1 Oracle Fusion Cloud Financials: Using Receivables Overview

Course Objectives	1-2
Lesson Objectives	1-3
Course Schedule	1-4
Introduction to Oracle Cloud Applications	1-6
Oracle Cloud Strategy	1-7
Oracle Cloud Applications: Product Families	1-8
Oracle Financials Cloud Overview	1-9
Financials Cloud: Key Features	1-10
Order to Cash Overview	1-11
Receivables Overview	1-12
Customer Model Overview	1-13
Transactions Overview	1-14
Receipt Creation	1-15
Overview of Cash Management	1-16
Summary	1-17

2 Customers

Objectives	2-2
Customers and Parties	2-3
The Trading Community Model	2-4
Managing Customers	2-5
Managing Customer Profile Classes	2-6
Profile Class Tab	2-8
Late Charges Tab	2-12
Demonstration Overview: Enabling the HZ_Auto_Site_Numbering Profile Option	2-14
Practice Overview: Defining a Customer Profile Class	2-15
Customer Model	2-16
Header	2-17
Address	2-19
Address Business Purposes	2-21
Simplified Customer Upload	2-23
Practice Overview: Creating a Customer	2-24
Summary	2-25

3 Managing Customer Billing

Objectives	3-2
Receivables Overview	3-3
Transactions Overview	3-4
Invoice Components – General Information	3-5
Invoice Components – Customer Information	3-7
The Billing Work Area	3-9
Infotiles	3-10
Creating and Processing Transactions	3-12
Creating an Invoice Manually	3-13
Transaction Defaults	3-14
Invoice Lines	3-16
Invoice Distributions	3-17
Completing Transactions	3-19
Bank Account Transfer Information for Completed Transactions	3-21
Practice Overview: Creating a Manual Invoice	3-22
Managing the AutoInvoice Process	3-23
AutoInvoice Validations	3-24
Standard Validations	3-25
Transaction Source Settings	3-26
Credit Memos Against Paid Invoices	3-27
AutoInvoice Execution Report	3-28
Correcting AutoInvoice Errors	3-29
Using the Workbook	3-30
ADFdi Spreadsheet Icons: Manage AutoInvoice Lines	3-32
Practice: Creating Receivable Invoices Using AutoInvoice Import Program	3-33
Automation of Invoicing and Receipt Applications For Advance Payments	3-34
Setups: Automation of Invoicing and Receipt Applications For Advance Payments	3-35
Create Prepayment Invoice via FBDI Spreadsheet	3-37
Apply a Prepayment Invoice to a Sales Invoice	3-38
Balance Forward Billing Overview	3-39
Balance Forward Bill Details	3-41
Enabling Balance Forward Billing	3-42
Practice Overview: Creating a Balance Forward Billing Cycle and Payment Terms	3-43
Balance Forward Billing: How Transactions Are Selected	3-44
Creating a Balance Forward Bill	3-46
Set Up for E-Mail Delivery of Balance Forward Bills	3-47
Update the Balance Forward Bill	3-49
Delivering Balance Forward Bills by Email	3-51

Practice Overview: Creating a Balance Forward Bill	3-53
Receivables Recurring Billing: Overview	3-54
What Can You Do?	3-55
Setup Detail	3-56
Creating a Recurring Bill Plan: Contract Attributes	3-57
Automatically Processing Recurring Billing Transactions	3-59
Manually Processing Recurring Billing Transactions	3-60
Reviewing Transactions Created by a Recurring Bill Plan	3-61
Modifying a Recurring Bill Plan	3-62
Tracking Bill Plan History Modifications	3-64
Practice Overview: Creating a Recurring Bill Plan	3-65
Printing Receivables Transactions	3-66
Printing Attachments with Transactions	3-68
Store Printed Receivables Transactions as Attachments	3-70
Rich Message Content in Transactions Delivered Using Email	3-72
Processing Billing Adjustments	3-73
How Adjustments Are Calculated	3-75
Automatic Adjustments	3-76
Credit Memos	3-77
Practice Overview: Creating a Credit Memo	3-79
Unapply Standard Credit Memo	3-80
Unapplying a Standard Credit Memo	3-81
Receivables Installment Update Overview	3-83
Setup Detail for Due Date	3-84
Setup Detail for All Other Adjustments	3-85
Updating the Unpaid Portion of an Installment Amount	3-86
Updating the Due Date	3-87
Adding and Deleting Installments	3-88
Receivables Accounting Entries	3-89
Summary	3-90

