An Overview

what you can expect from this program

With the GSDC Certified ISO 27001 Lead Auditor certification, professionals can validate their role in various areas, including planning, executing, and reporting audits on organizations' Information Security Management Systems (ISMS). The primary objective is to evaluate the effectiveness of these systems in safeguarding information confidentiality, integrity, and availability.

Certified ISO 27001 Lead Auditors possess a deep understanding of the ISO 27001 standard and its requirements, as well as the ability to apply audit techniques to assess whether an ISMS is compliant with the standard. Lead Auditors are also responsible for ensuring that audits are carried out in compliance with ISO 19011, the global standard for managing systems audits.

To attain the Certified ISO 27001 Lead Auditor status, individuals must complete an accredited course and pass an examination. This certification is highly valued in industries and organizations that prioritize information security and risk management.
