables
17. HTML Forms
- a. How HTML Forms Work
 - b. The form Element
 - c. Form Elements
 - d. Buttons
 - e. Exercise 32: Creating a Registration Form
 - f. Checkboxes
 - g. Radio Buttons
 - h. Exercise 33: Adding Checkboxes and Radio Buttons
 - i. Fieldsets
 - j. Select Menus
 - k. Textareas
 - l. Exercise 34: Adding a Select Menu and a Textarea
 - m. HTML Forms and CSS
18. JavaScript Form Validation
- a. Server-side Form Validation

- b. HTML Form Validation
 - c. Accessing Form Data
 - d. Form Validation with JavaScript
 - e. Exercise 35: Checking the Validity of the Email and URL Fields
 - f. Checking Validity on Input and Submit Events
 - g. Adding Error Messages
 - h. Validating Textareas
 - i. Validating Checkboxes
 - j. Validating Radio Buttons
 - k. Validating Select Menus
 - l. Exercise 36: Validating the Ice Cream Order Form
 - m. Giving the User a Chance
19. Regular Expressions
- a. Getting Started
 - b. Regular Expression Syntax
 - c. Backreferences
 - d. Form Validation with Regular Expressions
 - e. Cleaning Up Form Entries
 - f. Exercise 37: Cleaning Up Form Entries
 - g. A Slightly More Complex Example