4 Processing Customer Payments

Objectives	4-2
Overview of Customer Receipts	4-3
Set Up and Maintain Banks, Branches, and Bank Accounts	4-4
Manage and Maintain Banks	4-5
Manage and Maintain Branches	4-6
Manage and Maintain Bank Accounts	4-8
General Tab	4-9
Control Tab	4-10
Security Tab	4-11

Business Unit Access Tab	4-12
Practice Overview: Creating Banks, Branches, and Bank Accounts	4-13
Receipt Class, Receipt Method, and Bank Account Relationship	4-14
Defining Receipt Classes	4-15
Receipt Methods and Remittance Banks	4-17
Practice Overview: Creating a Receipt Class and Receipt Method	4-18
The Accounts Receivable Work Area	4-19
Infotiles: Receipt Batches and Lockbox Exceptions	4-20
Infotiles: Unapplied Receipts and Unapplied Credits	4-22
Receipt Creation	4-24
Manual Receipt Entry Process	4-25
Open Receivables Search for Manual Receipt Application	4-26
Apply Customer Payments	4-27
Reversing Receipts	4-29
Recommendations for Receipt Processing: SmartReceipts	4-30
Settings That Affect Recommendations for Receipt Application	4-31
How Receipt Applications Are Calculated	4-33
Practice Overview: Creating a Receipt	4-35
Practice: Creating and Remitting Receipts Using Spreadsheet Templates, and Running Automatch Program to Apply Receipts	4-36
How Changing the Receipt Application Reverses an Adjustment	4-37
Automatically Unapplying Receipts	4-38
Approved Credit Amount Example	4-39
Enabling the Credit Memo Feature	4-40
Managing Automatic Receipts	4-41
How Automatic Receipts Are Processed	4-42
Managing Funds Capture	4-44
Retrieve Funds Capture Acknowledgement Files Using a Wildcard Search	4-46
Using the Wildcard Character	4-47
Retrieve Funds Capture Acknowledgement Files Using a Wildcard Search	4-48
Settlement Transaction Files	4-50
How Settlement Transaction Files Are Merged	4-51
Processing Receipts Using Lockbox	4-52
Using the Process Receipts Through Lockbox Program	4-54
Processing Refunds: Rules for Issuing Refunds	4-58
Issuing Non-Credit Card Refunds	4-59
Issuing Refunds for Overpayments	4-60
Practice Overview: Creating a Manual Refund	4-61
Processing Bank Deposits	4-62
Clearing Receipts	4-64
Summary	4-65

5 Managing Revenue for Receivables

- Objectives 5-2
- Managing Revenue for Receivables Overview 5-3
- Managing Revenue 5-4
- Revenue Scheduling Rules 5-6
- Revenue Recognition with a Deferred Revenue Scheduling Rule 5-7
- Revenue Recognition with a Non-Deferred Revenue Scheduling Rule 5-8
- Process Revenue Adjustments for Receivables 5-9
- Modifying Invoices with Deferred Revenue 5-10
- Practice Overview: Creating an Invoice Using an Invoicing Rule 5-12
- Revenue Contingencies 5-13
- Revenue Policies 5-14
- Processing Multiple Contingencies 5-15
- How Multiple Contingencies Are Calculated 5-16
- Recognize Scheduled In-Arrears Revenue After Payment is Received 5-18
- Enabling In-Arrears Revenue after Payment is Received 5-19
- Summary 5-20

