1 Oracle Fusion Cloud Financials: Cash Management Essentials Overview

- Course Objectives 1-2
- Course Schedule 1-3
- Lesson Objectives 1-4
- Cash Management: Overview 1-5
- Set Up Banks, Branches, and Bank Accounts: Overview 1-6
- Bank Statement Reconciliation Processing Overview 1-7
- Cash Positioning and Cash Forecasting: Overview 1-8
- Cash Positioning: Overview 1-9
- 5 Day Forecast: Overview 1-10
- Oracle Subledger Accounting: Overview 1-11
- Summary 1-12

2 Setting Up and Maintaining Banks, Branches, and Accounts

- Objectives 2-2
- Set Up and Maintain Banks, Branches, and Bank Accounts 2-3
- Manage and Maintain Banks 2-4
- Manage and Maintain Branches 2-5
- Manage and Maintain Bank Accounts 2-7
- General Tab 2-8
- GL Accounts 2-9
- Payment Documents 2-13
- Control Tab 2-14
- Security Tab 2-16
- Segregate the Privilege to Manage Bank Account Security 2-17
- Business Unit Access Tab 2-18
- Legal Entity-Based Data Access for Bank Account Setup 2-19
- Overview of Cash Management Rapid Implementation Spreadsheet 2-20
- Using the Rapid Implementation Spreadsheet 2-21
- Practices 2-22
- Summary 2-23

3 Set Up Banks for Automatic and Manual Statements and Reconciliations

- Objectives 3-2
- Cash Management Bank Statement Reconciliations 3-3

Integration with Payables and Receivables	3-4
Manage Payment Options	3-5
Payables Performs the following accounting: At Payment Issue	3-6
Payables Performs the following accounting: At Payment Clearing	3-7
Payables performs the following accounting: At Payment Issue and Clearing	3-8
Practice	3-9
Integration with Payables and Receivables	3-10
Receipt Class, Receipt Method, and Bank Account Relationship	3-11
Defining Receipt Classes	3-12
Receivables Clearance Method: Directly	3-14
Receivables Clearance Method: By Automatic Clearing	3-15
Receivables Clearance Method: By Matching	3-16
Receipt Methods	3-17
Practices	3-18
Key Setup Tasks for Bank Statement Processing	3-19
Cash Management Setups for Automatic Reconciliation	3-20
Bank Statement Transaction Codes	3-22
Manage Bank Statement Transaction Codes	3-23
Manage Cash Transaction Type Mapping	3-24
Payment Code Map Groups	3-25
Code Map Group Example	3-26
Parse Rule Sets	3-27
Parse Rule Set Example	3-28
Cash Management Setups for Automatic Reconciliation	3-30
Bank Statement Transaction Creation Rules	3-31
Manage Bank Statement Transaction Creation Rules	3-32
Bank Statement Reconciliation Setups	3-33
Bank Statement Reconciliation Tolerance Rules	3-34
Practice	3-36
Bank Statement Reconciliation Matching Rules	3-37
Manage Bank Statement Reconciliation Matching Rules Setup	3-39
Bank Statement Reconciliation Rule Sets	3-40
Practices	3-41
Structured Payment Reference On Receipts Created Using Lockbox and Services	3-42
Manage Cash Management Profile Options Setup	3-43
Journal Reconciliation With Value Date	3-44
Matching Type – Journal Transactions	3-45
Summary	3-47

4 Automatic and Manual Bank Statements and Reconciliation

Objectives 4-2
Bank Statement Processing Overview 4-3
Reconciliation Process 4-4
Bank Statement Handling and Reconciliation Overview 4-5
Bank Statement Handling Features 4-6
Electronic Bank Statements: Overview 4-7
Wild Card Support for Bank Statement Processing Using UCM Protocol 4-8
UCM Reader Protocol – Business Case 4-9
Demonstration 4-12
Create Bank Statements in Spreadsheet 4-13
Automatic Reconciliation of Rejected Payments 4-14
Bank Statement Attachments 4-15
Performing Bank Statement Reconciliation 4-16
Automatic Reconciliation of Bank Accounts for a Bank, Bank Branch, or
Legal Entity 4-17
Practice 4-18
Manual Reconciliation 4-19
Manually Unreconcile the Rejected Lines 4-20
Manual Reconciliation 4-21
Reconcile Bank Statements directly from General Ledger Journal Entries 4-22
Reconciling Journal Lines For Multiple Cash Account Combinations 4-23
Exclude Reversal Journal Entries from Bank Statement Reconciliation 4-25
Create Transaction 4-26
Create External Transaction for Foreign Exchange Gain or Loss 4-27
Reconcile Zero Amount System Transactions 4-28
Mass Reconciliation of Bank Statement Lines and System Transactions 4-29
Subledger Accounting Overview 4-30
Recording Accounting for Cash Management 4-31
The Create Accounting Process 4-32
Summary 4-34

5 Cash Positioning, Cash Forecasting, and Account Transfers

Objectives 5-2
Cash Positioning and Cash Forecasting: Overview 5-3
Cash Positioning and Forecasting Components 5-4
Sources and Scheduled Processes 5-5
ESS Programs to create cash position: 5-6
Manual Transactions 5-7
Cash Positioning: Explained 5-8
Assign User Exchange Rate for Cash External Transactions 5-9

Using Smart View to Generate a Cash Position	5-10
Cash Positioning and Forecasting Components	5-11
Practice	5-12
Cash Forecasting: Explained and Considerations	5-13
Cash Positioning and Forecasting Solution	5-14
Essbase Cube Dimensions	5-15
Overdue Invoices in Cash Forecast	5-16
Ready to Use Smart View Templates	5-17
Extended Cash Forecasts	5-18
Practice	5-19
Cash Management Landing Page: Cash Balances	5-21
Cash Management Tasks Panel Tab	5-22
Cash Position Page	5-23
5 Day Forecast Page	5-24
Transactions Cube	5-25
Cash Positioning and Forecasting – Cash Balances	5-26
Notional and Physical Cash Pools	5-27
Bank Account Transfers	5-29
Transferring Funds Between Bank Accounts	5-31
Bank Account Transfer	5-32
Making an Ad Hoc Payment: The Elements	5-33
Security in Bank Account Transfers and Ad Hoc Payments	5-34
Practice	5-35
Cash Management Infolets Overview	5-36
Infolet Repository	5-37
Practice	5-38
Summary	5-39

6 Subledger Accounting and Cash Management Reports

Objectives	6-2
Cash Management Reports Overview	6-3
Cash Management Analytics Publisher Reports	6-4
Oracle Transactional Analytics Publisher Report	6-5
Cash Management Subject Areas	6-6
Drill Down to Bank Statement or External Transaction from Cash Management	
Oracle Analytics Publisher Reports	6-7
Practice Overview: Running a Cash to GL Reconciliation Report	6-8
Subledger Accounting Reports	6-9
Subledger Accounting Predefined Reports Overview	6-10
Subledger Accounting Analytics Publisher Reports	6-11

Subledger Accounting Subject Areas 6-14

Practice Overview: Running a Subledger Accounting Analytics

Publisher Report 6-15

Summary 6-16
