TOPICS

COURSE OVERVIEW

This course is designed to equip you with the knowledge and tools necessary to implement hyper automation in your organization. Process mining in Power Automate can help organizations discover inefficiencies in their processes and enable them to gain a deeper understanding of what goes on within each process from start to finish. Process mining in Power Automate gives organizations the tools to understand their real processes operate and identify opportunities to standardize, optimize, and improve operations while keeping them informed about the progress towards defined KPIs.

WHO THIS COURSE IS FOR

Process Analysts

Automation Developers

Business Analysts

IT Administrators

Operations Managers

LEARNING OBJECTIVES

This course will help you understand the concepts of:

- Process Mining
- Process Mining Capability
- Process mining Desktop app
- Process mining in Power Automate web portal
- Task mining Capability
- Administration and Security

6 Modules, 41 Topics

01

Overview of Process Mining

TOPICS

- Introduction to Process Mining
- Introduction to Task Mining
- When to use the process mining capability
- When to use the task mining capability
- Licensing
- Prerequisites
- Process mining concepts and its role in hyperautomation

02

Process Mining Capability

TOPICS

- Benefits of the process mining capability
- Business examples
- Templates
- Prepare Processes and Data
- Transform and Map Data
- Visualize and gain insights from processes
- Customize a report with your own Power BI workspace - Edit and Refresh Processes

03

Process Mining Desktop App

TOPICS

- Overview of Power Automate Process Mining
- Power Automate Process Mining desktop app
- Process Map
- Process Animation
- Statistics
- Root Cause Analysis
- Analyse Process with Variants
- Compare Process Views for Compliance
- Export Process Data
- Filtering
- Settings
- Advanced Features

04

Process Mining in Power Automate Web Portal

TOPICS

- Create a process mining report
- Process report and data validation
- Analyze the process mining report in Power Automate
- Project sharing and data refresh

05

Task Mining Capability

TOPICS

Overview · Getting started with Task Mining Capability · Prepare Processes and Recordings · Analyse Processes · Visualize Processes · Identify Automation Opportunities · Share Task Mining Processes

06

Administration and Security

TOPICS

Security and Privacy · Protect your data · Export and import your process · Known Issues

WHAT IS INCLUDED

Everything You Need to Succeed

- Koenig course material for every module
- Delivery by certified instructors and subject matter experts
- Hands-on exercises throughout the course
- Course completion certificate from Koenig

ABOUT KOENIG

Who We Are

Established in 1993, Koenig Solutions is a globally recognised training provider with 35+ technology partnerships, 5,000+ training programmes and a network of certified instructors and subject matter experts, supporting individuals and enterprise teams worldwide.