6 Manage Accounts Receivable Balances

- Objectives 6-2
- Recording Accounting for Invoices 6-3
- The Create Accounting Process Flow 6-4
- The Create Accounting Process 6-5
- Export and Import Subledger Accounting Setup Data in Batches 6-7
- Demonstration Overview: Submitting Create Accounting in Final/Post 6-9
- Predefined Reports 6-10
- Receivables Predefined Reports 6-11
- Receivables Analytics Publisher Reports 6-12
- Receivables Oracle Transactional BI Reports 6-23
- Receivables Subject Areas 6-25
- Practice Overview: Running the Applied Receipts Register Report 6-32
- Close Receivables Accounting Period Overview 6-33
- Complete All Transactions for the Period Being Closed and Recognize Revenue 6-34
- Reconcile Receipts to Bank Statement Activity 6-35
- Transfer All Transactions to the General Ledger 6-36
- Set the Current Receivables Period to Close Pending 6-37
- Demonstration Overview: Setting a Receivables Period to Close Pending 6-38
- Receivables to Ledger Reconciliation Report Dashboard 6-39
- Improved Receivables to Ledger Reconciliation Drilldown Scalability 6-40
- Prepare Receivables to General Ledger Reconciliation Process 6-41

Receivables to Ledger Reconciliation Report: Security 6-43
Practice Overview: Submitting the Prepare Receivables to General Ledger
Reconciliation Process 6-44
Practice Overview: Running the Receivables to Ledger Reconciliation Report 6-45
Financials Data Extract for Receivables 6-46
Summary 6-47

7 Using Cash Management

Objectives 7-2
Cash Management: Overview 7-3
Integration with Receivables 7-4
Receivables Accounting Example: Functional Currency 7-5
Receivables Accounting Example: Foreign Currency 7-6
Manage Bank Account Security Privilege 7-7
Practice Overview: Creating Bank Statement Transaction Codes 7-8
Practice Overview: Managing Bank Statement Transaction Creation Rules 7-9
Practice Overview: Managing Bank Statement Reconciliation Matching Rules 7-10
Practice Overview: Managing Bank Statement Reconciliation Tolerance Rules 7-11
Practice Overview: Managing Bank Statement Reconciliation Rule Sets 7-12
Practice Overview: Assigning a Rule Set to a Bank Account 7-13
Practice Overview: Performing a Bank Statement Reconciliation with
Autoreconciliation. 7-14
Bank Statement Handling Features 7-15
Bank Account Transfer 7-16
Create External Transaction for Foreign Exchange Gain or Loss 7-17
Bank Statement Attachments 7-18
Manual Reconciliation 7-19
Reporting and Analysis 7-20
Cash Management Analytics Publisher Reports 7-21
Oracle Transactional Business Intelligence Report 7-22
Cash Management Subject Areas 7-23
Drill Down to Bank Statement or External Transaction from Cash Management OTBI
Reports 7-24
Practice Overview: Running a Cash to G/L Reconciliation report 7-25
Summary 7-26

8 Using Credit Management

Objectives 8-2
Credit Management Overview 8-3
Credit Management Tools 8-4
Credit Profiles and Policies 8-5

Managing a Credit Case Folder	8-6
Credit Reviews	8-8
Credit Review Management	8-9
Credit Reviews Work Area	8-10
Order Level Credit Recommendation	8-11
Entering Recommendations	8-12
Credit Case Folder Details Recommendations Tab	8-14
Periodic Credit Review Process	8-15
Periodic Credit Review Process and Report	8-17
Closing, Withdrawing, and Rejecting Case Folders	8-18
Data Points Overview	8-19
Data Points Categories	8-20
Credit Case Folder Details Page Data Points Tab	8-23
Scorable and Non-Scorable Data Points	8-25
Updating a Scoring Model	8-26
Summary	8-27
