ElevenLabs: AI Voice Models & ML Customization

Learn to set up, customize and integrate ElevenLabs AI voice models into business workflows and machine learning projects.

2 Days	14	14
DURATION	MODULES	TOPICS

COURSE OVERVIEW

The 11LABS training program is designed for professionals who are keen on leveraging AI tools and technologies within their organizational frameworks. This intensive two-day course will guide participants through the latest AI methodologies, enabling them to harness the power of 11LABS effectively. Through a series of interactive sessions, hands-on labs, and expert-led discussions, attendees will gain a comprehensive understanding of how AI can be integrated into various business processes to drive innovation and efficiency.

WHO THIS COURSE IS FOR

- **AI Practitioners**
- **Data Analysts**
- **Machine Learning Engineers**
- **Business Process Owners**
- **Solution Designers**

LEARNING OBJECTIVES

- Explain core AI concepts and their impact on businesses
- Describe the 11LABS platform and its tool offerings
- Analyse case studies of 11LABS use across industries
- Identify the fundamental algorithms behind 11LABS applications
- Configure the 11LABS environment on local and cloud setups
- Apply machine learning techniques for data analysis in 11LABS
- Customize existing AI models to fit business needs
- Plan the integration of 11LABS into existing workflows

COURSE SYLLABUS

14 Modules, 14 Topics

DAY 1 Introduction to AI Technologies and 11LABS

01
Overview of Artificial Intelligence

TOPICS

- Explore the core concepts of AI, its evolution, and its impact on modern-day businesses

02
Introduction to 11LABS

TOPICS

- Understand what 11LABS is, its offerings, and how their AI tools are revolutionizing the industry

03
Use Cases of 11LABS in Various Industries

TOPICS

- Analyze successful case studies to see how 11LABS solutions are applied in different sectors

04
Understanding AI Algorithms

TOPICS

- Dive deep into the fundamental algorithms that power 11LABS applications

05
Setting Up the 11LABS Environment

TOPICS

- Guide on installing and configuring 11LABS tools on your local and cloud environments

06

Hands-on Session: Getting Started with 11LABS Tools

TOPICS

- Practical exercises to familiarize yourself with basic functionalities and interfaces

07

Ethical Considerations in AI Development

TOPICS

- Discuss the ethical implications of AI tools and strategies for responsible development and deployment

DAY 2 Advanced Applications of 11LABS and Practical Implementation

01

Data Analysis and Machine Learning with 11LABS

TOPICS

- Explore techniques for data preparation, analysis, and deploying machine learning models using 11LABS platforms

02

Customizing AI Models in 11LABS

TOPICS

- Learn how to adapt and customize existing models to fit specific business needs

03

Integrating 11LABS into Existing Workflows

TOPICS

- Strategies for seamless integration of 11LABS solutions into current business processes

04

Advanced Tool Features of 11LABS

TOPICS

- Detailed exploration of advanced features and capabilities within 11LABS tools

05

Case Study: Designing AI Solutions with 11LABS

TOPICS

- Collaborative session to design and propose AI solutions using 11LABS based on real-world challenges

06

Hands-on Session: AI Project Development

TOPICS

- Participants will develop a mini AI project using 11LABS, integrating learnings from the course

07

Future Trends in AI Technology

TOPICS

- Insights into the latest AI trends and how 11LABS is positioning itself for the future

WHAT IS INCLUDED

Everything You Need to Succeed

- Koenig course material for every module
- Delivery by certified instructors and subject matter experts
- Hands-on exercises throughout the course
- Course completion certificate from Koenig
